## Overview

IBM® Content Collector Discovery Analytics is a marketing bundle of four stand-alone products. Only the marketing bundle is being discontinued, not the individual products. Customers who have purchased the bundle will receive automatic entitlement to each of the four products it contains, specifically IBM Content Collector for eMail V3.0, IBM Content Collector for File Systems V3.0, IBM eDiscovery Manager V2.2, and IBM eDiscovery Analyzer V2.2. There is no impact to the individual product lifecycle by the withdrawal of the marketing bundle.

Effective on the dates listed below, IBM will withdraw from marketing, some part numbers from the following product releases licensed under the IBM International Program License Agreement:
