Overview

IBM® Sterling B2B Services delivers flexible solutions and expert services to help reduce the time and complexity of securely integrating with your business partners. It can communicate securely with global partners regardless of protocols or gateways, handling millions of transactions per day. As Software-as-a-Service, you can have fewer IT resources, no upgrade charges, configuration rather than installation, fast and easy connectivity, and low total cost of ownership.

You can now expand on the already robust capabilities of IBM Sterling B2B Services to provide greater flexibility in the way you can use the services.

For additional information about Sterling B2B Services, refer to Software Announcement [211-402](#), dated October 18, 2011 .

For ordering, contact Your IBM representative. For more information, contact the Americas Call Centers at 800-IBM-CALL (426-2255).

Ordering information

Charge metric

These charge metrics apply to the part numbers in this announcement.

| Program name | Part number or PID number | Charge metric |
|------------------------------------|---------------------------|--|
| IBM Sterling B2B Services Services | 5725-E36 | Connection Document Entity ID Gigabyte |

Connection

Connection is a unit of measure by which the IBM SaaS can be obtained. A Connection is a link or association of a database, application, server, or any other type of device to the IBM SaaS. Sufficient entitlements must be obtained to cover the total number of Connections which have been or are made to the IBM SaaS during the measurement period specified in customer's Proof of Entitlement (PoE) or Transaction Document.

Document

Document is a unit of measure by which the IBM SaaS can be obtained. A Document is defined as a finite volume of data that is enveloped within a document header and trailer record that marks its beginning and end. Sufficient entitlements must be obtained to cover the total number of Documents processed by the IBM SaaS during the measurement period specified in customer's PoE or Transaction Document.

Entity ID

Entity ID is a unit of measure by which the IBM SaaS can be obtained. An Entity ID is a unique identifier which may be referred to in the SaaS environment by different terms that may include, but would not be limited to, Client ID, customer ID, partner ID, supplier ID, vendor ID, or EDI ID within the IBM SaaS. Sufficient entitlements must be obtained to cover the number of Entity IDs identified in the IBM SaaS during the measurement period specified in customer's PoE or Transaction Document.

Gigabyte

Gigabyte is a unit of measure by which the IBM SaaS can be obtained. A Gigabyte is defined as 2 to the 30th power bytes of data (1,073,741,824 bytes). Sufficient entitlements must be obtained to cover the total number of Gigabytes processed by the IBM SaaS during the measurement period specified in customer's PoE or Transaction Document.

Map

Map is a unit of measure by which the IBM SaaS can be obtained. A Map is an electronic correlation that is used during the runtime of a transaction that determines what to do with source data fields to make them understandable by the recipient of the data. Sufficient entitlements must be obtained to cover the total number of Maps provided by the IBM SaaS that transform input data into something that is understood on the output side during the measurement period specified in customer's PoE or Transaction Document.

Request

Request is a unit of measure by which the IBM SaaS can be obtained. A Request is the act by the client that authorized IBM to perform a service. Depending upon the service, the Request can be in the form of a written notice or a support request which is made by phone call, email or online case. Sufficient entitlements must be obtained to cover the total number of Requests submitted to the IBM SaaS during the measurement period specified in customer's PoE or Transaction Document.

Renamed part numbers

The descriptions of the following part numbers are updated as indicated.

| Original program name and description | New program name and description | Part number |
|---|---|-------------|
| IBM Sterling B2B Services File Transfer Service Additional Storage Gigabyte | IBM Sterling B2B Services File Transfer Service Processing Gigabyte | D0MGILL |

| | | |
|--|--|---------|
| per Month | per Month | |
| IBM Sterling B2B Services File Transfer Service Additional Storage Gigabyte Daily Fee for Partial Month | IBM Sterling B2B Services File Transfer Service Processing Gigabyte Daily Fee for Partial Month | D0MGJLL |
| IBM Sterling B2B Services File Transfer Service Additional Storage Gigabyte Overage | IBM Sterling B2B Services File Transfer Service Processing Gigabyte Overage | D0MNSLL |

New part numbers

| Program name and description | Part number |
|---|-------------|
| IBM Sterling B2B Services - Collaboration Network Mailbox On-demand Setup | D0P9RLL |
| IBM Sterling B2B Services - Collaboration Network OFTP/OFTP2 Connection On-demand Setup | D0P9QLL |
| IBM Sterling B2B Services - Integration Basic - PIP Based Routing RosettaNet, CIDX, or PIDX Entity ID On-demand Setup | D0P9VLL |
| IBM Sterling B2B Services - Integration Basic - PIP Based Transformation Map for RosettaNet Entity ID On-demand Setup | D0P9SLL |
| IBM Sterling B2B Services - Integration Basic - PIP Based Transformation Map for CIDX Entity ID On-demand Setup | D0P9TLL |
| IBM Sterling B2B Services - Integration Basic - PIP Based Transformation Map for PIDX Entity ID On-demand Setup | D0P9WLL |
| IBM Sterling B2B Services - Integration Basic - Map Change Pay per Use | D0P9PLL |
| IBM Sterling B2B Services - Integration Basic - Secondary Integration Services Map Setup | D0PACLL |
| IBM Sterling B2B Services - Integration Basic - Secondary Integration Services Map On-demand Setup | D0P9ULL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 3 Year Gigabyte per Month | D0P9NLL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 3 Year Gigabyte Overage | D0PA2LL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 5 Year Gigabyte per Month | D0P9LLL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 5 Year Gigabyte Overage | D0PA5LL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 7 Year Gigabyte per Month | D0P9FLL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 7 Year Gigabyte Overage | D0PA3LL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 10 Year Gigabyte per Month | D0P9HLL |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 10 Year Gigabyte Overage | D0PA4LL |
| IBM Sterling B2B Services - Integration Basic - | D0P9MLL |

| | |
|---|---------|
| Extended Data Retention - 3 Year Gigabyte Daily Fee for Partial Month | |
| IBM Sterling B2B Services - Integration Basic - Extended Data Retention - 5 Year Gigabyte Daily Fee for Partial Month | D0P9KLL |

| IBM Sterling B2B Services - Community Development Services - Document Verification Service Document On-demand Setup | D0P9XLL |

Terms and conditions

The terms and conditions, as previously announced in IBM Software Announcement [211-402](#), dated October 18, 2011, are unchanged. Only the Terms of Use have been updated. The Terms of Use are available on the IBM Software as a Service Terms of Use website

<http://www.ibm.com/software/sla/sladb.nsf/sla/tou>

Statement of good security practices

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or

services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.

Prices

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

For more financing information, visit

<http://www.ibm.com/financing>
