

# IBM FileNet Image Services includes trade-up part numbers to FileNet Image Manager Active Edition and FileNet Content Manager

## Table of contents

<a href="#">1 Overview</a>	<a href="#">3 Ordering information</a>
<a href="#">1 Availability date</a>	<a href="#">15 Terms and conditions</a>
<a href="#">1 Program number</a>	<a href="#">16 Prices</a>
<a href="#">1 Technical information</a>	<a href="#">16 Order now</a>

## Overview

Trade-up part numbers from FileNet® Image Services to FileNet Image Manager Active Edition and FileNet Content Manager are available for clients who:

- Have a business need to run both Panagon and P8-based applications, sharing the same users and content
- Have a long-term plan to migrate their application from Panagon to P8 and need to run both environments for an extended period of time
- Are switching their applications from Panagon to P8

## Availability date

May 29, 2012

## Program number

Program number	VRM	Program name
5724-R81	5.1.0	IBM® FileNet Content Manager
5724-R94	5.1.0	IBM FileNet Image Manager Active Edition

## Technical information

### Specified operating environment

#### Hardware requirements

For Image Manager Active Edition V5.1, refer to:

- Software Announcement [211-169](#), dated May 10, 2011
- Software Announcement [211-269](#), dated July 26, 2011

For FileNet Content Manager V5.1, refer to Software Announcement [211-269](#), dated July 26, 2011 .

#### Software requirements

Refer to the [Hardware requirements](#) section.

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

---

## **Planning information**

### ***Customer responsibilities***

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage® and Passport Advantage Express®. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

---

## **Security, auditability, and control**

IBM FileNet Content Manager uses the security and auditability features of the host software.

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

---

## **Software Services**

IBM Enterprise Content Management (ECM) Software Services provides packaged and individualized software service offerings to design, develop, deploy, maintain and expand ECM software solutions.

ECM Software Services provides the following Planning, Implementation, and Maintenance services to help you prepare, implement, utilize, and maintain your ECM solution.

### **Planning Services**

ECM Planning Services provide the advisory and assessment assistance that you need for an ECM enterprise design, solution assessment, or transition (upgrade, conversion, or migration) plan.

### **Transition Planning Services**

Keeping your software current is a critical ECM requirement. ECM Software Services helps you plan your software conversion to help you realize the advantages of new product functionality. The IBM Transition Planning Service provides expert resources to assist clients in planning the most efficient transition path to your desired ECM solution. Let us help you with the many decisions that need to be made to help your organization fully maximize the benefits of ECM.

### **Implementation Services**

ECM Implementation Services ensure that our clients have a technically sound and functional system framework necessary for the successful development and

deployment of their ECM solution. These services allow clients to be confident that whether their ECM solution is designed and developed by their staff, ECM Software Services, or a certified partner, it will be implemented and supported on a system framework that has been expertly installed, tested, and certified for support by ECM Support.

**Transition Services** assist you with:

- Legacy product transitions (e.g. FileNet Image Services transitions to FileNet P8),
- Platform conversions (moving to a new database, OS, LDAP, etc.), and
- Data migrations (moving to a new content storage device)

Transition Services provide a fail-safe methodology for protecting client data during the transition of your current ECM solution to the target solution. Our team of experts manages and executes the transition process for supported platforms.

## Maintenance Services

### System Health Check Services

IBM offers a combination of health check services to meet your specific system health-related needs including capacity planning, performance tuning, and system deployment reviews. These services can identify the causes of existing system bottlenecks or even identify the capacity limits of your current hardware/software configuration prior to realizing a production bottle neck. Whether or not your system has health related issues, Software Services' Health Check services can recommend the appropriate changes to increase overall system performance getting you the most value and the best performance from your system every day.

To learn how ECM Software Services can help meet your business needs, contact your local Software Services representative at

<ftp://public.dhe.ibm.com/common/ssi/ecm/en/imj14005usen/IMJ14005USEN.PDF>

## User Value Units

### Authorized User Value Unit (AUVU) License Conversion Table

Cumulative Volume Level	Minimum Authorized	Maximum Authorized	User Value units per Authorized	Max UVUs for Each Level	Cumulative UVUs at Each Level	Cumulative Volume Disc
1	1	20	1.00	20	20	0.0%
2	21	50	0.83	25	45	10.0%
3	51	100	0.80	40	85	15.0%
4	101	250	0.76	115	200	20.0%
5	251	500	0.60	150	350	30.0%
6	501	1,000	0.50	250	600	40.0%
7	1,001	5,000	0.47	1,900	2,500	50.0%
8	5,001	10,000	0.40	2,000	4,500	55.0%
9	10,001	25,000	0.36	5,500	10,000	60.0%
10	25,001	infinity	0.33	N/A	N/A	N/A

