Overview

IBM® Aspera® solutions improve transfer performance to file-based workflows with optimized speed, security, and bandwidth efficiency. Widely used across a variety of industries all over the world, IBM Aspera offerings transport petabytes of data each day.

IBM Aspera Platform delivers a new bandwidth tier for IBM Aspera High-Speed Transfer Endpoint V3.9 by introducing the IBM Aspera High-Speed Transfer Endpoint 2.5 Gbps ordering option. IBM Aspera High-Speed Transfer Endpoint enables users to transfer files directly between locations. The new 2.5 Gbps bandwidth tier improves ordering flexibility, as well as transfer speed customization. Administration, remote control, management, and monitoring are provided by the Aspera Console.

Key prerequisites

IBM Aspera solutions run on selected levels of Microsoft® Windows®, Linux®, and Mac OS X.

Planned availability date

November 16, 2018

Section 508 of the US Rehabilitation Act

IBM Aspera High-Speed Transfer Endpoint is capable as of November 16, 2018, when used in accordance with associated IBM documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act, provided that any assistive technology used with the product properly interoperates with it. A US Section 508 Accessibility Conformance Statement can be requested on the Product accessibility information website.

**Terms and conditions**

The terms and conditions for the IBM Aspera products in this announcement, as previously announced, are unchanged.

**Statement of good security practices**

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without
a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

For information about prices, see the Software Announcement in the Reference information section.

Order now

To order, contact the IBM Digital Sales Center, your local IBM representative, or your IBM Business Partner. To identify your local IBM representative or IBM Business Partner, call 800-IBM-4YOU (426-4968). For more information, contact the IBM Digital Sales Center.

Phone: 800-IBM-CALL (426-2255)

Fax: 800-2IBM-FAX (242-6329)
