Overview

International models of the ThinkCentre® M58e series are now available through the Global Model Plus (GMP) program which includes:

• Three- or four-year limited warranty (parts and labor)\(^1\)
• On-site service for select repairs, 9 hours a day, Monday through Friday, excluding holidays, and next-business-day (NBD) response objective\(^2\)

These models are available to qualified customers only through pricing special bids. Product availability with on-site service will be determined during the special bid process.

The Global Customer Offerings group or LE Direct will work with Lenovo® representatives on this offering.

For detailed information on each product, refer to the Reference information section.

\(^1\) International Warranty Service (IWS) is available in any country in which this product is sold and serviced. Service delivery methods and parts availability vary by country, may be different from that in the country of purchase, and are subject to change without notice. Fees and restrictions may apply in some countries.

\(^2\) If a machine is listed as having on-site service for select repairs, on-site service is available only for the replacement of select parts. For all other warranty repairs, Lenovo will provide the customer a replacement part for customer installation. The parts for which on-site service is available varies by machine. It can include the processor, power supply, heat sink, system board, or base cover. Response times can vary and may exclude some holidays. For on-site labor, Lenovo will attempt to diagnose and resolve the problem remotely before sending a technician.

Key prerequisites

Global Priority System customers must meet the following criteria for one or more countries:

• Global Account Management
• Global Direct Fulfillment
• LE Direct
Planned availability date

April 2009

Availability dates will be determined during the special bid process.

Description

For a complete description of each product, and product warranty information, refer to the Hardware Announcement listed in the Reference information section.

Product positioning

Refer to the Reference information section.

Reference information

Refer to Hardware Announcement ZG09-0043, dated March 10, 2009, for product information.

3 For models without a separate video card, memory supports both system and video. Accessible system memory may be up to 64 MB less than the amount stated, depending on video mode.

4 GB equals 1,000,000,000 bytes when referring to storage capacity. Accessible capacity is less; up to 4 GB is used in service partition.

5 Some software may differ from its retail version (if available), and may not include user manuals or all program functionality. Software license agreements may apply.

Technical information

Specified operating environment

Limitations
Refer to the Reference information section.

Planning information

Customer responsibilities
These systems are designated as customer setup (CSU). CSU allowance is one day.

Cable orders
Except for system power, keyboard, and mouse connections, there are no cabling requirements. All cables are provided with the system unit and the instructions are provided as part of initial setup.

Packaging
Refer to the Hardware Announcement listed in the Reference information section for packaging information.

Security, auditability, and control
The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communications facilities.

Terms and conditions

To obtain copies of the Lenovo Statement of Limited Warranty, contact your reseller or Lenovo.

Warranty period for machine types 7508 and 7514
• System hardware - Three years on parts and labor NBD

Optional Lenovo features initially installed in a Lenovo system carry the same warranty period as the system. If installed after the initial system installation, they carry the balance of the system warranty or the optional feature warranty, whichever is greater.
Warranty service

If required, your service provider provides repair or exchange service depending on the type of warranty service specified below for the machine. A service technician will attempt to resolve your problem over the telephone. You must follow the problem determination and resolution procedures. Scheduling of service will depend upon the time of your call and is subject to parts availability. Service levels are response time objectives and are not guaranteed. The specified level of warranty service may not be available in all worldwide locations, additional charges may apply outside your service provider's normal service area, contact your local service provider representative or your reseller for country- and location-specific information.

Customer replaceable unit (CRU) service

Lenovo will ship CRUs to you for you to install, Tier 1 CRUs are easy to install whereas Tier 2 CRUs require some technical skill and tools. CRU information and replacement instructions are shipped with your machine and are available from Lenovo at any time on your request. You may request that a service provider install CRUs, at no additional charge, under the type of warranty service designated for your machine. Lenovo specifies in the materials shipped with a replacement CRU whether a defective CRU must be returned. When return is required, return instructions and a container are shipped with the replacement CRU, and you may be charged for the replacement CRU if Lenovo does not receive the defective CRU within 30 days of your receipt of the replacement.

On-site service

Your service provider will either repair or exchange the failing machine at your location and verify its operation. You must provide a suitable working area to allow disassembly and reassembly of the machine. The area must be clean, well-lit, and suitable for the purpose. For some machines, certain repairs may require sending the machine to a designated service center.

International Warranty Service (IWS)

IWS is available during the warranty period to customers who travel or relocate to countries where their computer is sold and serviced by a service provider authorized to perform warranty service. Eligible Lenovo computers are identified by their four-digit machine type.

You can obtain IWS through the method of service, such as CRU, depot, carry-in or on-site, provided in the servicing country. Service methods and procedures vary by country, and some service or parts may not be available in all countries. Service centers in certain countries may not be able to service all models of a particular machine type. In addition, some countries may have fees and restrictions that apply at the time of service.

Note: Due to the earth’s magnetic field, CRT monitors are manufactured to work in northern, southern, and equatorial regions of the earth and may not produce a satisfactory image when moved between them. Any required adjustment (if possible) is not covered under IWS and may be subject to a chargeable action. The magnetic field does not affect flat-panel LCD monitors and ThinkPad® LCD displays.

Licensing

Programs included with this product are licensed under the terms and conditions of the license agreements that are shipped with the system.

LENOVO THINKPLUS WARRANTY UPGRADES

The announced Lenovo ThinkCentre machine types are eligible for Lenovo ThinkPlus® Warranty Upgrades and Post Warranty offerings. Lenovo ThinkPlus provides a higher level of warranty service than that provided by the Lenovo Base Warranty.

Note :- Only one Warranty Upgrade per Machine Serial Number can be active. A Post Warranty offering can be added when a Warrant Upgrade is active. The Post warranty offering will only become active at the end date of the warranty upgrade or Base warranty
period if later.

*IBM Global Financing*
IBM® Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

http://www.ibm.com/financing

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice. Financing offering capabilities: Financing solutions from IBM Global Financing can help you stretch your budget and affordably acquire the new product. But beyond the initial acquisition, our end-to-end approach to IT management can also help keep your technologies current, reduce costs, minimize risk, and preserve your ability to make flexible equipment decisions throughout the entire technology life cycle.
