## At a glance

IBM<sup>(R)</sup> DB2<sup>(R)</sup> on Cloud provides the following OLTP capabilities:

- Accelerated and simplified deployment. Takes advantage of IBM DB2 without the need for an on-premises infrastructure.
- Native encryption to ensure control of data. Leverage the benefits of infrastructure as a service with the confidence of knowing your data is encrypted in flight, while in use, and at rest.
- Optimized performance and enhanced security. Experience speed and reliability with a private virtual machine or dedicated bare-metal.
- A solution sized to meet your business demands. Keep infrastructure costs in line with the changing needs of the business with four preconfigured sizes.
- Ability to migrate on-premises Oracle databases to DB2 in the cloud, providing SQL compatibility support for Oracle Database applications.

## Overview

DB2 on Cloud provides a database as a service on your choice of either IBM SoftLayer<sup>(R)</sup> global cloud infrastructure or alternative cloud service provider. It offers the rich features of an on-premises DB2 deployment without the cost, complexity, and risk of managing your own infrastructure. Based on DB2 software, DB2 on Cloud can support multiple database instances that can either be configured as analytic warehouses or optimized for online transaction processing applications.

While DB2 on Cloud is configured to support creating and managing databases for online transaction processing applications, it gives you the flexibility to create your own instances for analytic or mixed workloads. Use of this offering can reduce the time required to provision and deploy DB2 so that more resources can be devoted to developing new solutions and innovation.

dashDB<sup>TM</sup> Entry and Enterprise Transactional plans both provide a dedicated instance of a managed transactional databases for the IBM Bluemix<sup>(R)</sup> application development environments. The entry plan provides solid performance on virtual private nodes at an affordable price point. The enterprise plan provides robust performance on bare metal nodes for more demanding application workloads. Both plans offer differentiated capabilities when compared with competitive offerings.

## Key features and benefits

As a hosted offering, DB2 on Cloud gives you the same control over your data in the Cloud as the IBM on-premises DB2 system:

- Accelerates and simplifies deployment. Take advantage of DB2 without the need for an on-premises infrastructure.
- Provides native encryption with all configurations. You are in control of your data, even when it is not in your building. Use the benefits of infrastructure as a service with the confidence of knowing your data is encrypted in flight, while in use, and at rest.
- Optimizes performance and enhances security. Experience speed and reliability with a private virtual machine or dedicated bare-metal.

As a managed offering, dashDB Transactional provides a DB2 OLTP DBaaS for application development environments:

- Accelerates and simplifies deployment. Take advantage of DB2 without the need for an on-premises infrastructure.
- Provides an IBM-managed DB2 database with encryption at rest and SSL configured, SSAE SOC2 Type 1, and ISO 27001 security compliances.
- Data load options including: load from desktop, swift, and S3.
- Includes a console with user management, DB usage, and system usage monitoring.
- Allows connection via CLPPlus, ODBC/CLI, JDBC, .NET, and REST.

---

## Key prerequisites

---

A terminal with Internet connectivity is required to access the DB2 on Cloud offering. Ongoing administration can be done locally on the hosted system using tools, such as telnet, that allow connection to the database server machine. Alternatively, users can download, install, and run utilities like IBM Data Server Runtime Client or the IBM Data Server Client (not included as part of the service).

A web browser with Internet connectivity is required to access the dashDB Transactional plan offering.

## Description

---

DB2 on Cloud provides a database as a service on your choice of either IBM SoftLayer global cloud infrastructure or alternative cloud service provider. It offers the rich features of an on-premises DB2 deployment without the cost, complexity, and risk of managing your own infrastructure. Based on DB2 software, DB2 on Cloud can support multiple database instances that can either be configured as analytic warehouses or optimized for online transaction processing applications.

dashDB Entry and Enterprise Transactional plans both provide a dedicated instance of a managed transactional databases for the Bluemix application development environments. The entry plan provides solid performance on virtual private nodes at an affordable price point. The enterprise plan provides robust performance on bare metal nodes for more demanding application workloads. Both plans offer differentiated capabilities when compared with competitive offerings.

As a hosted offering, DB2 on Cloud gives you the same control over your data in the Cloud as the IBM on-premises DB2 system:

- Accelerates and simplifies deployment. Take advantage of DB2 without the need for an on-premises infrastructure.
- Provides native encryption with all configurations. You are in control of your data, even when it is not in your building. Use the benefits of infrastructure as a service with the confidence of knowing your data is encrypted in flight, while in use, and at rest.
- Optimizes performance and enhances security. Experience speed and reliability with a private virtual machine or dedicated bare-metal.

As a managed offering, dashDB Transactional provides a DB2 OLTP DBaaS for application development environments:

- Accelerates and simplifies deployment. Take advantage of DB2 without the need for an on-premises infrastructure.
- Provides an IBM-managed DB2 database with encryption at rest and SSL configured, SSAE SOC2 Type 1, and ISO 27001 security compliances.
- Provides data load options including: load from desktop, swift, and S3.
- Includes a console with user management, DB usage, and system usage monitoring.
- Allows connection via CLPPlus, ODBC/CLI, JDBC, .NET, and REST.

### **Accessibility by people with disabilities**

A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be found on the [IBM Product accessibility information](#) website.

---

## **Program number**

<b>Program number</b>	<b>Program name</b>
5725-W92	IBM DB2 on Cloud
5725-U38	IBM dashDB Enterprise
5725-Y51	IBM Analytics for Apache Spark

---

## **Offering Information**

Product information is available on the [IBM Offering Information](#) website.

More information is also available on the [Passport Advantage<sup>\(R\)</sup>](#) and [Passport Advantage Express<sup>\(R\)</sup>](#) website.

---

## **Publications**

Technical documentation can be found in [IBM Knowledge Center](#).

---

## **Services**

### **Global Technology Services**

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings for the efficient installation, implementation, or integration of this product.

---

## **Technical information**

## Specified operating environment

---

### **Hardware requirements**

A terminal with Internet connectivity is required to access the DB2 on Cloud and dashDB Transactional offerings.

### **Software requirements**

Ongoing administration for DB2 on Cloud can be done locally on the hosted system using tools, such as telnet, that allow connection to the database server machine.

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

## Planning information

---

### **Packaging**

This offering is delivered through the Internet. There is no physical media.

This program, when downloaded from a website, contains the applicable IBM license agreement and License Information, if appropriate, and will be presented for acceptance at the time of installation of the program. For future reference, the license and License Information will be stored in a directory such as LICENSE.TXT.

---

## Ordering information

---

For ordering information, consult your IBM representative or authorized IBM Business Partner, or go to the <http://www.ibm.com/software/support/pa.html> website.

This product is only available through Passport Advantage. It is not available as shrinkwrap.

Product: IBM DB2 Cloud (5725-W92)

### **Passport Advantage**

<b>Program name/Description</b>	<b>Part number</b>
IBM DB2 on Cloud Standard.small for AWS Instance per Month	D1L23LL
IBM DB2 on Cloud Standard.medium for AWS Instance per Month	D1L24LL
IBM DB2 on Cloud Standard.large for AWS Instance per Month	D1L25LL
IBM DB2 on Cloud Standard.xlarge for AWS Instance per Month	D1L26LL
IBM DB2 on Cloud Advanced.small for AWS Instance per Month	D1L27LL
IBM DB2 on Cloud Advanced.medium for AWS Instance per Month	D1L28LL
IBM DB2 on Cloud Advanced.large for AWS Instance per Month	D1L29LL
IBM DB2 on Cloud Advanced.xlarge for AWS Instance per Month	D1L2ALL
IBM DB2 on Cloud Advanced.2xlarge for AWS Instance per Month	D1L2BLL
IBM DB2 on Cloud Jump Start Remotely Delivered Engagement Set Up	D1L8MLL

