At a glance

Version 7.3 of the Optim™ Test Data Management and Optim Data Growth solutions offers the following enhancements:

- Support for the following operating systems:
 - Windows® Server 2008
 - Red Hat Enterprise Linux® 5
 - SUSE Linux Enterprise Server 9 and 10
 - HP-UX 11.3
- Enhanced support for Centera that allows Optim to stage only the required data back to disk for browsing so that multiple users can access archives on Centera concurrently.
- Preservation of data model during a convert process to provide more options when populating the destination database.
- Extract and archive performance improvements, including an option to ignore NULL, spaces, and zero-length foreign keys when performing an extract, and the addition of indexes on data privacy lookup data.
- Optim 7.3 is now packaged with the optional Optim Designer, which you can use to build and discover models for Optim and Optim z/OS® processing. When installed with an Optim workstation, the Designer can also be used to initiate Optim processing. Optim Designer gives you a common design interface for Optim and Optim z/OS and facilitates the use of version control with Optim definitions.

For ordering, contact your IBM® representative, an IBM Business Partner, or IBM Americas Call Centers at 800-IBM-CALL (Reference: LE001).

Overview

Optim Data Growth Solution enables you to archive historical transaction records from mission-critical database applications. Application data is more safely relocated to a secure archive, thereby helping to streamline the production database to aid your efforts to reduce processing overhead. You retain universal access to archived information. The Optim Data Growth Solution can help you improve application performance and support data-retention compliance programs and efforts to lower IT costs.

Optim Test Data Management Solution allows you to create realistic, right-sized test databases, edit data to force error and boundary conditions, and compare baseline data against successive test results to pinpoint application errors that could otherwise go undetected. By streamlining your test data management process, the Optim Test Data Management Solution can help you improve quality, speed iterative testing tasks, and accelerate revenue generation.

Optim Test Data Management Solution - Data Privacy Option is an optional, chargeable component that will allow Optim Test Data Management customers to mask and transform sensitive test data as part of their efforts to avoid severe consequences. Optim's masking techniques include using arithmetic expressions, sub-strings, random or sequential number generation, date aging, and more. Most importantly, you can propagate masked values from a parent table to related tables at all levels essential for maintaining the referential integrity of the data.

Value Unit-based pricing

Value Unit pricing for eligible IBM System z® IBM International Program License Agreement (IPLA) programs enables a lower cost of incremental growth and enterprise aggregation. Each System z IPLA product with Value Unit pricing has a single price per Value Unit and a conversion matrix, called *Value Unit Exhibit*, for converting from some designated measurement to Value Units. Most commonly, Millions of Service Units (MSUs) is the measurement designated by IBM to be converted to Value Units. Some other measurements are engines or messages. Since MSUs are the most common measurement, that measurement will be used for the remainder of this description.

Value Unit pricing offers price benefits for you. For each System z IPLA program with Value Unit pricing, the quantity of that program needed to satisfy applicable IBM terms and conditions is referred to as the *required license capacity*. Each of the various Value Unit Exhibits stipulate that the larger your required license capacity, the fewer Value Units per MSU you will need. Value Unit Exhibits are uniquely identified by a three-digit code and referred to using the nomenclature VUExxx, where xxx is the three-digit code.

Subsequent acquisitions of Value Unit priced programs offer additional price benefits. The quantity of each System z IPLA program that you have acquired is referred to as *entitled license capacity*. If you wish to grow your entitled license capacity for a System z IPLA program, the calculation to determine additional needed Value Units is based upon the number of Value Units already acquired.

For each System z IPLA program with Value Unit pricing, you should:

- Determine the required license capacity, in MSUs
- Aggregate the MSUs across the enterprise
- Convert the total MSUs to Value Units, using the applicable Value Unit Exhibit
- Multiply the price per Value Unit by the total number of Value Units to determine the total cost

To simplify conversion from the designated measurement to Value Units or vice-versa, use the Value Unit Converter Tool. For additional information or to obtain a copy of the Value Unit Converter Tool, visit the Value Unit Converter Tool website

<http://ibm.com/zseries/swprice/vuctool>

Note that Value Units of a given product cannot be exchanged, interchanged, or aggregated with Value Units of another product.

To determine the required license capacity for the System z IPLA program you selected, refer to the [Terms and conditions](#) section.

Publications

All product publications are provided in softcopy format on the product CD-ROMs and DVDs.

Technical information

Specified operating environment

Hardware requirements

For information on hardware requirements, refer to the websites listed in the [Software requirements](#) section.

