## Overview

IBM® Rational® Rhapsody® V8.1.1 and Rational Rhapsody Design Manager V5.0.1 provide:

- Expanded Continuous Verification capabilities through enhanced support for simulation with ITI SimulationX that enable tighter integration than provided simply by FMI-FMU making simulation between systems logic, software behavior, and physical dynamics even more powerful
- Continued improvements to Rhapsody and Rhapsody Design manager performance and usability to provide greater end user productivity
- Improved capabilities for various, target user personas and continued alignment with standards

For ordering, contact your IBM representative, an IBM Business Partner, or IBM Americas Call Centers at 800-IBM-CALL (Reference: AE002).

## Key prerequisites

This release supports Windows™ and Linux™ operating systems.

For details, refer to the [Hardware requirements](#) and [Software requirements](#) sections.

## Planned availability date

- September 5, 2014: Electronic availability
- September 19, 2014: Media availability

## Description

### Rational Rhapsody V8.1.1 enhancements

#### General improvements

#### Co-simulation with ITI SimulationX

Expanded Continuous Verification capabilities through enhanced support for co-simulation with ITI SimulationX enabling tighter integration than provided simply by

FMI/FMU making simulation between systems logic, software behavior, and physical dynamics even more powerful.

### **Improved performance and scalability for Rhapsody Design Manager**

Rhapsody Design Manager performance is improved along with increasing the number of concurrent users who can work with Design Manager at the same time. This is true for Rhapsody in both externally managed mode and actively managed mode along with for working with The Mathworks Simulink and Design Manager.

Translation information for IBM software can be found at

<http://publib.boulder.ibm.com/infocenter/prodguid/v1r0/clarity/index.jsp>

### **Section 508 of the US Rehabilitation Act**

---

Rational Rhapsody is capable as of September 19, 2014, when used in accordance with associated IBM documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act, provided that any assistive technology used with the product properly interoperates with it. A US Section 508 Voluntary Product Accessibility Template (VPAT), containing details on the products accessibility compliance, can be requested on the following website

[http://www.ibm.com/able/product\\_accessibility/index.html](http://www.ibm.com/able/product_accessibility/index.html)

---

### **Program number**

---

Program number	VRM	Program name
5724-x70	8.1.1	IBM Rational Rhapsody
5724-x70	5.0.1	IBM Rational Rhapsody

---

### **Offering Information**

---

Product information is available via the Offering Information website

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® website

<http://www.ibm.com/software/passportadvantage>

---

### **Publications**

---

No publications are shipped with this product.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the US) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

## Technical information

---

### Specified operating environment

---

#### **Hardware requirements**

- Disk space: 1.6 GB (one language); 2.3 GB full installation; Installation temporary disk space: 1 GB
- Memory: RAM: 512 MB (minimum); 1024 MB RAM (recommended)
- Processor: CPU: Pentium™ 4, 3.00 GHz (minimum)

#### **Software requirements**

##### **Linux**

- SUSE Linux Enterprise Desktop (SLED) 11.0 x86-64
- Red Hat Enterprise Linux (RHEL) Server 6 x86-64
- Red Hat Enterprise Linux (RHEL) Client 6 x86-64
- Red Hat Enterprise Linux (RHEL) 5 Advanced Platform x86-64
- Red Hat Enterprise Linux (RHEL) 5 Advanced Platform x86-32
- SUSE Linux Enterprise Server (SLES) 11 x86-32
- Red Hat Enterprise Linux (RHEL) Server 6 x86-32
- Red Hat Enterprise Linux (RHEL) Client 6 x86-32
- Red Hat Enterprise Linux (RHEL) 5 Desktop editions x86-64
- Red Hat Enterprise Linux (RHEL) 5 Desktop editions x86-32
- SUSE Linux Enterprise Server (SLES) 11 x86-64
- SUSE Linux Enterprise Desktop (SLED) 11.0 x86-32

##### **Microsoft™ Windows**

- Windows 7 Enterprise x86-32
- Windows 7 Home Premium x86-32
- Windows Server 2008 R2 Enterprise Edition x86-64
- Windows 7 Professional x86-64
- Windows 7 Ultimate x86-32
- Windows 7 Home Premium x86-64
- Windows 7 Enterprise x86-64
- Windows Server 2008 R2 Datacenter Edition x86-64
- Windows 7 Ultimate x86-64
- Windows Server 2008 R2 Standard Edition x86-64
- Windows 7 Professional x86-32
- Windows 7 Starter x86-32

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

### Planning information

---

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express®. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance)

offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

## **Packaging**

### **Rational Rhapsody**

### **Security, auditability, and control**

---

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

---

## **Ordering information**

This product is only available via Passport Advantage. It is not available as shrinkwrap.

## Charge metrics definitions

### Authorized User

Authorized User is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. The program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User accessing the program in any manner directly or indirectly

(for example, via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

**Note:** Some programs may be licensed where devices are considered users. In that case, the following applies. Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the program or that is otherwise managed by the program is considered a separate user of the program and requires an entitlement as if that device were a person.

## Install

Install is a unit of measure by which the program can be licensed. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each install of the program.

## Terms and conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

### **Licensing**

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

### **License Information number**

Program name	Program number	LI number
Rational Rhapsody	5724-X70	L-SROS-9LMCE3

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

### **Limited warranty applies**

Yes

### **Limited warranty**

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the *IBM Software Support Handbook* found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

### **Program technical support**

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional

technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

### ***Money-back guarantee***

For clarification, note that if for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

- For clarification, note that for programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.

### ***Volume orders (IVO)***

No

### ***Passport Advantage applies***

Yes, and through the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

### ***Software Subscription and Support applies***

Yes. Software Subscription and Support is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your *IBM Software Support Handbook* at

<http://www.ibm.com/support/handbook>

Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

### **System i® Software Maintenance applies**

No

### **Educational allowance available**

Not applicable.

### **Statement of good security practices**

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered destroyed or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.
