## Overview

IBM® Connections Enterprise Content Edition V5.1.0 is an integrated solution designed to provide an office document management approach to enterprise content using existing desktop applications. Organizations can now create and leverage enterprise content with familiar applications.

As an IBM Connections customer, IBM Connections Enterprise Content Edition V5.1.0 now supports either one of the IBM content repository -- IBM Content Manager Enterprise Edition V8.4.3 or IBM FileNet® Content Manager V5.1.0.

### Key benefits:

- Leverages Enterprise Content Management (ECM) performance, scalability, and security.
- Provides the additional social features needed for ECM users around desktop integration via IBM Lotus® Quickr® Connectors V8.5 and office document management in a social environment with IBM Connections V3.0.1.

For details about Connections Enterprise Content Edition, refer to Software Announcement [211-469](#), dated October 25, 2011 .

For ordering, contact your IBM representative, an IBM Business Partner, or IBM Americas Call Centers at 800-IBM-CALL (425-2255).

## Description

---

IBM Connections Enterprise Content Edition is an integrated solution designed to provide extensive desktop and collaborative application integration between IBM Connections, IBM FileNet Content Manager, IBM Lotus Quickr Connectors, and now IBM Content Manager. IBM Connections Enterprise Content Edition for IBM Connections orderable part number provides IBM Connections customers with a cost efficient means to obtain integrated Enterprise Content Management (ECM) capabilities while leveraging their existing IBM Connections investment.

IBM Connections Enterprise Content Edition V5.1.0 now runs on the two industry-leading content repositories IBM FileNet Content Manager V5.1.0 and IBM Content Manager Enterprise Edition V8.4.3. It leverages ECM performance, scalability, and security. On top of this enterprise base, V5.1.0 provides the additional social features needed for ECM users around desktop integration via Lotus Quickr Connectors V8.5 and office document management in a social environment with IBM Connections V3.0.1. For more detailed product information about IBM Connections Enterprise Content Edition V5.1.0, refer to Software Announcement [211-469](#), dated October 25, 2011 .

## Technical information

---

### **Specified operating environment**

---

#### ***Hardware and software requirements***

IBM Connections Enterprise Content Edition supports the same hardware as FileNet Content Manager, IBM Content Manager, and IBM Connections. Connections Enterprise Content Edition also supports the latest versions of prerequisite software and software add-ons that are supported by FileNet Content Manager, IBM Content Manager, and IBM Connections. The exact configuration needed to support your environment with satisfactory response time varies depending on the size of the objects you are working with and other factors. Individual display response times vary depending on workstation speed, memory, size of objects, and network and server workload.

For the most current and complete information on hardware and software requirements for Connections Enterprise Content Edition, visit the FileNet Content Manager, IBM Content Manager, IBM Connections, and Lotus Quickr Connectors hardware and software specifications pages.

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

### **Security, auditability, and control**

---

Connections Enterprise Content Edition uses the security and auditability features of the host software.

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

### **Product information**

Licensed function title	Product group	Product category
IBM Connections Enterprise Content Edition Authorized	Content Manager	Content Manager
Program name	PID number	Charge unit description
IBM Connections Enterprise Content	5725-E71	Per User Value

**Charge metrics definitions****User Value Unit (UVU)**

UVU is the metric by which this program is licensed. UVU entitlements are based on the number of users for the given program. A Proof of Entitlement (PoE) must be obtained for the appropriate number of UVUs required for your environment as defined by the specific program terms. The UVU entitlements are specific to the program and may not be exchanged, interchanged, or aggregated with UVU entitlements of another software program. UVU licensing offers you price benefits for customers by enabling a lower cost of incremental growth of resources. To understand these benefits of UVU licensing, and to determine how many UVUs to obtain for the program, contact your IBM representative.
