At a glance

IBM® Data Mobility Services - Softek asset license - Softek zDMF enables IBM z/OS® dataset migration while datasets are in use and also provides the flexibility to address application performance issues immediately while enabling improved utilization of higher-performing, larger-capacity disks.

Overview

IBM Data Mobility Services - Softek asset license - Softek zDMF has been updated from Version 3.1 to Version 3.2 and supports the following improvements:

• Closed data set copy streamlining, helping to enable faster migrations
• Extent consolidation improvement to provide support across multi-volumes
• Non-disruptive migration completion for DB2® datasets
• Pending and schedule divert option, allowing greater user automation
• Two optional audit trail types to help support regulatory requirements
• System authorization facility (SAF) authorization implementation for all commands and functions
• Selective multi-volume extent migration capability when multiple volumes are being migrated

Availability date

March 24, 2009

Accessibility by people with disabilities

A U.S. Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be requested at
