At a glance

The InfoSphere® Guardium® products provide a simple, robust solution for continuously monitoring access to high-value databases. They help prevent unauthorized or suspicious activities by privileged insiders and potential hackers and automate governance controls in heterogeneous enterprises.

New capabilities in Version 8.2 include:

- Central Policy Management for z/OS®: manage and configure InfoSphere Guardium S-TAP™ for z/OS directly from the InfoSphere Guardium console, helping reduce operational costs and simplifying InfoSphere Guardium deployment
- Enhancements to existing DB2® on z/OS offering: performance improvements, reduced footprint on the database server, new policy management system, and various fixes
- Support for both IMS™ and VSAM on z/OS
- Vulnerability Assessment enhancements: support for Oracle PSUs (patch set updates), new GuardAPI commands, and new tests for z/OS and distributed databases
- Enhancements to DB Discovery and Sensitive Data Finder: improved performance, added data-level security, new capabilities to support advanced search criteria, new GuardAPI commands, and new predefined reports
- Support for Traditional Chinese

For ordering, contact your IBM® representative, an IBM Business Partner, or IBM Americas Call Centers at 800-IBM-CALL (Reference: YE001).

Overview

The IBM InfoSphere Guardium products provide a simple, robust solution for preventing data leaks from databases and files, helping to ensure the integrity of information in the data center and automating compliance controls.

They are intended to enable continuous monitoring of heterogeneous database and document-sharing infrastructures, as well as enforcement of your policies for sensitive data access across the enterprise, utilizing a scalable platform.

A centralized audit repository designed to maximize security, combined with an integrated compliance workflow automation application, enables the products to streamline compliance validation activities across a wide variety of mandates.

InfoSphere Guardium products can help you:

- Automatically locate databases and discover and classify sensitive information within them
- Automatically assess database vulnerabilities and configuration flaws
- Ensure that configurations are locked down after recommended changes are implemented
- Enable high visibility at a granular level into database transactions that involve sensitive data
- Track activities of end users who access data indirectly through enterprise applications
- Monitor and enforce a wide range of policies, including sensitive data access, database change control, and privileged user actions
- Create a single, secure centralized audit repository for large numbers of heterogeneous systems and databases
- Automate the entire compliance auditing process, including creating and distributing reports as well as capturing comments and signatures

The InfoSphere Guardium solution is designed for ease of use and scalability. It can be configured for a single database or thousands of heterogeneous databases located across the enterprise.

This solution is available as preconfigured appliances shipped by IBM or as software appliances installed on your platform. Optional features can easily be added to your system after installation.

For more information on the InfoSphere Guardium family of products, visit

<http://www.ibm.com/software/data/guardium/>

Alternatively, contact an IBM representative.

Key prerequisites

The InfoSphere Guardium solution consists of a modular software suite built on a hardened Linux™ kernel and deployed as a series of preconfigured hardware and software appliances.

