Overview

IBM Watson™ Analytics helps you focus on the drivers that matter most in your business. By automating the steps of data access and refinement, predictive analysis, and visual storytelling, Watson™ Analytics immediately identifies and explains hidden patterns and relationships to accelerate your understanding of why things happened and what is likely to happen.

The Professional edition of Watson Analytics is now available with more features and functionality suited for a departmental implementation. New features in the Professional edition of Watson Analytics include:

- Increased data storage and file limits.
- More data connectors.
- Access to cloud data sources.

Key prerequisites

IBM Watson Analytics requires a supported browser.

Planned availability date

April 28, 2015

Description

IBM Watson Analytics brings an engaging analytics experience in conversation terms you can understand. Whether you have a question to answer, an assumption to test, or you are not sure what you want, Watson Analytics has you covered. Access your data with the touch of a button in an engaging analytics experience that speaks to you in familiar terms.

The Professional edition of IBM Watson Analytics includes:

- Increased data storage and file limits:
  - Upload larger files for analysis and more storage space to save your work.
- More data connectors:
- Connect directly to the data you need to analyze to populate Watson Analytics.
- Access to cloud data sources:
  - Analyze the data you are using in the cloud, through cloud storage services such as Dropbox, Google Drive, Box, and Salesforce.
  - Augment your data with online social networking data from Twitter.

**Accessibility by people with disabilities**

A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be requested at

**Offering Information**

Product information is available via the Offering Information website

http://www.ibm.com/common/ssi

Also, visit the Passport Advantage® website

http://www.ibm.com/software/passportadvantage

**Publications**

No publications are shipped with this program.

**Services**

**Global Technology Services**

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings for the efficient installation, implementation, or integration of this product.

**Technical information**

**Specified operating environment**

**Hardware requirements**

None.

**Software requirements**

Supported browsers:

- Google Chrome 28, or later
- Internet Explorer 11
- Firefox 32 and Firefox 31 Extended Support Release
• Safari 6 and 7

The program’s specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Packaging
This offering is delivered through the Internet. There is no physical media.

Ordering information

For ordering information, consult your IBM representative or authorized IBM Business Partner, or visit

http://www.ibm.com/software/support/pa.html

This product is only available via Passport Advantage. It is not available as shrinkwrap.

These products may only be sold directly by IBM or by authorized IBM Business Partners for Software Value Plus.

Gigabyte

Gigabyte is a unit of measure by which the Cloud Service can be obtained. A Gigabyte is defined as 2 to the 30th power bytes of data (1,073,741,824 bytes). Gigabytes are used to measure the uncompressed size of data sets loaded to the
Cloud Service. Sufficient entitlements must be obtained to cover the number of gigabytes hosted in the Cloud Service at any point during the measurement period.

**Authorized User**

Authorized User is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. The program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the program in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

**Note:** Some programs may be licensed where devices are considered users. In that case, the following applies. Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the program or that is otherwise managed by the program is considered a separate user of the program and requires an entitlement as if that device were a person.

---

**Terms and conditions**

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Passport Advantage Agreement, the International Passport Advantage Express Agreement, the Cloud Services Agreement and associated Service Descriptions, or the IBM SaaS Terms of Use.

This product is only available via Passport Advantage. It is not available as shrinkwrap.

**Subscription**

The IBM International Passport Advantage Agreement and the IBM SaaS Terms of Use or the IBM Cloud Services Agreement (CSA) and the Service Description govern your use of this offering.

**Technical support**

Technical support is provided for IBM SaaS and enabling software, as applicable, during the subscription period. Any enhancements, updates and other materials provided by IBM as part of any such technical support are considered to be part of IBM SaaS or enabling software, as applicable, and therefore governed by the SaaS Terms of Use or the CSA and associated Service Description. Technical support is included with IBM SaaS and is not available as a separate offering.

Refer to additional technical support information in the IBM Software as a Service Terms of Use document for the program.

**Terms of Use**

The program's Terms of Use and CSA Service Description document is available on the IBM Software as a Service Agreements website

**Limited warranty**

If warranted, refer to the warranty as stated in the Terms of Use document or the Cloud Services Agreement for this offering.
Money-back guarantee

Education allowance does not apply. Education software allowance does not apply. Special education prices are available for qualified customers through Passport Advantage.

Statement of good security practices

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.
