Overview

IBM® Aspera® Files enables fast, easy, and secure exchange of files and folders of any size between users, even across separate organizations.

Aspera Files is available as either a monthly or annual subscription based on a committed amount of data transferred. With the addition of a new Pay Per Use option, clients are only charged for the amount of data transferred each month without commitment. This new purchasing option enables clients to more easily address project-based use cases and those with less predictability of transfer volume. This option is available across the three all-inclusive plans of Personal, Business, or Enterprise.

Access

Access is a unit of measure by which the IBM SaaS may be obtained. An Access is the rights to use the IBM SaaS. Customer must obtain a single Access entitlement in order to use the IBM SaaS during the measurement period specified in Customer's Proof of Entitlement (PoE) or Transaction Document.

Gigabyte
Gigabyte is a unit of measure by which the IBM SaaS can be obtained. A Gigabyte is defined as 2 to the 30th power bytes of data (1,073,741,824 bytes). Sufficient entitlements must be obtained to cover the total number of Gigabytes processed by the IBM SaaS during the measurement period specified in Client's Proof of Entitlement or Transaction Document.

**Terms and conditions**

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Passport Advantage™ Agreement, the International Passport Advantage Express™ Agreement, the Cloud Services Agreement and associated Service Descriptions, or the IBM SaaS Terms of Use.

This product is only available through Passport Advantage. It is not available as shrinkwrap.

**Subscription**

The IBM International Passport Advantage™ Agreement and the IBM SaaS Terms of Use or the IBM Cloud Services Agreement (CSA) and the Service Description govern your use of this offering.

Statement of good security practices

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the IBM Global Financing website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer’s credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.