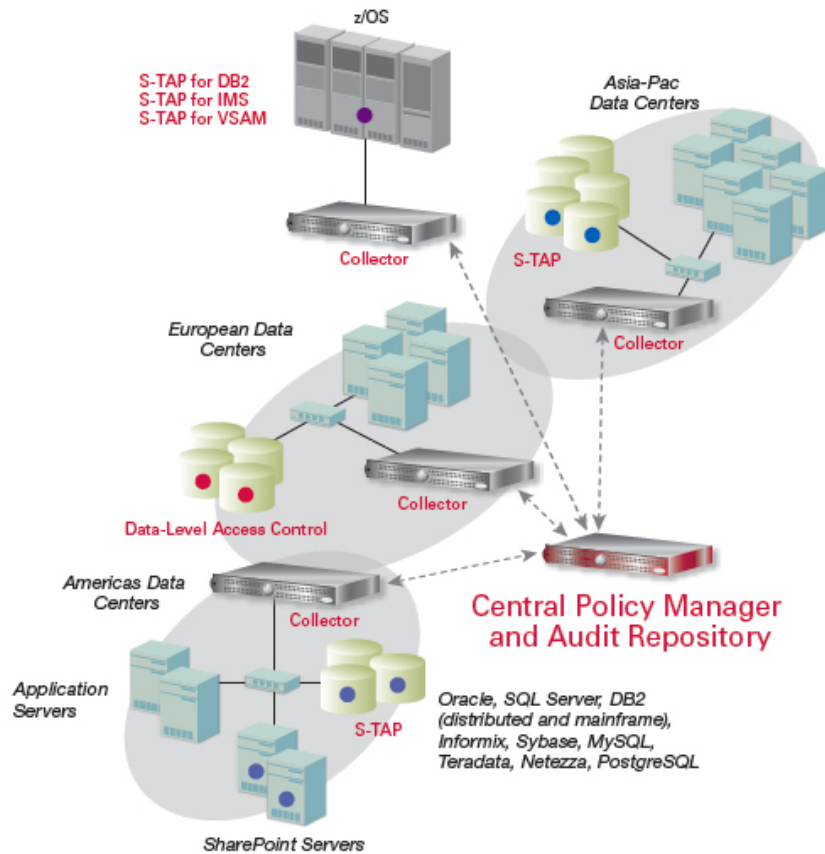

For additional information, refer to the [Hardware requirements](#) section and the [Software requirements](#) section.

Planned availability date

September 9, 2011

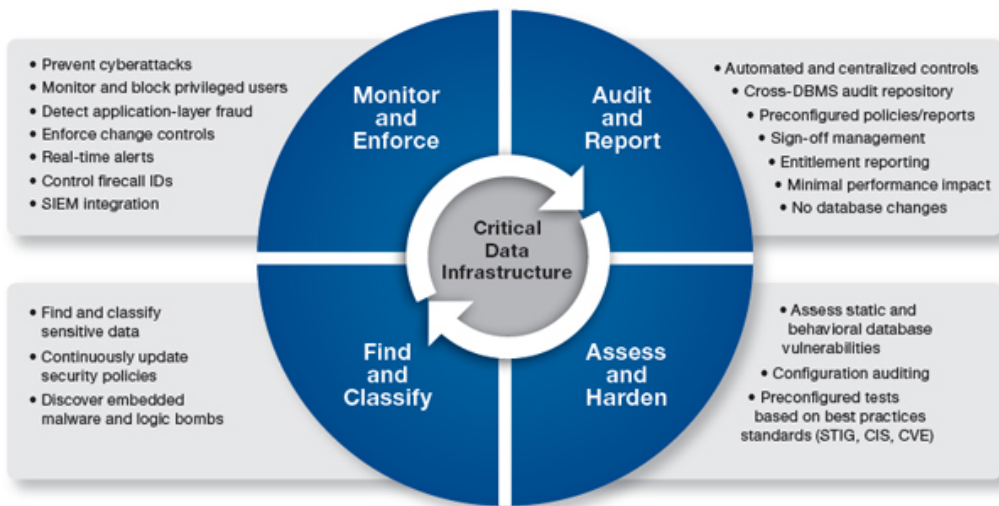

Description

The IBM InfoSphere Guardium products provide a simple, robust solution for preventing data leaks from databases and files, helping to ensure the integrity of information in the data center and automating compliance controls. They provide a scalable platform, intended to enable continuous monitoring of heterogeneous database and document sharing infrastructures, as well as enforcement of your policies for sensitive data access enterprise-wide. Designed to be a secure, centralized audit repository combined with an integrated compliance workflow automation application, the products are designed to streamline compliance validation activities across a wide variety of mandates.

The InfoSphere Guardium products architecture enables users to select the modules appropriate for their immediate needs, adding additional modules as requirements grow and change. Available modules include:

- Database Activity Monitor
- Central Manager and Aggregator Application
- Database Vulnerability Assessment Application
- Database Protection Knowledge Base
- Configuration Audit System Application
- Data-Level Access Control
- Enterprise Integrator
- Application End-User Identifier
- Sensitive Data Finder Application
- Advanced Compliance Workflow Application
- Entitlement Reports Applications

The InfoSphere Guardium products are intended to address the entire database security and compliance life cycle with a unified web console, back-end data store, and workflow automation system, helping to enable you to:

- Locate and classify sensitive information in corporate databases
- Assess database vulnerabilities and configuration flaws
- Ensure configurations are locked down after recommended changes are implemented
- Provide high visibility and granularity into all database transactions -- across all supported platforms and protocols -- with an audit trail that supports separation of duties and that is designed to be secure and tamper-proof
- Track activities on major file sharing platforms like Microsoft™ SharePoint
- Monitor and enforce your policies for sensitive data access, privileged user actions, change control, application user activities, and security exceptions such as failed logins
- Automate the entire compliance auditing process, including report distribution to oversight teams, sign-offs, and escalations with preconfigured reports relating to Sarbanes-Oxley (SOX), PCI DSS, and data privacy
- Create a single, centralized audit repository for enterprise-wide compliance reporting, performance optimization, investigations, and forensics
- Easily scale from safeguarding a single database to protecting thousands of databases in distributed data centers around the world.

Accessibility by people with disabilities

A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be requested at

http://www.ibm.com/able/product_accessibility/index.html

Education support

IBM Training: Available from IBM Training, the newest offerings to support your training needs, enhance your skills, and boost your success with IBM software. IBM offers a complete portfolio of training options, including traditional classroom, private onsite, and eLearning courses. Many of our classroom courses are part of IBM's "Guaranteed to run program," ensuring your course will never be canceled. We have an eLearning portfolio including Instructor-Led Online (ILO) courses. A perfect complement to classroom training, our eLearning portfolio offers something for every need and every budget; simply select the style that suits you.

Be sure to take advantage of our custom training plans to map your path to acquiring skills. Enjoy further savings when you purchase training at a discount with an IBM Education Pack - online account, a flexible and convenient way to pay, track, and manage your education expenses online.

The following key education resources have been updated to reflect InfoSphere Guardium.

Check your local Information Management Training and Education website or with your training representative for the most recent training schedule.

The following classes are available.

Course code	Course title	Course type
GU20	InfoSphere Guardium Technical Training	Classroom

IBM training provides education to support many IBM offerings. Descriptions of courses for IT professionals and managers are on the IBM training website

<http://www.ibm.com/services/learning/>

Call IBM training at 800-IBM-TEACH (426-8322) for catalogs, schedules, and enrollments.

Offering Information

Product information is available via the Offering Information website

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® website

<http://www.ibm.com/software/passportadvantage>

Publications

All product publications are provided in softcopy format on the product CDs or DVDs.

Technical information

Specified operating environment

Hardware requirements

For information on hardware requirements, refer to the website listed in the [Software requirements](#) section.

Software requirements

All software requirements for these products are available at

<http://www.ibm.com/support/docview.wss?uid=swg27021801>

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Packaging

The IBM InfoSphere Guardium solution is available as one of the following:

- Hardware appliance: a fully configured software solution delivered on physical appliances provided by IBM
- Software appliance: the solution delivered as software images to be deployed by customers on their own hardware either directly or as virtual appliances

In both cases, customers are provided with access to all the relevant media: image files, product keys, and installable agents. Customers may also order the media on CDs or DVDs. In addition, customers are provided with a Quick Start Guide, Installation Guides, License Information, and any collateral documents to support the installation and configuration of the solution.

Security, auditability, and control

The InfoSphere Guardium solution is installed as a hardened Linux appliance (physical or virtual). The appliance includes various security, audit, and compliance functions to help guarantee the availability of the solution, confidentiality of the data stored on the appliance, and accountability for any configuration changes. The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Software Services

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an extensive portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.

