At a glance

IBM(R) PureApplication(R) Service is an off-premise, cloud application platform that provides the ability to accelerate and simplify the repeatable deployment and lifecycle management tasks of enterprise middleware workloads, such as:

- IBM WebSphere(R) Application Server
- IBM Business Process Management
- IBM Mobile
- IBM Portal
- IBM Commerce IBM Analytics

Overview

IBM PureApplication Service on Softlayer (PureApplication Service), an off-premise, cloud application platform, accelerates and simplifies the repeatable deployment and lifecycle management tasks of enterprise middleware workloads, such as the following offerings:

- WebSphere Application Server
- IBM Business Process Management (BPM)
- IBM Mobile First
- WebSphere Portal
- WebSphere Commerce
- IBM Analytics offerings

PureApplication Service on Softlayer allows you to quickly deploy and manage lifecycle of enterprise workloads in a dedicated and isolated off-premise environment and provides hybrid cloud capability in conjunction with:

- Bluemix(R) Local System
- PureApplication System
- PureApplication Software
- PureApplication Software Suite
This release enables you to utilize a PureApplication Service subscription to access the Self Service Portal (SSP) for tracking and monthly billing of on-premise usage of PureApplication Software or PureApplication Software Suite. It enables hybrid cloud billing for your on-premise usage activity. New features and capabilities include:

- Tracking management of on-premise usage of PureApplication Software or PureApplication Software Suite
- Monthly billing charges of on-premise usage of PureApplication Software or PureApplication Software Suite

These new features require PureApplication Service Subscription to process monthly charges and access these features in the SSP. With these features, you can:

- Complement your on-premise usage of Bluemix Local System or bring your own hardware (BYOH) for PureApplication Software or PureApplication Software Suite.
- Dynamically adjust your monthly charges of PureApplication Software or PureApplication Software Suite that is based on your monthly business needs.
- Establish a hybrid cloud footprint that complement your on-premise workloads and usage activity through hybrid cloud billing.
- Leverage the hybrid cloud billing to expand your on-premise workloads for off-premise usage on PureApplication Service.

In addition, PureApplication Service provides the ability to provision core configurations with either PureApplication Software or PureApplication Software Suite. PureApplication Software Suite includes entitlement to PureApplication Software with WebSphere Application Server and Db2. With this update, you can provision core configurations on PureApplication Service with additional entitlements for your hybrid cloud workloads.

Also, PureApplication Service is updated to provide additional billing information and usage reports. You can utilize the billing information and usage reports to gain insights into your workloads.

### Key prerequisites

PureApplication Service on IBM SoftLayer™ and the PureApplication Service self-service portal require an internet connection and a workstation with a supported browser.

### Planned availability date

September 29, 2017

### Reference information

For information on PureApplication Software V2.2.3 and PureApplication Software Suite V2.2.3, refer to Software Announcement 217-087, dated May 2, 2017.

**Services**

**Software Services**

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.

To learn more about IBM Software Services, contact your Lab Services Sales or Delivery Leader.

**Technical information**

**Specified operating environment**

**Hardware requirements**

PureApplication Service requires:

- A workstation that supports one of the web browsers that are listed in the Software requirements section
- A direct, internet connection

**Software requirements**

One of the following web browsers:

- Microsoft(TM) Internet Explorer V9, 10, or 11
- Mozilla Firefox 33
- Mozilla Firefox ESR 31
- Safari 5.1, and later
- Google Chrome 35

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

**Instance** is a unit of measure by which the IBM SaaS can be obtained. An Instance is access to a specific configuration of the IBM SaaS. Sufficient entitlements must be obtained for each Instance of the IBM SaaS made available to access and use during the measurement period specified in Customer’s Proof of Entitlement (PoE) or Transaction Document.

**Terms and conditions**

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Passport Advantage Agreement, the International Passport Advantage Express Agreement, the Cloud Services Agreement and associated Service Descriptions, or the IBM SaaS Terms of Use.

**Subscription**

The IBM International Passport Advantage Agreement and the IBM SaaS Terms of Use or the IBM Cloud Services Agreement (CSA) and the Service Description govern your use of this offering.
**Technical support**

Technical support is provided for IBM SaaS and enabling software, as applicable, during the subscription period. Any enhancements, updates and other materials provided by IBM as part of any such technical support are considered to be part of IBM SaaS or enabling software, as applicable, and therefore governed by the SaaS Terms of Use or the CSA and associated Service Description. Technical support is included with IBM SaaS and is not available as a separate offering.

Refer to additional technical support information in the IBM Software as a Service Terms of Use or Service Description documents for the program.

**Terms of Use**

The program’s Terms of Use and CSA Service Description document is available on the Software as a Service terms website.

**Limited warranty**

If warranted, refer to the warranty as stated in the Terms of Use document or the Cloud Services Agreement for this offering.

**Money-back guarantee**

No

**Volume orders (IVO)**

No

**Passport Advantage applies**

Yes, information is available on the Passport Advantage and Passport Advantage Express website.

**Software Subscription and Support applies**

No

**System i Software Maintenance applies**

No

**Variable charges apply**

No

**Educational allowance available**

Not applicable.

**Statement of good security practices**

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a
comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

**Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative. Additional information is also available on the Passport Advantage and Passport Advantage Express website.

**IBM Global Financing**

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, can help accelerate implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

**Trademarks**

IBM, PureApplication, WebSphere, Bluemix, Passport Advantage, System i and Express are registered trademarks of IBM Corporation in the United States, other countries, or both. SoftLayer is a registered trademark of SoftLayer Inc., an IBM Company. Microsoft is a trademark of Microsoft Corporation in the United States, other countries, or both. Other company, product, and service names may be trademarks or service marks of others.

**Terms of use**

IBM products and services which are announced and available in your country can be ordered under the applicable standard agreements, terms, conditions, and prices in effect at the time. IBM reserves the right to modify or withdraw this announcement at any time without notice. This announcement is provided for your information only. Additional terms of use are located at:
