

Speaker Biographies

Richard S. Bakalar, M.D.
Chief Medical Officer
IBM Corporation, Global Healthcare Industry, Provider Segment
Denver, Colorado
eMail: bakalar@us.ibm.com

Dr. Richard Bakalar is IBM's Chief Medical Officer and is board certified in Internal Medicine and Nuclear Medicine. Captain Bakalar (US Navy, retired) was the Navy's Surgeon General Executive Assistant for Telemedicine initiatives beginning in 1995. He is a recent Past President of the American Telemedicine Association and completed 26 years in the US Navy as a physician and program manager prior to joining IBM in March 2003.

Dr. Bakalar is the senior medical consultant for IBM's information based medicine healthcare solutions including its eHealth/Telemedicine remote monitoring solutions and for enterprise or regional (multi-center, multi-specialty) medical imaging PACS archives. Dr. Bakalar is a clinical advisor to several national boards and Federal agencies.

John C. Wilms
Business Development Executive
IBM Corporation, Americas Healthcare Industry – Emerging Technologies
Markham, ON Canada
eMail : jwilms@ca.ibm.com

John Wilms is a Business Development Executive with IBM Canada, responsible for Emerging Technologies in Healthcare. He works with Hospitals and Health Regions across Canada to build integrated solutions involving services, hardware and software from multiple vendors. Many current projects emphasize pervasive/wireless solutions to improve communications, process workflows and efficiencies within organizations.

Over the last 12 years at IBM, he has led solution sales efforts in healthcare, life sciences and logistics. John has a background in biology and environmental science and worked for the Nova Scotia Dept of Mines and Energy before joining IBM.
