### At a glance

IBM® Lotus Notes® and Domino® 8.0.2:

- Provides greater flexibility for accessing mail and calendar information through iNotes™ Ultralite technology for the Apple iPhone and Domino Access for Microsoft® Outlook. iPhone users can access e-mail, calendar, and contact information on the Apple iPhone through IBM Lotus® iNotes Ultralite.
- Offers significant performance improvements, starting up about twice as fast as Notes® 8.0.1, while maintaining memory requirements.
- Delivers Microsoft Office 2007 Viewers letting individuals view spreadsheets, documents, and presentations created with Office 2007.

For ordering, contact your IBM representative, or IBM Americas Call Centers at 800-IBM-CALL.

### Overview

IBM Lotus Notes and Domino 8.0.2 delivers improvements on top of the features and capabilities that Notes and Domino have historically delivered, and you have come to depend upon to improve your business effectiveness.

New features of IBM Lotus Notes and Domino 8.0.2:

- IBM Lotus iNotes Ultralite technology - iNotes Ultralite provides additional flexibility for organizations to communicate and share information. iNotes Ultralite brings IBM Lotus Domino e-mail, calendar, and contacts to the Apple iPhone. iNotes on the iPhone allows you to view your e-mail, day-at-a-glance calendar, and contacts in real-time, reply to e-mail, and work with your contacts, all within the rich iPhone experience.
- Performance improvements - IBM Lotus Notes 8.0.2 offers significant performance improvements, starting up twice as fast as Notes 8.0.1. This increase in performance delivers greater productivity by allowing end users to focus on important tasks.
- Viewers for Microsoft Office 2007 - File viewers for Microsoft Office 2007 lets you view applications such as spreadsheets, documents, and presentations that have been created with Office 2007. This benefits organizations that need to see content of these office productivity files without the requirement to purchase the product suite.

- Domino Access for Microsoft Outlook - lets Outlook clients connect to a Domino server giving flexibility to organizations that have a mix of e-mail configurations.

## Description

---

IBM Lotus Notes and Domino 8.0.2 delivers a comprehensive set of services and capabilities to enable organizations to communicate and innovate. Lotus Notes and Domino 8.0.2 provides messaging and collaboration capabilities that go beyond e-mail and simple applications. In addition to the intuitive and robust e-mail capabilities, IBM Lotus Notes and Domino 8.0.2 provides new functions, and a comprehensive set of application development tools and capabilities along with valuable integrated capabilities such as Lotus Sametime® instant messaging and office productivity tools via Lotus Symphony.

Continuing with Notes and Domino's commitment to being a leader in the messaging and application arena, IBM Lotus Notes and Domino 8.0.2 provides businesses with the flexibility and tools needed to communicate and collaborate. IBM Lotus Notes and Domino 8.0.2 incorporates additional features such as iNotes Ultralite technology and Microsoft Office 2007 viewers.

IBM Lotus Notes and Domino understands that business needs vary by organization and industry, and that a one size infrastructure doesn't fit all. Holding strong to our customer value commitment, IBM Lotus Notes and Domino customers can choose the operating system and hardware that fits their needs based on factors such as cost, organizational expertise, physical size, scalability, and energy consumption. Further, the deployment of Notes and Domino can accommodate business requirements such as physical location, and high availability.

To further the value offered by IBM Lotus Notes and Domino 8.0.2, Lotus Symphony office productivity tools are included. This capability allows organizations to have comprehensive messaging and office application capabilities without the requirement to purchase expensive office productivity tools. IBM Lotus Sametime instant messaging is also included so organizations have the ability to have instant messaging chats as well as presence awareness capabilities.

IBM Lotus Notes and Domino 8.0.2 continues to offer new functions and features while maintaining the investment that you make in Notes and Domino. Notes and Domino applications, written in prior releases of Notes and Domino, continue to function and provide value as new releases are introduced.

IBM Lotus Notes and Domino 8.0.2 is for businesses that desire top line growth through innovation and productivity solutions. IBM Lotus Notes and Domino 8.0.2 provides high quality messaging and application solutions that can evolve as business needs change, providing the necessary flexibility to change as business needs dictate. With integrated features such as Lotus Sametime and Lotus Symphony, organizations have a complete messaging and application system, without having to purchase office productivity tools. As part of the IBM Lotus software offering, IBM Lotus Notes and Domino 8.0.2 offers the ability to integrate with other IBM offerings such as Lotus Quickr<sup>™</sup> and Lotus Connections.

---

### **Accessibility by people with disabilities**

IBM strives to provide accessible solutions for customers with disabilities and where full accessibility is not met, customers are advised on workable alternatives, where possible, to meet their needs.

---

### **Section 508 of the U.S. Rehabilitation Act**

IBM makes no representation about the Section 508 status of the third party electronic and information technology product in this offering. Contact the vendor for specific, current information on the Section 508 status of this product.

### **IPLA and Subscription and Support considerations**

IPLA licenses can be transferred from one machine to another within, but not limited to an enterprise. You may aggregate the capacity for all the processors the product is operated on to achieve a more economic price. This will result in a single Proof of Entitlement (PoE). It is your responsibility to manage the distribution of Value Units within the limits of the entitlement of the product license.