Software requirements

Software requirements and additional information on all of these products can be found at

<http://www.ibm.com/support/docview.wss?rs=3473&uid=swg27016808>

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Packaging

Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ V7.3 (5655-V17) is distributed with:

- License Information (GI11-7905-03)
- DVD/CD Kit: Optim C/S V7.3, components (LK4T-3122-00)
- DVD Kit: Optim Designer V2.2, components (LK4T-3196-00)
- DVD Kit: Optim Manager V2.2, components (LK4T-3197-00)
- DVD Kit InfoSphere™ Data Architect V7.5.2, components (LK4T-3119-00)

Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ, Data Privacy Option V7.3 (5655-V17) is distributed with:

- License Information (GI13-1719-00)

Optim Test Data Management Solution for z/OS - Adabas V7.3 (5655-V19) is distributed with:

- License Information (GI13-1720-00)
- DVD/CD Kit: Optim C/S V7.3, components (LK4T-3122-00)
- DVD Kit: Optim Designer V2.2, components (LK4T-3196-00)
- DVD Kit: Optim Manager V2.2, components (LK4T-3197-00)
- DVD Kit InfoSphere Data Architect V7.5.2, components (LK4T-3119-00)

Optim Test Data Management Solution for z/OS - Adabas, Data Privacy Option V7.3 (5655-V19) is distributed with:

- License Information (GI13-1721-00)

Optim Data Growth Solution for z/OS - IMS/VSAM/SEQ V7.3 (5655-V35) is distributed with:

- License Information (GI13-1708-01)
- DVD/CD Kit: Optim C/S V7.3, components (LK4T-3122-00)
- DVD Kit: Optim Designer V2.2, components (LK4T-3196-00)
- DVD Kit: Optim Manager V2.2, components (LK4T-3197-00)
- DVD Kit InfoSphere Data Architect V7.5.2, components (LK4T-3119-00)
- DVD Kit: Mashup Center V2.0.0.2 (LK4T-3518-00)

Optim Data Growth Solution for z/OS - Adabas V7.3 (5655-V37) is distributed with:

- License Information (GI13-1707-01)
- DVD/CD Kit: Optim C/S V7.3, components (LK4T-3122-00)
- DVD Kit: Optim Designer V2.2, components (LK4T-3196-00)
- DVD Kit: Optim Manager V2.2, components (LK4T-3197-00)
- DVD Kit InfoSphere Data Architect V7.5.2, components (LK4T-3119-00)
- DVD Kit: Mashup Center V2.0.0.2 (LK4T-3518-00)

Security, auditability, and control

The Optim family of products uses the security and auditability features of the host hardware or software. The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Software Services

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an extensive portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.

To learn more about IBM Software Services or to contact a Software Services sales specialist, visit

<http://www.ibm.com/software/sw-services/>

VU Value Unit

VU Value Unit is the unit of measure by which this program is licensed. VU Value Unit entitlements are based on the quantity of a specific designated measurement, either users or resources, for the given program. A Proof of Entitlement (PoE) must be obtained for the appropriate number of VU Value Units required for your environment as defined by the specific program terms. The VU Value Unit entitlements are specific to the program and may not be exchanged, interchanged, or aggregated with VU Value Unit entitlements of another program. To understand these benefits of VU Value Unit licensing and to determine how many VU Value Units to obtain for the program, contact your IBM representative.

The programs in this announcement all have Value Unit-based pricing.

Value unit exhibit	Program number	Program name
VUE007	5655-V17	Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ
VUE007	5655-V17	Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ, Data Privacy Option
VUE007	5655-V19	Optim Test Data Management Solution for z/OS - Adabas
VUE007	5655-V19	Optim Test Data Management Solution for z/OS - Adabas, Data Privacy Option
VUE007	5655-V35	Optim Data Growth Solution for z/OS - IMS/VSAM/SEQ
VUE007	5655-V37	Optim Data Growth Solution for z/OS - Adabas

For each System z IPLA program with Value Unit pricing, the quantity of that program needed to satisfy applicable IBM terms and conditions is referred to as the *required license capacity*. Your required license capacity is based upon the following factors:

- The System z IPLA program you select

- The applicable Value Unit Exhibit
- The applicable terms
- Whether your current mainframes are full capacity or sub-capacity

Value Unit exhibit VUE007

	MSUS minimum	MSUS maximum	Value Units/MSU
Base	1	3	1
Tier A	4	45	0.45
Tier B	46	175	0.36
Tier C	176	315	0.27
Tier D	316	+	0.2

Value Units for mainframes without MSU ratings:

Hardware	Value Units/machine
MP3000 H30	6
MP3000 H50	8
MP3000 H70	12
ESL models	2

Ordering example

The total number of Value Units is calculated according to the following example.