To learn more about IBM Software Services or to contact a Software Services sales specialist, visit

<http://www.ibm.com/software/sw-services/>

Ordering information

This product is only available via Passport Advantage. It is not available as shrinkwrap.

These products may only be sold directly by IBM or by authorized IBM Business Partners for Software Value Plus.

For more information about IBM Software Value Plus, visit

<http://www.ibm.com/software/info/itsolutions/softwarevalueplus/>

To locate IBM Business Partners for Software Value Plus in your geography for a specific Software Value Plus portfolio, contact your IBM representative. These products may only be sold directly by IBM or by authorized IBM Business Partners for Software Value Plus.

Install

Install is a unit of measure by which some of these programs can be licensed. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each install of the program.

Processor Value Unit (PVU)

Processor Value Unit (PVU) is a unit of measure by which the program can be licensed. The number of PVU entitlements required is based on the processor technology (defined within the PVU Table by processor value, brand, type, and model number at the following website and the number of processors made available to the program. IBM continues to define a processor, for the purpose of PVU-based licensing, to be each processor core on a chip. A dual-core processor chip, for example, has two processor cores. The PVU table can be found at

http://www.ibm.com/software/lotus/passportadvantage/pvu_licensing_for_customers.html

Licensee can deploy the program using either Full Capacity licensing or Virtualization Capacity (Sub-Capacity) licensing according to the Passport Advantage Sub-Capacity Licensing Terms (see webpage below). If using Full Capacity licensing, Licensee must obtain PVU entitlements sufficient to cover all activated processor cores¹ in the physical hardware environment made available to or managed by the program, except for those servers from which the program has been permanently removed. If using Virtualization Capacity licensing, Licensee must obtain entitlements sufficient to cover all activated processor cores made available to or managed by the program, as defined according to the Virtualization Capacity License Counting Rules at

http://www.ibm.com/software/lotus/passportadvantage/Counting_Software_licenses_using_specific_virtualization_technologies.html

¹ An Activated processor core is a processor core that is available for use in a physical or virtual server, regardless of whether the capacity of the processor core can be or is limited through virtualization technologies, operating system commands, BIOS settings, or similar restrictions.

Notes:

- Some programs may require licenses for the program and what is being managed. In that case, the following applies: In addition to the entitlements required for the program directly, Licensee must obtain PVU entitlements for this program sufficient to cover the processor cores managed by the program.
- Some programs may be licensed on a managed basis only. In that case, the following applies: Instead of the entitlements required for the program directly, Licensee must obtain PVU entitlements for this program sufficient to cover the processor cores managed by the program.
- A few programs on an exception basis may be licensed on a referenced basis. In that case, the following applies: Rather than obtaining entitlements for the activated processor cores available to the program, Licensee must obtain PVU entitlements for this program sufficient to cover the environment made available to the referenced program as if the program itself were executing everywhere the referenced program was executing, independent of the basis on which the referenced program is licensed.

Resource Value Unit (RVU)

RVU is a unit of measure by which some of these program can be licensed. RVU Proofs of Entitlement are based on the number of units of a specific resource used or managed by the program. Licensee must obtain sufficient entitlements for the number of RVUs required for licensee's environment for the specific resources as specified in the program specific table. RVU entitlements are specific to the program and the type of resource and may not be exchanged, interchanged, or aggregated

with RVU entitlements of another program or resource. Refer to the program specific RVU table.

Notes:

- Some programs may require licenses for the resources available to and the resources being managed by the program. In that case, the following applies. In addition to the entitlements required for the resources used by the program directly, licensee must obtain entitlements for this program sufficient to cover the resources managed by the program.
- Some programs may be licensed on a managed basis only. In that case, the following applies. Instead of the entitlements required for the resources used by the program directly, licensee must obtain entitlements for this program sufficient to cover the resources managed by the program.

