

External SCSI port available for IBM @server pSeries 615 and IntelliStation POWER 275

Overview

pSeries® 615 Model 6E3/6C3 servers and the IntelliStation® POWER™ 275 workstation can now have an external SCSI port. The External SCSI Port Enablement Cable connects a SCSI internal controller to an external port, allowing attachment of external SCSI devices to the system.

Installing this feature in a system prevents the use of a second four-pack disk enclosure (second #6574 or first #6584). The cable uses one PCI-X slot and is available on both currently installed systems and new orders.

Key prerequisites

Refer to the **Hardware requirements** and **Software requirements** sections.

Planned availability date

June 4, 2004

Trademarks

POWER is a trademark of International Business Machines Corporation in the United States or other countries or both.

The e-business logo, IntelliStation, and pSeries are registered trademarks of International Business Machines Corporation in the United States or other countries or both.

Other company, product, and service names may be trademarks or service marks of others.

At a glance

The External SCSI Port Enablement Cable:

- Provides an external SCSI port to pSeries 615 servers and the IntelliStation POWER 275 workstation
- Limits the system to one four-pack DASD enclosure
- Requires one PCI-X slot

IBM US Announcement Supplemental Information

April 27, 2004

Publications

No publications are shipped with the announced products.

The Publication Notification System (PNS) is available by order number/product number. Customers currently subscribing to PNS will automatically receive notifications by e-mail. Customers who want to subscribe, can visit the PNS Web site location at

<http://www.elink.ibm.com/public/applications/publications/cgibin/pbi.cgi>

The publications listed on the notification can be ordered by calling the Pubs Support Group in Raleigh at 800-879-2755, option 1. The IBM Publications Center Portal

<http://www.elink.ibm.com/public/applications/publications/cgibin/pbi.cgi>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided, as well as payment options via credit card. Furthermore, a large number of publications are available online in various file formats, which can currently be downloaded free of charge.

Note: PNS subscribers most often order their publications via the Publication Center.

Services

Integrated technology services

IBM services include business consulting, outsourcing, hosting services, applications, and other technology management.

IBM technology services help you learn about, plan, install, manage, or optimize your IT infrastructure for e-business. They can help you integrate your high-speed networks, storage systems, application servers, wireless protocols, and an array of platforms, middleware, and communications software for IBM and many non-IBM offerings. IBM is your one-stop shop for IT support needs.

Visit the appropriate link for details on services available dependent on the brand the product belongs to.

- pSeries®

Technical information

Hardware requirements

- Installed pSeries 615 Model 6C3 or 6E3 or IntelliStation® POWER™ 275
- One empty PCI-X slot

Software requirements: If installing AIX® on the system (one of these):

- AIX Version 5L for Power V5.1 with the 5100-04 Recommended Maintenance Package (APAR IY39794), or later
- AIX 5L for Power V5.2 with the 5200-01 Recommended Maintenance Package (APAR IY39795), or later

Limitations

System

- When the External SCSI Port Enablement Cable (#4270) is installed in a system, a second four-pack disk enclosure (second #6574 or first #6584) cannot be installed.
- The cable requires one PCI-X slot.

Planning information

Cable orders: No cables are required.

Security, auditability, and control

This product uses the security and auditability features of host software and application software.

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communications facilities.

Terms and conditions

Feature section

This product is available for purchase under the terms of the IBM Customer Agreement (ICA).

Each IBM machine is manufactured from parts that may be new or used. In some cases, a machine may not be new and may have been previously installed.

Regardless, IBM warranty terms apply.

MES discount applicable: Equal to the volume commitment discount

Field-installable features: Yes

Warranty period: One year

Customer setup: Yes

Licensed machine code: Same license terms and conditions as designated machine.