### Employee User Value Unit (EUVU) License Conversion Table

Cumulative volume level	Minimum Employees	Maximum Employees	User Value Units per employee level	Max UVUs for each	Cumulative UVUs at each level	Cumulative vol disc
1	1,000	2,500	1.00	2,500	2,500	0.0%
2	2,501	5,000	0.80	2,000	4,500	10.0%
3	5,001	10,000	0.70	3,500	8,000	20.0%
4	10,001	30,000	0.65	13,000	21,000	30.0%
5	30,001	50,000	0.55	11,000	32,000	36.0%
6	50,001	100,000	0.50	25,000	57,000	43.0%
7	100,001	300,000	0.46	93,000	150,000	50.0%
8	300,001	500,000	0.40	80,000	230,000	54.0%
9	500,001	1,000,000	0.36	180,000	410,000	59.0%
10	1,000,001	infinity	0.32	N/A	N/A	N/A

### External User Value Unit (XUVU) License Conversion Table

Cumulative volume level	Minimum Ext Users	Maximum Ext Users	User Value Units per Ext User	Max UVUs for each level	Cumulative UVUs at each level	Cumulative vol disc
1	1,000	10,000	1.00	10,000	10,000	0.0%
2	10,001	50,000	0.87	35,000	45,000	10.0%
3	50,001	100,000	0.60	30,000	75,000	25.0%
4	100,001	500,000	0.43	175,000	250,000	50.0%
5	500,001	1,000,000	0.30	150,000	400,000	60.0%
6	1,000,001	infinity	0.24	5,850,000	6,250,000	75.0%

### Charge metrics definitions

#### User Value Unit (UVU)

UVU is the metric by which this program is licensed. UVU entitlements are based on the number of users for the given program. A Proof of Entitlement (PoE) must be obtained for the appropriate number of UVUs required for your environment as defined by the specific program terms. The UVU entitlements are specific to the program and may not be exchanged, interchanged, or aggregated with UVU entitlements of another software program. UVU licensing offers you price benefits for customers by enabling a lower cost of incremental growth of resources. To understand these benefits of UVU licensing, and to determine how many UVUs to obtain for the program, contact your IBM representative.

Cumulative volume discounting examples:

- 100 authorized users require 85 AUVUs
- 1,000 authorized users require 600 AUVUs
- 5,000 authorized users require 2,500 AUVUs

Image Services configuration example:

- Image Services AUVU price = \$Y per AUVU
- 5,000 authorized users require 2,500 AUVUs
- Total price = \$Y x 2,500

## Install

Install is a unit of measure by which the program can be licensed. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each install of the program.

### **Cross-platform products**

---

#### ***Cross-platform products for use on System z***

Order the part numbers that follow when the product is used for either the development of code that will be deployed on System z servers or when the product will be communicating or transferring data between a distributed server and a System z server. Otherwise order from the other set of part numbers in this announcement. This set of part numbers provides the identical supply and authorization as the other set in this announcement

#### ***Cross-platform product for use on System z IFL engines***

Order the part numbers that follow when the product is intended to run on the Linux operating system on System z IFL engines. If the product is not intended to run on the Linux operating system on System z IFL engines, order from the other set of part numbers in this announcement. This set of part numbers provides the identical supply and authorization as the other set in this announcement.

---

## Terms and conditions

---

The terms and conditions for IBM FileNet Image Services V4.2 as previously announced in Software Announcement [211-169](#), dated May 10, 2011, are unchanged.

---

## IBM Electronic Services

---

IBM has transformed its delivery of hardware and software support services to help you achieve higher system availability. Electronic Services is a Web-enabled solution that offers an exclusive, no-additional-charge enhancement to the service and support available for IBM servers. These services are designed to provide

the opportunity for greater system availability with faster problem resolution and preemptive monitoring. Electronic Services comprises two separate, but complementary, elements: Electronic Services news page and Electronic Services Agent.

The Electronic Services news page is a single Internet entry point that replaces the multiple entry points traditionally used to access IBM Internet services and support. The news page enables you to gain easier access to IBM resources for assistance in resolving technical problems.

The Electronic Service Agent™ is no-additional-charge software that resides on your server. It monitors events and transmits system inventory information to IBM on a periodic, client-defined timetable. The Electronic Service Agent automatically reports hardware problems to IBM. Early knowledge about potential problems enables IBM to deliver proactive service that may result in higher system availability and performance. In addition, information collected through the Service Agent is made available to IBM service support representatives when they help answer your questions or diagnose problems. Installation and use of IBM Electronic Service Agent for problem reporting enables IBM to provide better support and service for your IBM server.

---

## Prices

---

The charges are unchanged by this announcement.

---

## Order now

---

To order, contact the Americas Call Centers or your local IBM representative, or your IBM Business Partner.

To identify your local IBM representative or IBM Business Partner, call 800-IBM-4YOU (426-4968).

Phone: 800-IBM-CALL (426-2255)  
Fax: 800-2IBM-FAX (242-6329)  
Internet: callserv@ca.ibm.com  
Mail: IBM Teleweb Customer Support
