At a glance

Implementation Services for IBM® System Storage® SAN Volume Controller and Implementation Services for IBM Storwize® V7000 have been updated to include the option to implement Real-time Compression™ (RtC) when implementing your SAN Volume Controller (SVC) or V7000.

Overview

Implementation Services for IBM Storwize V7000 and Implementation Services for IBM System Storage SAN Volume Controller now have Real-time Compression (RtC) implementation available. RtC is the innovative, easy-to-use, inline compression which supports active primary workloads and can build on the storage efficiency advantages of Storwize V7000. By including the RtC implementation option in your IBM Storwize V7000 or SVC implementation service, you can reduce costs by potentially saving on storage purchase costs, rack space, and power and cooling.

Key prerequisites

Hardware: IBM Storwize V7000 disk system

Software: IBM SAN Volume Controller

Planned availability date

November 20, 2012

Accessibility by people with disabilities

A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be requested at
