At a glance

Windows® Embedded POSReady 2009

- Flexibility to customize the operating system image to suit specific hardware requirements, and support for Windows technologies that simplify development and management of POS solutions
- Connectivity to peripherals, remote deployment capabilities, and installation options using a selection of storage media
- The benefits of a dedicated community of industry leading partners and resources

Overview

IBM® Retail Store Solutions demonstrates its continuing commitment to openness at the operating system level by delivering Windows Embedded POSReady 2009 preloads. POSReady 2009 is now available preloaded on SurePOS™ 300 system units.

Windows Embedded POSReady 2009 is a flexible, installable operating system that was designed specifically for point-of-service devices.

Key prerequisites

Customers purchasing POSReady products directly from IBM must sign the ICA Attachment for Certain Microsoft® Windows Embedded Operating Systems, Z125-7894 (US) or INTC-7894, which documents unique terms that apply to these products.

Driver support for Windows Embedded POSReady 2009 will be available from the support Web site.

- UPOS 1.9.6b to current (includes OPOS, JavaPOS)

Planned availability date

April 17, 2009: POSReady 2009 OS
