Overview

To complement the ThinkPad® X200s program, Lenovo® offers new models with three-year depot warranty and 3 GB standard memory.

You can order these new models through the normal ordering process. The terms and conditions, features, benefits, and warranty and service offerings for these models are the same as those announced in Hardware Announcement ZG08-0667, dated September 23, 2008.

Planned availability date

March 2009

Additional information

All offers are subject to availability. Lenovo reserves the right to alter product offerings and specifications at any time without notice. Lenovo is not responsible for photographic or typographic errors.

Lenovo makes no representation or warranty regarding third-party products or services.

Terms and conditions

This product is available from Lenovo under the terms and conditions for purchase.

To obtain copies of the Lenovo Limited Warranty, contact your reseller or Lenovo.

Warranty period

- System hardware - Three years on parts and labor (machine type 7469)
- System battery - One year

Optional Lenovo features initially installed in a Lenovo system carry the same warranty period as the system. If installed after the initial system installation, they carry the balance of the system warranty or the optional feature warranty, whichever is greater.

Warranty service

If required, your service provider provides repair or exchange service depending on the type of warranty service specified for the machine. A service technician will attempt to resolve your problem over the telephone. You must follow the problem determination and resolution procedures. Scheduling of service will depend upon the time of your call and is subject to parts availability. Service levels are response time objectives and are not guaranteed. The specified level of warranty service may not be available in all worldwide locations, additional charges may apply outside your service provider's normal service area. Contact your local service provider representative or your reseller for country- and location-specific information.

Customer replaceable unit (CRU) service

Under CRU service, your service provider will ship CRUs to you for installation by you. CRU information and replacement instructions are shipped with your product and are available from Lenovo at any time upon request. CRUs that are easily installed by you are called self-service CRUs, while optional-service CRUs may require some technical skill and tools. Installation of self-service CRUs is your responsibility. You may request that a service provider install optional-service CRUs under one of the other types of warranty service designated for your product. An optional service offering may be available from Lenovo to have Lenovo install self-service CRUs for you. You can find a list of CRUs and their designation in the publication that ships with your product or at

http://www.lenovo.com/CRUs

The requirement to return a defective CRU, if any, will be specified in the materials shipped with a replacement CRU. When return is required, return instructions, a prepaid return shipping label, and a container will be included with the replacement CRU. You may be charged for the replacement CRU if your service provider does not receive the defective CRU within 30 days of your receipt of the replacement.

Customer carry-in or mail-in service

Under customer carry-in or mail-in service, your product will be repaired or exchanged at a designated service center, with delivery or shipping arranged by you. You are responsible to deliver or mail, as your service provider specifies, (prepaid by you unless specified otherwise) the product, suitably packaged to a designated location. After the product has been repaired or
exchanged, it will be made available for your collection. Failure to collect the product may result
in your service provider disposing of the product as it sees fit. For mail-in service, the product will
be returned to you at Lenovo's expense, unless your service provider specifies otherwise.

**International Warranty Service (IWS)**

IWS is available during the warranty period to customers who travel or relocate to countries
where their computer is sold and serviced by a service provider authorized to perform warranty
service. Eligible Lenovo computers are identified by their four-digit machine type.

You can obtain IWS through the method of service, such as CRU, depot, carry-in, or on-site,
provided in the servicing country. Service methods and procedures vary by country, and some
service or parts may not be available in all countries. Service centers in certain countries may
not be able to service all models of a particular machine type. In addition, some countries may
have fees and restrictions that apply at the time of service.

**Note:** Due to the earth's magnetic field, CRT monitors are manufactured to work in northern,
southern, and equatorial regions of the earth and may not produce a satisfactory image when
moved between them. Any required adjustment (if possible) is not covered under IWS and may
be subject to a chargeable action. The magnetic field does not affect flat-panel LCD monitors
and ThinkPad LCD displays.

**Licensing**

Programs included with this product are licensed under the terms and conditions of the license
agreements that are shipped with the system.

**ThinkPlus Services**

**Lenovo ThinkPlus and Lenovo ThinkPad Protection warranty upgrades**

The announced Lenovo ThinkPad machine types are eligible for Lenovo ThinkPlus® warranty
upgrades and post warranty offerings. They are also eligible for Lenovo ThinkPad Protection
(TPP) warranty upgrades. Lenovo ThinkPlus and TPP provide a higher level of service than that
provided under the Lenovo base warranty.

**Note:** Only one warranty upgrade per machine serial number can be active. A post warranty
offering can be added when a warranty upgrade is active and will become active at the end date
of the base warranty period or warranty upgrade end date if later.