Value Unit exhibit VUE007

Level	MSUs Minimum	MSUs Maximum	Resource Value Units/MSU
Base	1	3	1
Tier A	4	45	0.45
Tier B	46	175	0.36
Tier C	176	315	0.27
Tier D	316	+	0.20

Value Units for mainframes without MSU ratings:

Hardware	Resource Value Units/machine
MP3000 H30	6
MP3000 H50	8
MP3000 H70	12
ESL models	2

The total number of Value Units is calculated according to the following example.

If your required license capacity is 1,500 MSUs for your selected System z® IPLA product, the applicable Value Units would be:

Translation from MSUs to value units

	MSUS	*	Resource Value Units/MSU	=	Resource Value Units
Base	3	*	1.00	=	3.00
Tier A	42	*	.45	=	18.90
Tier B	130	*	.36	=	46.80
Tier C	140	*	.27	=	37.80
Tier D	1,185	*	.20	=	237.00
Total	1,500				343.50

When calculating the total number of Resource Value Units, the sum is to be rounded up to the next integer.

Passport Advantage customer: Media pack entitlement details

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium Database Activity Monitor V8.2 Multiplatform Multilingual Media Pack (part number BB017ML):

- InfoSphere Guardium Database Activity Monitor with Privileged User Auditing
- InfoSphere Guardium Database Activity Monitor with Sensitive Objects Auditing
- InfoSphere Guardium Database Activity Monitor with Comprehensive Auditing
- InfoSphere Guardium Database Activity Monitor for Standby Systems with Privileged User Auditing
- InfoSphere Guardium Database Activity Monitor for Standby Systems with Sensitive Objects Auditing
- InfoSphere Guardium Database Activity Monitor for Standby Systems with Comprehensive Auditing
- InfoSphere Guardium Database Activity Monitor for Data Warehouses with Privileged User Auditing
- InfoSphere Guardium Database Activity Monitor for Data Warehouses with Sensitive Objects Auditing
- InfoSphere Guardium Database Activity Monitor for Data Warehouses with Comprehensive Auditing
- InfoSphere Guardium Database Activity Monitor for Load Balancing with Privileged User Auditing
- InfoSphere Guardium Database Activity Monitor for Load Balancing with Sensitive Objects Auditing
- InfoSphere Guardium Database Activity Monitor for Load Balancing with Comprehensive Auditing

Customers with active maintenance or subscription for InfoSphere Guardium - Enterprise Integrator are entitled to receive InfoSphere Guardium - Enterprise Integrator V8.2 Multiplatform English Media Pack (part number BB018EN).

Customers with active maintenance or subscription for InfoSphere Guardium - Application End User Identifier are entitled to receive InfoSphere Guardium - Application End User Identifier V8.2 Multiplatform English Media Pack (part number BB019EN).

Customers with active maintenance or subscription for InfoSphere Guardium - Data Level Access Control are entitled to receive InfoSphere Guardium - Data Level Access Control V8.2 Multiplatform English Media Pack (part number BB01AEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database Vulnerability Assessment are entitled to receive InfoSphere Guardium - Database Vulnerability Assessment V8.2 Multiplatform English Media Pack (part number BB01BEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Configuration Audit System for Database Servers are entitled to receive InfoSphere Guardium - Configuration Audit System for Database Servers V8.2 Multiplatform English Media Pack (part number BB01CEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database and Sensitive Data Finder are entitled to receive InfoSphere Guardium - Database and Sensitive Data Finder V8.2 Multiplatform English Media Pack (part number BB01DEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Advanced Compliance Workflow Automation are entitled to receive InfoSphere Guardium - Advanced Compliance Workflow Automation V8.2 Multiplatform English Media Pack (part number BB01EEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Entitlement Reports are entitled to receive InfoSphere Guardium - Entitlement Reports V8.2 Multiplatform English Media Pack (part number BB01FEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database Protection Knowledgebase are entitled to receive InfoSphere Guardium - Database Protection Knowledgebase V8.2 Multiplatform English Media Pack (part number BB01GEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Central Manager and Aggregator are entitled to receive InfoSphere Guardium - Central Manager and Aggregator V8.2 Multiplatform English Media Pack (part number BB01HML).

