Note 1: IBM Rational Professional Bundle (RPB) was previously announced withdrawn from market per the following Software withdrawal announcement [ZP16-0101](#), dated January 12, 2016. Entitlements to RPB are being migrated to the following set of offerings, which together provide value and functionality that is equal to or greater than RPB. Each entitlement to RPB, whether "Authorized User" or "Floating User Single Install", will yield a set of replacement entitlements (with the same license metrics) to each of the following:

- IBM Rational Application Developer for WebSphere Software (RAD)
- IBM Rational Software Architect Design Manager (RSADM)

- IBM Rational Functional Tester (RFT)
- IBM Rational Performance Tester (RPT)
- IBM Rational Service Tester for SOA Quality (RST)

So for example, a customer who held 5 AU entitlements to RPB would become entitled to 5 RAD plus 5 RSADM plus 5 RFT plus 5 RPT plus 5 RST. As such, the End of Service of the Rational Professional Bundle has no practical implications for customers who own it because:

- They will adopt the individual replacement products
- Each Version and Release of those products has its own service lifetime in conformance to the Software Lifecycle Policy
