At a glance

IBM® Implementation Services for disk systems - IBM XIV Storage System helps with the following aspects of your IBM XIV Storage system:

- Planning
- Implementation
- Configuration
- Testing
- Basic skills instructions

Overview

IBM Implementation Services for disk systems - IBM XIV Storage System helps you implement your IBM XIV Storage System to quickly realize the benefits of its advanced functions and technology, and accelerate your return on investment. An experienced, highly skilled IBM storage specialist will:

- Coordinate a physical planning and configuration session
- Assist you with the implementation of the system components
- Assist you with configuration and verification testing
- Provide basic skills instructions for up to three of your designated technical personnel on the key aspects of the implementation and product features

Key prerequisites

Hardware: IBM XIV Storage System