Customers with active maintenance or subscription for InfoSphere Guardium Database Vulnerability Assessment Solution are entitled to receive InfoSphere Guardium Database Vulnerability Assessment Solution V8.2 Multiplatform English Media Pack (part number BB01IEN).

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium Database Activity Monitor for z/OS V8.2 Multiplatform Multilingual Media Pack (part number B01JEN):

- InfoSphere Guardium Database Activity Monitor for z/OS with Privileged User Auditing
- InfoSphere Guardium Database Activity Monitor for z/OS with Sensitive Objects Auditing
- InfoSphere Guardium Database Activity Monitor for z/OS with Comprehensive Auditing
- InfoSphere Guardium Database Activity Monitor for Data Warehouses for z/OS with Privileged User Auditing
- InfoSphere Guardium Database Activity Monitor for Data Warehouses for z/OS with Sensitive Objects Auditing
- InfoSphere Guardium Database Activity Monitor for Data Warehouses for z/OS with Comprehensive Auditing

Customers with active maintenance or subscription for InfoSphere Guardium Enterprise Integrator for z/OS are entitled to receive InfoSphere Guardium - Enterprise Integrator V8.2 V8.2 Multiplatform English Media Pack (part number BB018EN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database and Sensitive Data Finder for z/OS are entitled to receive InfoSphere Guardium - Database and Sensitive Data Finder V8.2 Multiplatform English Media Pack (part number BB01DEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Advanced Compliance Workflow Automation for z/OS are entitled to receive InfoSphere Guardium - Advanced Compliance Workflow Automation V8.2 Multiplatform English Media Pack (part number BB01EEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database Vulnerability Assessment for z/OS are entitled to receive InfoSphere

Guardium - Database Vulnerability Assessment V8.2 Multiplatform English Media Pack (part number BB01BEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database Protection Knowledgebase for z/OS are entitled to receive InfoSphere Guardium - Database Protection Knowledgebase V8.2 Multiplatform English Media Pack (part number BB01GEN).

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium - Enterprise Integrator V8.2 Multiplatform English Media Pack (part number BB0188EN):

- InfoSphere Guardium - Enterprise Integrator Add-on
- InfoSphere Guardium - Enterprise Integrator Add-on for Z/OS

Customers with active maintenance or subscription for InfoSphere Guardium - Application End User Identifier Add-on are entitled to receive InfoSphere Guardium - Application End User Identifier V8.2 Multiplatform English Media Pack (part number BB019EN).

Customers with active maintenance or subscription for InfoSphere Guardium - Data-Level Access Control Add-on are entitled to receive InfoSphere Guardium - Data-Level Access Control V8.2 Multiplatform English Media Pack (part number BB01AEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Database Vulnerability Assessment Add-on are entitled to receive InfoSphere Guardium - Database Vulnerability Assessment V8.2 Multiplatform English Media Pack (part number BB01BEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Configuration Audit System for Databases Add-on are entitled to receive InfoSphere Guardium - Configuration Audit System for Databases V8.2 Multiplatform English Media Pack (part number BB01CEN).

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium - Database and Sensitive Data Finder Add-on V8.2 Multiplatform English Media Pack (part number BB01DENN):

- InfoSphere Guardium - Database and Sensitive Data Finder Add-on
- InfoSphere Guardium - Database and Sensitive Data Finder Add-on for z/OS

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium - Database and Sensitive Data Finder Add-on V8.2 Multiplatform English Media Pack (part number BB01EENN):

- InfoSphere Guardium - Advanced Compliance Workflow Automation Add-on
- InfoSphere Guardium - Advanced Compliance Workflow Automation Add-on for z/OS

Customers with active maintenance or subscription for InfoSphere Guardium - Entitlement Reports Add-on are entitled to receive InfoSphere Guardium - Entitlement Reports V8.2 Multiplatform English Media Pack (part number BB01FEN).