Program name/Description	Part number
IBM DB2 on Cloud Accelerator Remotely Delivered Engagement Set Up	D1L8PLL

IBM dashDB

Program name/Description	Part number
IBM dashDB Enterprise Transactional 12.128.1400 Instance per Month	D1MPILL
IBM dashDB Enterprise Transactional 2.8.500 Instance per Month	D1N4GLL

IBM Analytics for Apache Spark

Program name/Description	Part number
IBM Analytics for Apache Spark Reserved Enterprise PA per Instance	D1K5SLL

### Charge metric

Program name	PID number	Charge metric
IBM DB2 Cloud	5725-W92	Per Instance

### Per Instance

Instance is a unit of measure by which the IBM SaaS can be obtained. An *instance* is access to a specific configuration of the IBM SaaS. Sufficient entitlements must be obtained for each instance of the IBM SaaS made available to access and use during the measurement period specified in Customer's Proof of Entitlement (PoE) or Transaction Document.

---

## Terms and conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Passport Advantage Agreement, the International Passport Advantage Express Agreement, the Cloud Services Agreement and associated Service Descriptions, or the IBM SaaS Terms of Use.

This product is only available through Passport Advantage. It is not available as shrinkwrap.

### Subscription

The IBM International Passport Advantage Agreement and the IBM SaaS Terms of Use or the IBM Cloud Services Agreement (CSA) and the Service Description govern your use of this offering.

### Technical support

Technical support is provided for IBM SaaS and enabling software, as applicable, during the subscription period. Any enhancements, updates and other materials provided by IBM as part of any such technical support are considered to be part of IBM SaaS or enabling software, as applicable, and therefore governed by the SaaS Terms of Use or the CSA and associated Service Description. Technical support is included with IBM SaaS and is not available as a separate offering.

Refer to additional technical support information in the IBM Software as a Service Terms of Use document for the program.

### Terms of Use

---

The program's *Terms of Use and CSA Service Description* document is available on the [Software as a Service terms](#) website.

---

### **Limited warranty**

If warranted, refer to the warranty as stated in the Terms of Use document or the Cloud Services Agreement for this offering.

---

### **Money-back guarantee**

No

---

### **Volume orders (IVO)**

No

---

### **Passport Advantage applies**

Yes, information is available on the [Passport Advantage and Passport Advantage Express](#) website.

---

### **Software Subscription and Support applies**

No

---

### **System i Software Maintenance applies**

No

---

### **Variable charges apply**

No

---

### **Educational allowance available**

Education allowance does not apply. Education software allowance does not apply. Special education prices are available for qualified customers through Passport Advantage.

---

## **Statement of good security practices**

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

**Important:** IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

---

## **Prices**

---

For all local charges, contact your IBM representative.

### **Business Partner information**

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBM ID and password are required to access the <https://www.ibm.com/software/howtobuy/passportadvantage/paoresellerwebsite>.

### **Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative. Additional information is also available on the [Passport Advantage and Passport Advantage Express](#) website.

---

## **Announcement countries**

---

All European, Middle Eastern, and African countries except Islamic Republic of Iran, Sudan, and Syrian Arab Republic.

### **Trademarks**

dashDB is a trademark of IBM Corporation in the United States, other countries, or both.

IBM, DB2, Bluemix, Global Technology Services, Passport Advantage, System i and Express are registered trademarks of IBM Corporation in the United States, other countries, or both.

SoftLayer is a registered trademark of SoftLayer Inc., an IBM Company.

Other company, product, and service names may be trademarks or service marks of others.

### **Terms of use**

IBM products and services which are announced and available in your country can be ordered under the applicable standard agreements, terms, conditions, and prices in effect at the time. IBM reserves the right to modify or withdraw this announcement at any time without notice. This announcement is provided for your information only. Reference to other products in this announcement does not necessarily imply those products are announced, or intend to be announced, in your country. Additional terms of use are located at
