Overview

The terms announced for IBM(R) Application Delivery Foundation for z Systems(TM) V3 in Software Announcement ZP16-0269, dated August 23, 2016 for enhanced support are incorrect.

The revised terms for **Program technical support** are:

Technical support of a program product version or release will be available for a minimum of three years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

All other product terms and conditions are unchanged.

The announcement letter will be updated for these revised terms.