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium - Database and Sensitive Data Finder Add-on V8.2 Multiplatform English Media Pack (part number BB01GEN):

- InfoSphere Guardium - Database Protection Knowledgebase Add-on
- InfoSphere Guardium - Database Protection Knowledgebase Add-on for z/OS

Customers with active maintenance or subscription for InfoSphere Guardium - Database Vulnerability Assessment Add-on for z/OS are entitled to receive InfoSphere Guardium - Database Vulnerability Assessment V8.2 Multiplatform English Media Pack (part number BB01BEN).

Customers with active maintenance or subscription for InfoSphere Guardium - Central Manager and Aggregator Add-on for z/OS are entitled to receive InfoSphere Guardium - Central Manager and Aggregator V8.2 Multiplatform Multilingual Media Pack (part number BB01KML).

Customers with active maintenance or subscription for InfoSphere Guardium - Database Vulnerability Assessment Solution for z/OS are entitled to receive InfoSphere Guardium - Database Vulnerability Assessment V8.2 Multiplatform English Media Pack (part number BB01LEN).

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium - Database Activity Monitor - Software Appliance V8.2 Multiplatform English Media Pack (part number BB01MML):

- InfoSphere Guardium - Database Activity Monitor with Privileged User Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor with Sensitive Objects Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor with Comprehensive Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for Standby Systems with Privileged User Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for Standby Systems with Sensitive Objects Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for Standby Systems with Comprehensive Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for Data Warehouses with Privileged User Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for Data Warehouses with Sensitive Objects Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for Standby Warehouses with Comprehensive Auditing - Virtual Machine Image

Customers with active maintenance or subscription for InfoSphere Guardium - Central Manager and Aggregator - Virtual Machine Image are entitled to receive InfoSphere Guardium - Central Manager and Aggregator Software Appliance V8.2 Multiplatform Multilingual Media Pack (part number BB01NML).

Customers with active maintenance or subscription for InfoSphere Guardium Database Vulnerability Assessment Solution - Virtual Machine Image are entitled to receive InfoSphere Guardium Vulnerability Assessment Solution Software Appliance V8.2 Multiplatform English Media Pack (part number BB01PEN).

Customers with active maintenance or subscription for the following products are entitled to receive InfoSphere Guardium - Database Activity Monitor for z/OS - Software Appliance V8.2 Multiplatform Multilingual Media Pack (part number BB01QML):

- InfoSphere Guardium - Database Activity Monitor for z/OS with Privileged User Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS with Sensitive Objects Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS with Comprehensive Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS for Standby Systems with Privileged User Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS for Standby Systems with Sensitive Objects Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS for Standby Systems with Comprehensive Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS for Data Warehouses with Privileged User Auditing - Virtual Machine Image

- InfoSphere Guardium - Database Activity Monitor for z/OS for Data Warehouses with Sensitive Objects Auditing - Virtual Machine Image
- InfoSphere Guardium - Database Activity Monitor for z/OS for Standby Warehouses with Comprehensive Auditing - Virtual Machine Image

Customers with active maintenance or subscription for InfoSphere Guardium Central Manager and Aggregator for z/OS - Virtual Machine Image are entitled to receive InfoSphere Guardium Central Manager and Aggregator for z/OS Software Appliance V8.2 Multiplatform Multilingual Media Pack (part number BB01SML).

Customers with active maintenance or subscription for InfoSphere Guardium Database Vulnerability Assessment Solution for z/OS - Virtual Machine Image are entitled to receive InfoSphere Guardium Database Vulnerability Assessment Solution - for z/OS Software Appliance V8.2 Multiplatform English Media Pack (part number BB01REN).

