Overview

IBM® is announcing additional options that will improve our ability to customize solutions for our clients. These options, available only as components of systems purchased through the ASIT configurator, bring the flexibility of our single-system offerings to multisystem installations. Clients are no longer restricted to using fixed offerings as building blocks for complex offerings. The entire strength of our product line can be harnessed to optimize systems to a specific need. These options are not new offerings themselves; they represent existing products in a new way that gives our clients more capability to customize complexity.

Key prerequisites

None

Availability date

August 18, 2009

Description

The following options are available for System x® and BladeCenter®.

IBM System x Pseudo Options

**Services**

**Global Technology Services**

IBM services include business consulting, outsourcing, hosting services, applications, and other technology management.

These services help you learn about, plan, install, manage, or optimize your IT infrastructure to be an On Demand Business. They can help you integrate your high-speed networks, storage systems, application servers, wireless protocols, and an array of platforms, middleware, and communications software for IBM and many non-IBM offerings. IBM is your one-stop shop for IT support needs.

For details on available services, contact your IBM representative or visit

For details on available IBM Business Continuity and Recovery Services, contact your IBM representative or visit

For details on education offerings related to specific products, visit

Select your country, and then select the product as the category.

**Technical information**

**Planning information**

**Cable orders**

None

**Supplies**
Security, auditability, and control

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communications facilities.

Global Technology Services

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings, for the efficient installation, implementation, and/or integration of this product.

Terms and conditions

Field installable feature

No

Warranty period

One year

Customer setup

Yes

Machine code

Same license terms and conditions as base machine

Prices

For all local charges, contact your IBM representative.

Announcement countries

All European, Middle Eastern, and African countries.

Trademarks

IBM, System x and BladeCenter are registered trademarks of IBM Corporation in the United States, other countries, or both.

Other company, product, and service names may be trademarks or service marks of others.

Terms of use

IBM products and services which are announced and available in your country can be ordered under the applicable standard agreements, terms, conditions, and prices in effect at the time. IBM reserves the right to modify or withdraw this announcement at any time without notice. This announcement is provided for your information only. Reference to other products in this announcement does not necessarily imply those products are announced, or intend to be announced, in your country. Additional terms of use are located at