If your required license capacity is 1,500 MSUs for your selected System z IPLA product, the applicable Value Units would be:

Translation from MSUs to value Units

	MSUS	*	Value Units/MSU	=	Value Units
Base	3	*	1.00	=	3.00
Tier A	42	*	.45	=	18.90
Tier B	130	*	.36	=	46.80
Tier C	140	*	.27	=	37.80
Tier D	1,185	*	.20	=	237.00
Total	1,500				343.50

When calculating the total number of Value Units, the sum is to be rounded up to the next integer.

Basic license

On/Off CoD

All products in this announcement are eligible for On/Off CoD with a temporary use charge calculated based on MSUs per-day usage.

Subscription and Support

To receive voice technical support via telephone and future releases and versions at no additional charge, Subscription and Support must be ordered. The capacity of Subscription and Support (Value Units) must be the same as the capacity ordered for the product licenses.

To order, specify the Subscription and Support program number (PID) referenced above and the appropriate license or charge option.

IBM is also providing Subscription and Support for these products via a separately purchased offering under the terms of the IBM International Agreement for Acquisition of Software Maintenance (IAASM). This offering:

- Includes and extends the support services provided in the base support to include technical support via telephone.
- Entitles you to future releases and versions, at no additional charge. Note that you are not entitled to new products.

When Subscription and Support is ordered, the charges will automatically renew annually unless cancelled by you.

The combined effect of the IPLA license and the Agreement for Acquisition of Software Maintenance gives you rights and support services comparable to those under the traditional ICA S/390® and System z license or its equivalent. To ensure that you continue to enjoy the level of support you are used to in the ICA business model, you must order both the license for the program and the support for the selected programs at the same Value Unit quantities.

Single version charging

To elect single version charging, you must notify and identify to IBM the prior program and replacement program, and the machine the programs are operating on.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage® Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

Agreement for Acquisition of Software Maintenance

The following agreement applies for Software Subscription and Support (Software Maintenance) and does not require customer signatures:

- IBM Agreement for Acquisition of Software Maintenance (Z125-6011)

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

License Information form numbers

Form number	Product number	Product name
GI11-7905-03	5655-V17	Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ

GI13-1707-01	5655-V37	Optim Data Growth

The programs' License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the IBM Software Support Handbook found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program support

Enhanced support, called Subscription and Support, includes telephone assistance, as well as access to updates, releases, and versions of the program as long as support is in effect. You will be notified of discontinuance of support with 12 months' notice.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Authorization for use on home/portable computer

You may not copy and use this program on another computer without paying additional license fees.

Volume orders (IVO)

No

Passport Advantage applies

No

Usage restrictions

Yes. For information on usage restrictions, refer to the License Information document that is available for each product on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Search for the following License Information documents:

- GI11-7905-03: Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ
- GI13-1719-00: Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ,Data Privacy Option
- GI13-1720-00: Optim Test Data Management Solution for z/OS
- GI13-1721-00: Optim Test Data Management Solution for z/OS - Adabas, Data Privacy Option
- GI13-1708-01: Optim Data Growth Solution for z/OS - IMS/VSAM/SEQ
- GI13-1707-01: Optim Data Growth Solution for z/OS - Adabas

Software Subscription and Support applies

No. For operating system software, the revised IBM Operational Support Services - SoftwareXcel offering will provide support for those operating systems and associated products that are not available with the Software Subscription and Support (Software Maintenance) offering.

This will ensure total support coverage for your enterprise needs, including IBM and selected non-IBM products. For complete lists of products supported under both the current and revised offering, visit

<http://www.ibm.com/services/sl/products>

IBM Operational Support Services -- SoftwareXcel

No

System i Software Maintenance applies

No

Variable charges apply

No

Educational allowance available

Yes. A 15% education allowance applies to qualified education institution customers.

Products eligible for single version charging

To elect single version charging, you must notify and identify to IBM the prior program and replacement program, and the machine the programs are operating on.

Sub-capacity terms and conditions

For each System z IPLA program with Value Unit pricing, the quantity of that program needed to satisfy applicable IBM terms and conditions is referred to as the *required license capacity*. Your required license capacity is based upon the following factors:

- The System z IPLA program you select

- The applicable Value Unit Exhibit
- The applicable terms
- Whether your current mainframes are full capacity or sub-capacity

For more information on the Value Unit Exhibit for the System z IPLA program you selected, refer to the [Ordering information](#) section.

