At a glance

IBM® Rational® Insight delivers:

- Measurement best practices to help organizations automate data collection, implement consistent measurements, analyze current and past performance, and improve the quality and performance of their software and systems development projects
- Out-of-the-box and customized dashboards and measures that provide objective transparency and visibility into risks, status, and trends

Rational Insight V1.1 offers significant improvements to the dashboard UI, offline reporting capabilities for improved performance, improved mobile and tablet support (iOS and Android), and improved MS Office integration via the updated Cognos® 10.1 platform.

Overview

As economical climates continue to change, organizations must find ways to keep their competitive advantage and meet the needs of their customers with fewer resources and more budget constraints. To achieve this, managers must make the right decisions at the right time. However, most continue to struggle with information availability, quality, and quantity. This causes a lack of visibility into their projects and processes, which impacts their ability to make effective business decisions.

Rational Insight, a performance management solution, gives organizations the right tools to keep their project and process investments in concert with their strategic objectives, providing transparency and control of risks, status, and trends.

Rational Insight ensures that managers can measure, monitor, analyze, and improve performance correctly and take corrective actions when necessary. This software delivers measurement best practices that help organizations reduce time to market, improve solution quality, and take greater control of software and systems development and delivery.

Key prerequisites

For details, refer to the [Hardware requirements](#) and the [Software requirements](#) sections.

Planned availability date

- December 6, 2011: Electronic availability
- December 9, 2011: Media availability

Description

In addition to the existing capabilities of Rational Insight, the Rational Insight V1.1 release provides:

- Updated dashboard UI based on Cognos 10.1 Business Insight
- Offline reporting based on Cognos 10.1 Active Reports
- Integration with Microsoft™ Office applications based on Cognos 10.1 for Microsoft Office
- Support for the latest versions of web browsers (IE and Firefox), DBMS (MS SQL Server 2008 R2), and operating systems (RHEL, MS Windows™ 7, and Windows 2008)
- New and updated out-of-the-box dashboards and reports leveraging the new Business Insight dashboard UI
- New data model documentation, simplifying the task of integrating third-party data into the Rational Insight data warehouse and reports

Section 508 of the US Rehabilitation Act

IBM Rational Insight is capable as of December 9, 2011, when used in accordance with IBM's associated documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act, provided that any assistive technology used with the product properly interoperates with it. A U.S. Section 508 Voluntary Product Accessibility Template (VPAT), containing details on the products accessibility compliance, can be requested on the following website

http://www.ibm.com/able/product_accessibility/index.html

Availability of national languages

Publications

No publications are shipped with this product.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the US) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

Technical information

Specified operating environment

Hardware requirements

Disk space

- Server: Rational Insight Data Services -- Minimum: 2 GB
- Server: Cognos BI Data Manager, Cognos BI Modeling, Rational Insight Report Server, and Rational Insight XML Data Configuration
 - Single system installation: Minimum: 15 GB; Optimum: 30 GB
 - Data Warehouse server: Minimum: 13 GB; Optimum: 80 GB
 - Report server: Minimum: 3 GB; Optimum: 10 GB
 - Developer system: Minimum: 3 GB; Optimum: 15 GB

Display

Server: Cognos BI Data Manager, Cognos BI Modeling, Rational Insight Data Services, Rational Insight Report Server, and Rational Insight XML Data Configuration -- Display monitor with at least 1024 x 768 color resolution using 256 colors

Memory

Server: Rational Insight Data Services -- The Data Services system configured for a specific product adapter should meet the system requirements for that product.

- If you are installing one adapter, add 1 GB memory in addition to the requirement of the product for the adapter to be installed.
- If you are installing more than one adapter on the same system, use the largest memory requirement of the product for the adapter to be installed, and add 512 MB memory for each additional adapter.

