

Statement of direction: IBM WebSphere DataPower Service Gateway XG45 and WebSphere DataPower Integration Appliance XI52 virtual editions provide flexible deployment options

Table of contents

1 [Overview](#)

Overview

IBM® intends to introduce virtual editions for some WebSphere® DataPower® SOA appliance models. These virtual appliances will run on top of the VMware hypervisor platform and provide industry-leading security, integration, and optimization capabilities similar to the physical WebSphere DataPower appliance models.

Virtual editions are planned for:

- WebSphere DataPower Service Gateway XG45
- WebSphere DataPower Integration Appliance XI52

IBM's statements regarding its plans, directions, and intent are subject to change or withdrawal without notice at IBM's sole discretion. Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information mentioned regarding potential future products is not a commitment, promise, or legal obligation to deliver any material, code, or functionality. Information about potential future products may not be incorporated into any contract. The development, release, and timing of any future features or functionality described for our products remains at our sole discretion.