Cross-platform product for use on System z

Order the part numbers that follow when the product is used for either the development of code that will be deployed on System z servers or when the product will be communicating or transferring data between a distributed server and a System z server. Otherwise, order from the other set of part numbers in this announcement. This set of part numbers provides the identical supply and authorization as the other set in this announcement.

Processor Value Unit (PVU) sub-capacity licensing

These software products are eligible for sub-capacity licensing. Customers must accept the terms of the IBM International Passport Advantage Agreement Attachment for Sub-Capacity Licensing Terms (Attachment), and must obtain PVU Proofs of Entitlement (PoEs) for the maximum processor core capacity available to an eligible sub-capacity product when deployed in an eligible virtualization environment. This is also referred to as *sub-capacity* or *virtualization capacity licensing*.

Customers must use the IBM License Metric Tool unless they meet the exceptions described in the Attachment.

For information regarding PVU sub-capacity licensing, including terms and IBM License Metric Tool ordering information, visit

<http://www.ibm.com/software/lotus/passportadvantage/subcaplicensing.html>

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support.

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified

portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the IBM Software Support Handbook found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Volume orders (IVO)

No

Passport Advantage applies

Yes, and through the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

Usage restrictions

Yes

For additional information, refer to the License Information document that is available on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Software Subscription and Support applies

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by

the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Handbook at

<http://www.ibm.com/support/handbook>

Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

System i Software Maintenance applies

No

Variable charges apply

No

Educational allowance available

Not applicable.

IBM Electronic Services

IBM has transformed its delivery of hardware and software support services to help you achieve higher system availability. Electronic Services is a web-enabled solution that offers an exclusive, no-additional-charge enhancement to the service and support available for IBM servers. These services are designed to provide the opportunity for greater system availability with faster problem resolution and preemptive monitoring. Electronic Services comprises two separate, but complementary, elements: Electronic Services news page and Electronic Services Agent.

The Electronic Services news page is a single Internet entry point that replaces the multiple entry points traditionally used to access IBM Internet services and support. The news page enables you to gain easier access to IBM resources for assistance in resolving technical problems.

The Electronic Service Agent™ is no-additional-charge software that resides on your server. It monitors events and transmits system inventory information to IBM on a periodic, client-defined timetable. The Electronic Service Agent automatically reports hardware problems to IBM. Early knowledge about potential problems enables IBM to deliver proactive service that may result in higher system availability

and performance. In addition, information collected through the Service Agent is made available to IBM service support representatives when they help answer your questions or diagnose problems. Installation and use of IBM Electronic Service Agent for problem reporting enables IBM to provide better support and service for your IBM server.

To learn how Electronic Services can work for you, visit

<http://www.ibm.com/support/electronic>

Prices

For additional information and current prices, contact your local IBM representative.

Business Partner information

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBM ID and password are required.

<https://www.ibm.com/software/howtobuy/passportadvantage/paoreseller>

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative, authorized IBM Business Partner, or authorized IBM Business Partner for Software Value Plus, if applicable. Additional information is also available at

<http://www.ibm.com/software/passportadvantage>

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www-03.ibm.com/financing/us/index.html>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

Order now

To order, contact the Americas Call Centers or your local IBM representative, or your IBM Business Partner.

To identify your local IBM representative or IBM Business Partner, call 800-IBM-4YOU (426-4968).

The Americas Call Centers, our national direct marketing organization, can add your name to the mailing list for catalogs of IBM products.

Note: Shipments will begin after the planned availability date.

IBM Software Value Plus

These products are available under IBM Software Value Plus, either directly from IBM or through authorized Business Partners who invest in skills and high value solutions. IBM customers may benefit from the industry-specific or horizontal solutions, skills, and expertise provided by these Business Partners.

Additions to Software Value Plus will be communicated through standard product announcements. For a current list of IBM software available under Software Value Plus, visit

<http://www-01.ibm.com/software/info/itsolutions/softwarevalueplus/>

Questions regarding IBM Software Value Plus may be sent to AskSoftwareValueNet@us.ibm.com