Program number	Terms	Parent, if applicable
5655-v17	z/OS-based	N/A
5655-v17	z/OS-based	N/A
5655-v19	z/OS-based	N/A

5655-v35	z/OS-based	N/A
5655-v37	z/OS-based	N/A

Full-capacity mainframes

In cases where full capacity is applicable, the following terms apply.

Execution based, z/OS based, full machine based: The required capacity of a System z IPLA program with these terms equals the MSU-rated capacity of the machines where the System z IPLA program executes.

For more information on mainframe MSU-rated capacities, visit

<http://www.ibm.com/servers/eserver/zseries/library/swpriceinfo/>

Reference based: The required license capacity of a System z IPLA program with these terms equals the license capacity of the applicable monthly license charge (MLC) program. This MLC program is called the *parent program*.

Sub-capacity mainframes

In cases where sub-capacity is applicable, the following terms apply.

Execution based: The required capacity of a System z IPLA sub-capacity program with these terms equals the capacity of the LPARs where the System z IPLA program executes.

z/OS based: The required license capacity of a System z IPLA program with these terms equals the license capacity of z/OS on the machines where the System z IPLA program executes.

Reference based: The required license capacity of a System z IPLA program with these terms equals the license capacity of the applicable monthly license charge (MLC) program. This MLC program is called the *parent program*.

Full machine based: The required license capacity of a System z IPLA program with full machine-based terms equals the MSU-rated capacity of the machines where the System z IPLA program executes.

For more information on mainframe MSU-rated capacities, refer to *The IBM System z Machines Exhibit*, Z125-3901, or visit the Mainframes section of the System z Exhibits website

<http://ibm.com/zseries/library/swpriceinfo/>

For more information on sub-capacity System z IPLA terms and conditions, refer to Software Announcement [204-184](#), dated August 10, 2004.

For additional information for products with reference-based terms, System z IPLA sub-capacity programs with reference-based terms adds value to the parent program across the environment, regardless of where in the environment the System z IPLA program executes.

An environment is defined as either a single or stand-alone machine or a qualified Parallel Sysplex®. You may have one or more different environments across the enterprise. To determine the required license capacity for each System z IPLA program with referenced-based terms, each environment should be assessed separately.

When a System z IPLA sub-capacity program with reference-based terms is used in a qualified Parallel Sysplex environment, the required license capacity of the System z IPLA program must equal with the license capacity of the parent program across the Parallel Sysplex. Qualified Parallel Sysplex refers to one:

- That meets the criteria defined in Hardware Announcement [198-001](#), dated January 13, 1998
- Where MLC pricing is aggregated across the sysplex

Sub-capacity eligibility

To be eligible for sub-capacity charging on select System z IPLA programs, you must first implement and comply with all terms of either sub-capacity Workload License Charges (WLC) or sub-capacity Entry Workload License Charges (EWLC). To implement sub-capacity WLC or EWLC, a machine must be System z (or equivalent). On that machine:

- All instances of the OS/390® operating system must be migrated to the z/OS operating systems
- Any licenses for the OS/390 operating system must be discontinued
- All instances of the z/OS operating systems must be running in z/Architecture® (64-bit) mode

For that machine, you must create and submit a Sub-Capacity Report to IBM each month. Sub-Capacity Reports must be generated using the Sub-Capacity Reporting Tool (SCRT). For additional information or to obtain a copy of SCRT, visit the System z Software Pricing website

<http://ibm.com/zseries/swprice>

You must comply with all of the terms of the WLC or EWLC offering, whichever is applicable:

- The complete terms and conditions of sub-capacity WLC are defined in the IBM Customer Agreement - Attachment for System z Workload License Charges (Z125-6516).
- The complete terms and conditions for sub-capacity EWLC are defined in the IBM Customer Agreement - Attachment for IBM System z 890 and 800 License Charges (Z125-6587).

Additionally, you must sign and comply with the terms and conditions specified in the amendment to the IPLA contract - *Amendment for IBM System z9® and System z Programs Sub-Capacity Pricing* (Z125-6929). Once the amendment is signed, the terms in the amendment replace any and all previous System z IPLA sub-capacity terms and conditions.

IBM Getting Started Sub-capacity Pricing for z/OS IPLA Software applies.

Sub-capacity utilization determination

Sub-capacity utilization is determined based on the utilization of a sub-capacity eligible reference product and machine.

On/Off Capacity on Demand (CoD)

To be eligible for On/Off CoD pricing, you must be enabled for temporary capacity on the corresponding hardware, and the required contract, Attachment for Customer Initiated Upgrade and IBM eServer™ On/Off Capacity on Demand - Software (Z125-6611) must be signed prior to use.

Prices

For additional information and current prices, contact your local IBM representative.