Server: Cognos BI Data Manager, Rational Insight Report Server -- Minimum: 2 GB;
Optimum: 4 GB or more

Processor

Server: Cognos BI Data Manager, Cognos BI Modeling, Rational Insight Data Services, Rational Insight Report Server, and Rational Insight XML Data Configuration -- Minimum: Pentium™ and reg; 4 2Ghz; Optimum: Dual Core 2+Ghz

Software requirements

Application servers

- WebSphere® Application Server V6.1.0.21 and future fix packs
- WebSphere Application Server V6.1.0.29 and future fix packs
- WebSphere Application Server - Express® V7.0 and future fix packs
- WebSphere Application Server - Base V7.0 and future fix packs

Collection agents and report servers -- IBM Cognos Business Intelligence V10.1.1 and future fix packs

Databases

- DB2® Enterprise Server Edition 9.5 and future fix packs
- DB2 Workgroup Server Edition 9.5 and future fix packs
- Microsoft SQL Server Enterprise Edition 2005 SP2 and future fix packs
- Oracle Database 10g Enterprise Edition Release 2 10.2.0.2 and future fix packs
- Oracle Database 10g Standard Edition Release 2 10.2.0.2 and future fix packs
- Oracle Database 11g Enterprise Edition Release 1 and future fix packs
- Oracle Database 11g Standard Edition Release 1 and future fix packs
- DB2 Workgroup Server Edition V9.7 and future fix packs
- DB2 Enterprise Server Edition V9.7 and future fix packs
- DB2 Express Edition V9.5 and future fix packs
- DB2 Express Edition V9.7 and future fix packs
- Oracle Database 11g Enterprise Edition Release 1 11.1.0.7 and future fix packs
- Oracle Database 11g Standard Edition Release 1 11.1.0.7 and future fix packs
- Oracle Database 11g Enterprise Edition Release 2 and future fix packs
- Oracle Database 11g Standard Edition Release 2 and future fix packs
- Microsoft SQL Server 2005 SP2 and future fix packs
- Microsoft SQL Server Enterprise Edition 2005 SP3 and future fix packs
- Microsoft SQL Server Standard Edition 2005 SP3 and future fix packs
- Microsoft SQL Server Enterprise Edition 2008 SP1 and future fix packs
- Microsoft SQL Server Standard Edition 2008 SP1 and future fix packs
- Microsoft SQL Server Express 2005 SP3 and future fix packs
- Microsoft SQL Server Express 2008 and future fix packs

Installer -- Capilano Components (IBM Installation Manager and IBM Packaging Utility) V1.5 and future releases, modification levels, and fix packs

Java™ Technology -- IBM Java SDK V5.0.8 and future fix packs, modification levels, and their fix packs

License Use Management -- Rational License Key Server V8.1.2 and future fix packs

Web browsers

- Microsoft Internet Explorer 6.0 and future fix packs
- Microsoft Internet Explorer 7.0 and future fix packs
- Mozilla Firefox 2.0 and future modification levels and fix packs
- Mozilla Firefox 3.0 and future modification levels and fix packs
- Mozilla Firefox 3.5 and future fix packs
- Mozilla Firefox 3.6 and future fix packs
- Microsoft Internet Explorer 8.0 and future fix packs
- Mozilla Firefox 4.0 and future fix packs
- Microsoft Internet Explorer 9.0 and future fix packs

Charge metrics definitions

Authorized User

Authorized User is the unit of measure by which this program is licensed. An Authorized User is an individual (named or unnamed) within or outside of your enterprise. The program may be installed on one or more computers or servers and accessed by the number of users authorized by the Proof of Entitlement (PoE). You must have an entitlement for each Authorized User accessing the program or any program component in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means.

Install

Install is a unit of measure by which the program can be licensed. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each install of the program.

This set of part numbers provides the identical supply and authorization as the other set in this announcement.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

License Information form number

Program name	Program number	Form number
IBM Rational Insight	5724-Y05	L-ADON-8NGPVK; L-ADON-8NGQHZ

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Money-back guarantee

For clarification, note that if for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that for programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.
