

# Revised availability: IBM Storwize V7000 Unified upgrade option

## Table of contents

<a href="#">1 Overview</a>	<a href="#">1 Statement of general direction</a>
<a href="#">1 Planned availability date</a>	<a href="#">2 Order now</a>

## Overview

IBM® Storwize® V7000 Unified V1.4 includes Real-time compression, local authentication server support, four-way clustering, and FCoE support, and is available to clients for use with block workloads as of November 9, 2012.

The previously announced availability of customer-installable file modules to upgrade a block IBM Storwize V7000 to IBM Storwize V7000 Unified is being delayed. It was originally to be available for ordering on November 20, 2012, but ordering will now begin January 14, 2013. Until then, orders for upgrades can be placed using RPQ 8S1236 and engaging an experienced servicer to perform the installation.

For ordering, contact your IBM representative, an IBM Business Partner, or IBM Americas Call Centers at 800-IBM-CALL (Reference: YE001).

## Planned availability date

January 14, 2013: Customer installable IBM Storwize V7000 upgrade to Storwize V7000 Unified

## Statement of general direction

IBM's statements regarding its plans, directions, and intent are subject to change or withdrawal without notice at IBM's sole discretion. Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information mentioned regarding potential future products is not a commitment, promise, or legal obligation to deliver any material, code, or functionality. Information about potential future products may not be incorporated into any contract. The development, release, and timing of any future features or functionality described for our products remains at our sole discretion.