Program name:

Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ V7.3

Program PID: 5655-V17

Entitlement identifier	License option/ Pricing metric	Description
S01581J	Basic OTC, per Value Unit	Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ

Program name:

Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ,

Data Privacy Option V7.3

Program PID: 5655-V17

Entitlement identifier	License option/ Pricing metric	Description
S01581K	Basic OTC, per Value Unit	IBM Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ, Data Privacy Option

Program name:

Optim Test Data Management Solution for z/OS - Adabas V7.3

Program PID: 5655-V19

Entitlement identifier	License option/ Pricing metric	Description
S01581N	Basic OTC, per Value Unit	Optim Test Data Management Solution for z/OS - Adabas

Program name:

Optim Test Data Management Solution for z/OS - Adabas,

Data Privacy Option V7.3

Program PID: 5655-V19

Entitlement identifier	License option/ Pricing metric	Description
S01581P	Basic OTC, per Value Unit	Optim Test Data Management Solution for z/OS - Adabas, Data Privacy Option

Program name:

Optim Data Growth Solution for z/OS - IMS/VSAM/SEQ V7.3

Program PID: 5655-V35

Entitlement identifier	License option/ Pricing metric	Description
S0159CS	Basic OTC, per	Optim Data Growth Solution for z/OS

Value Unit - IMS/VSAM/SEQ

Program name:
Optim Data Growth Solution for z/OS - Adabas V7.3
Program PID: 5655-V37

Entitlement identifier	License option/ Pricing metric	Description
S0159FZ	Basic OTC, per Value Unit	Optim Data Growth Solution for z/OS - Adabas

Program name:
Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ V7.3
Subscription and Support PID: 5655-V18

Entitlement identifier	License option/ Pricing metric	Description
S01581L	Basic ASC, per Value Unit SW S&S No charge, decline SW S&S Per MSU SW S&S registration	Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ S&S

Program name:
Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ,
Data Privacy Option V7.3
Subscription and Support PID: 5655-V18

Entitlement identifier	License option/ Pricing metric	Description
S01581M	Basic ASC, per Value Unit SW S&S No charge, decline SW S&S Per MSU SW S&S registration	IBM Optim Test Data Management Solution for z/OS -IMS/VSAM/SEQ, Data Privacy Option S&S

Program name:
Optim Test Data Management Solution for z/OS - Adabas V7.3
Subscription and Support PID: 5655-V20

Entitlement identifier	License option/ Pricing metric	Description
S01581R	Basic ASC, per Value Unit SW S&S No charge, decline SW S&S Per MSU SW S&S registration	Optim Test Data Management Solution for z/OS - Adabas S&S

Program name:
Optim Test Data Management Solution for z/OS - Adabas,
Data Privacy Option V7.3
Subscription and Support PID: 5655-V20

Entitlement identifier	License option/ Pricing metric	Description
S01581S	Basic ASC, per Value Unit SW S&S No charge, decline SW S&S Per MSU SW S&S registration	Optim Test Data Management Solution for z/OS - Adabas, Data Privacy Option S&S

Program name:
Optim Data Growth Solution for z/OS - IMS/VSAM/SEQ V7.3
Subscription and Support PID: 5655-V36

Entitlement identifier	License option/ Pricing metric	Description
S0159CT	Basic ASC, per Value Unit SW S&S No charge, decline SW S&S Per MSU SW S&S registration	Optim Data Growth Solution for z/OS - IMS/VSAM/SEQ S&S

Program name:
Optim Data Growth Solution for z/OS - Adabas V7.3
Subscription and Support PID: 5655-V38

Entitlement identifier	License option/ Pricing metric	Description
S0157KC	Basic ASC, per Value Unit SW S&S No charge, decline SW S&S Per MSU SW S&S registration	Optim Data Growth Solution for z/OS - Adabas S&S

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www-03.ibm.com/financing/us/index.html>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

Order now

To order, contact the Americas Call Centers or your local IBM representative, or your IBM Business Partner.

To identify your local IBM representative or IBM Business Partner, call 800-IBM-4YOU (426-4968).

Phone: 800-IBM-CALL (426-2255)
Fax: 800-2IBM-FAX (242-6329)
For IBM representative: callserv@ca.ibm.com
For IBM Business Partner: pwswna@us.ibm.com
Mail: IBM Teleweb Customer Support
ibm.com® Sales Execution Center, Americas North
3500 Steeles Ave. East, Tower 3/4
Markham, Ontario
Canada
L3R 2Z1

Reference: LE001

The Americas Call Centers, our national direct marketing organization, can add your name to the mailing list for catalogs of IBM products.

Note: Shipments will begin after the planned availability date.
