Overview

IBM Cloud UrbanCode Deploy delivers a fully managed UrbanCode Deploy environment that helps your business start projects quickly and easily by enabling you to deploy applications with automation to cloud environments or to your own data center without the need to acquire and maintain an IT infrastructure.

Cloud UrbanCode Deploy offers:

- A subscription-based, consumption and delivery model
- Private UrbanCode Deploy environment for application deployment
- A design that is built on IBM SoftLayer, the enterprise-class, IBM public cloud infrastructure as a service (IaaS)

Key prerequisites

An internet connection is required.

Planned availability date

September 20, 2016

Description

This new offering is specifically designed to enable users to get started by automating application deployments quickly with a ready-to-use, cloud-based environment that is hosted in IBM cloud data centers and managed by IBM.

Cloud UrbanCode Deploy delivers an environment that is both highly scalable and protected by IBM cloud security strategies to enable you to develop and deploy integrations that are ready when you are. Cloud-based solutions help eliminate typical inhibitors to starting new projects, such as capital expenditures (CAPEX) and hardware availability, and deep IT skills for setting up and managing systems. There is no hardware, perpetual software licenses, or installation to do.

Cloud UrbanCode Deploy offers:
• Subscription-based pricing. It enables you to get started quickly without the need for investment in software licenses or hardware.
• Private instance of UrbanCode Deploy cloud environment.
• Managed by IBM with full problem management support.
• 8x5 ET Support and 24 x7 Severity 1 support, if needed.

To learn more, see the UrbanCode Deploy website.

Accessibility by people with disabilities

A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be found on the IBM Accessibility website.

Offering Information

Product information is available on the IBM Offering Information website.

More information is also available on the Passport Advantage and Passport Advantage Express website.

Publications

Technical documentation can be found in IBM Knowledge Center.

Services

Global Technology Services

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings for the efficient installation, implementation, or integration of this product.

Technical information

Specified operating environment

Software requirements

An internet connection is required.

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Packaging
This offering is delivered through the internet. There is no physical media.

**Ordering information**

For ordering information, consult your IBM representative or authorized IBM Business Partner, or go to the Passport Advantage website.

</table>
Instance is a unit of measure by which the IBM SaaS can be obtained. An Instance is access to a specific configuration of the IBM SaaS. Sufficient entitlements must be obtained for each Instance of the IBM SaaS made available to access and use during the measurement period specified in Client's Proof of Entitlement (PoE) or Transaction Document.

Connection

Connection is a unit of measure by which the IBM SaaS can be obtained. A Connection is a link or association of a database, application, server, or any other type of device to the IBM SaaS. Sufficient entitlements must be obtained to cover the total number of Connections which have been or are made to the IBM SaaS during the measurement period specified in Client's Proof of Entitlement (PoE) or Transaction Document.

Item

Item is a unit of measure by which the IBM SaaS can be obtained. An Item is an occurrence of a specific item that is processed by, managed by, or related to the use of the IBM SaaS. Sufficient entitlements must be obtained to cover every Item processed by, managed by, or related to the use of the IBM SaaS during the measurement period specified in Client's Proof of Entitlement (PoE) or Transaction Document.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Passport Advantage<sup>®</sup> Agreement, the International Passport Advantage Express<sup>®</sup> Agreement, the Cloud Services Agreement and associated Service Descriptions, or the IBM SaaS Terms of Use.

Subscription

The IBM International Passport Advantage<sup>®</sup> Agreement and the IBM SaaS Terms of Use or the IBM Cloud Services Agreement (CSA) and the Service Description govern your use of this offering.

Technical support

Technical support is provided for IBM SaaS and enabling software, as applicable, during the subscription period. Any enhancements, updates and other materials provided by IBM as part of any such technical support are considered to be part of IBM SaaS or enabling software, as applicable, and therefore governed by the SaaS Terms of Use or the CSA and associated Service Description. Technical support is included with IBM SaaS and is not available as a separate offering.

Refer to additional technical support information in the IBM Software as a Service Terms of Use document for the program.

Terms of Use

The program's Terms of Use and CSA Service Description document is available on the Software as a Service terms website.

Limited warranty

If warranted, refer to the warranty as stated in the Terms of Use document or the Cloud Services Agreement for this offering.
Money-back guarantee

Software Subscription and Support applies

No

System i Software Maintenance applies

No

Variable charges apply

No

Educational allowance available

Education allowance does not apply. Education software allowance does not apply. Special education prices are available for qualified customers through Passport Advantage.

Statement of good security practices

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

Business Partner information

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBM ID and password are required to access the IBM Passport Advantage website.

For all local charges, contact your IBM representative.
**Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative. Additional information is also available on the Passport Advantage and Passport Advantage Express website.
