Overview

IBM® Connections customers can now upgrade to IBM Connections Enterprise Content Edition with the IBM Connections Enterprise Content Edition for IBM Connections part number.

Key benefits include:

- Provides IBM Connections Enterprise Content Edition to IBM Connections customers.
- Adds Enterprise Content Management (ECM) features to existing IBM Social capabilities.
- Includes FileNet® Content Manager, IBM Connections, and Quickr® Connectors.
- Provides discounted pricing for IBM Connections customers.

For details on the base announcement, refer to Software Announcement [211-469](#), dated October 25, 2011.

To order, contact your IBM representative, an IBM Business Partner, or the Americas Call Centers at: 800-IBM-CALL Reference: YE001

Key prerequisites

For details, refer to the [Technical information](#) section for information about hardware and software requirements.

Planned availability date

June 19, 2012:

- Electronic availability
- Media availability

Description

IBM Connections customers can now upgrade to IBM Connections Enterprise Content Edition. With the availability of the IBM Connections Enterprise Content Edition for IBM Connections orderable part number, ECM capabilities can be added to existing social infrastructures at discounted pricing. IBM Connections customers can upgrade their operating environment with the addition of the FileNet Content Manager and Quickr Connectors products. The orderable trade up part number provides entitlement to a comparable number of user licenses for IBM Connections, FileNet Content Manager, and Quickr Connectors.

Now IBM Connections customers can leverage their powerful social tools with the addition of ECM capabilities for creation and management of accurate and relevant content. Both office document management and social collaboration are merged into a single environment for management of all content with the same social and enterprise tools.

IBM Connections Enterprise Content Edition is an integrated solution designed to provide extensive desktop and collaborative application integration between IBM Connections, IBM FileNet Content Manager, and IBM Lotus® Quickr Connectors. The IBM Connections Enterprise Content Edition for IBM Connections orderable part number provides IBM Connections customers with a cost efficient means to obtain integrated ECM Social capabilities while leveraging their existing IBM Connections investment.

Accessibility by people with disabilities

A US Section 508 Voluntary Product Accessibility Template (VPAT) can be requested via the IBM website

http://www.ibm.com/able/product_accessibility/index.html

Section 508 of the US Rehabilitation Act

IBM Connections Enterprise Content Edition Authorized is capable as of June 19, 2012, when used in accordance with associated IBM documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act, provided that any assistive technology used with the product properly interoperates with it. A US Section 508 Voluntary Product Accessibility Template (VPAT), containing details on the products accessibility compliance, can be requested on the following website

http://www.ibm.com/able/product_accessibility/index.html

<http://www.ibm.com/software/passportadvantage>

Publications

No publications are shipped with this product.

The IBM Publications Center

<http://www.ibm.com/e-business/linkweb/publications/servlet/pti.wss>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the US) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

Specified operating environment

Hardware and software requirements

Connections Enterprise Content Edition supports the same hardware as FileNet Content Manager and IBM Connections. Connections Enterprise Content Edition also supports the latest versions of prerequisite software and software add-ons that are supported by FileNet Content Manager and IBM Connections. The exact configuration needed to support your environment with satisfactory response time varies depending on the size of the objects you are working with and other factors. Individual display response times vary depending on workstation speed, memory, size of objects, and network and server workload.

For the most current and complete information on hardware and software requirements for Connections Enterprise Content Edition, visit the FileNet Content Manager, IBM Connections, and Lotus Quickr Connectors hardware and software specifications pages.

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Security, auditability, and control

Connections Enterprise Content Edition uses the security and auditability features of the host software.

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Charge metrics definitions

User Value Unit (UVU)

UVU is the metric by which this program is licensed. UVU entitlements are based on the number of users for the given program. A Proof of Entitlement (PoE) must be obtained for the appropriate number of UVUs required for your environment as defined by the specific program terms. The UVU entitlements are specific to the program and may not be exchanged, interchanged, or aggregated with UVU entitlements of another software program. UVU licensing offers you price benefits for customers by enabling a lower cost of incremental growth of resources. To understand these benefits of UVU licensing, and to determine how many UVUs to obtain for the program, contact your IBM representative.