Subscription and Support must cover the same capacity as the product license entitlement. Subscription and Support will be available in the country in which the agreement is made.

---

## **Reference information**

## Education support

---

IBM training provides education to support many IBM offerings. Descriptions of courses for IT professionals and managers are on the IBM training Web site

[http://www.ibm.com/services/learning/ites.wss/tp/en?pageType=tp\\_search](http://www.ibm.com/services/learning/ites.wss/tp/en?pageType=tp_search)

Call IBM training at 800-IBM-TEACH (426-8322) for catalogs, schedules, and enrollments.

Education support will be provided for the products in this announcement.

IBM Software Services for Lotus Education provides education to support many Lotus offerings. For a complete list of offerings visit the Web site at:

<http://www.ibm.com/software/lotus/training>

### Technical Skills Software Workshop

No-fee technical skills training workshops (English only) for this product are offered to customers and business partners to gain hands-on skills for installing, configuring, operating, and supporting this product. The workshops are ideal for customers and business partners who are in the process of evaluating, or have already purchased it. Workshops are modeled to be 50 to 70% hands-on labs and are continually updated to current product release.

Workshops are delivered in multiple formats, traditional classroom, Self-Paced (self-study) and instructor led e-learning, all formats have the same content.

Traditional classroom workshops are scheduled and delivered in-person worldwide at IBM and non-IBM locations throughout the year.

Self-Paced/self-study workshops enable the student to view the workshop presentations and execute the labs on their own schedule with no travel required. The presentations have speaker notes and allow the student full control to navigate the information. Students reserve a one week period to run the labs on a remote, supported, live environment. Support is provided through a monitored forum.

**Note:** A fast internet connection is required.

For more details on current workshop content, schedules, and to register for any workshop format, visit

<https://www.developer.ibm.com/isv/spc/events/>

---

## Offering Information

---

Product information is available via the Offering Information Web site

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® Web site

<http://www.ibm.com/software/passportadvantage>

---

## Publications

---

No publications are shipped with these products.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the U.S.) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

### Specified operating environment

---

#### Hardware requirements

For the most up to date information regarding hardware and software requirements, please visit

<http://www-03.ibm.com/software/lotus/support/>

#### IBM Lotus Notes Client

Platform	Microsoft windows® Linux® (Notes client only)	
Supported operating system versions	Microsoft windows XP Professional; Microsoft windows XP for Tablet PC; Microsoft windows Vista: Enterprise, Ultimate and Business Editions; Microsoft windows Vista for Tablet PC; (refer to the "windows system requirements" Release Note for Service Pack information)	SUSE Linux Enterprise Desktop (SLED) 10 XGL; Red Hat Enterprise Linux (RHEL) 5.1 Desktop - Note: AIGLX and SELinux must be disabled (refer to the "Linux system requirements" Release Note for Service Pack information)
Processors supported	Intel® Pentium® or higher and compatibles, or equivalent windows XP - Pentium 4, 1.2 GHz or higher windows Vista - Pentium 4, 1.2 GHz or higher	Intel Pentium or higher and compatibles, or equivalent Pentium 4, 1.2GHz or higher
RAM (Additional memory requirements are subject to your operating system requirements)	windows XP - 512 MB minimum; 1 GB or more strongly recommended windows Vista - 1 GB minimum; 1.5 GB or more strongly recommended	512 MB minimum; 1 GB or more strongly recommended
Disk space (The minimum amounts are the disk space required for installing default files. More disk space is required if databases are replicated locally or copied locally.)	Install directory (C:\) - 900 MB or more recommended (refer to the "Notes installation directories" release note for additional information)	Install directory (/opt) - 1.5 GB minimum (refer to the "Notes installation directories" release note for additional information)
Video	Hardware support for OpenGL	128 MB video RAM (with XGL-compatible video driver from hardware OEM for SLED 10) /etc/X11/xgl-hardware list
Monitors supported	Color monitor required	Color monitor required

	1024 x 768 screen resolution minimum	1024 x 768 screen resolution minimum
Protocols supported		
NetBIOS over NetBEUI	No	No
NetBIOS over IP <sup>1</sup>	Yes	No
NetBIOS over IPX <sup>2</sup>	Yes	No
SPX	No	No
SPX II	No	No
TCP/IP	Yes, IPv4 and IPv6	Yes
X.PC	Yes	No

### Citrix support information

The Notes Client is supported on Citrix Presentation Server 4.5, on Windows 2003 server, using ICA (Independent Computing Architecture) clients. For additional information, please see the "Citrix support statement" release note.

### Domino Administrator Client, Domino Designer

Platform	Microsoft windows
Supported operating system versions	Microsoft windows XP Professional; Microsoft windows Vista: Enterprise, Ultimate and Business Editions refer to the "windows system requirements" Release Note for Service Pack information)
Processors supported	Intel Pentium or higher and compatibles, or equivalents; 1.5 GHz or higher recommended
RAM (Additional memory requirements are subject to your operating system requirements)	Windows XP - 512 MB minimum; 1 GB or more strongly recommended Windows Vista - 1 GB minimum; 1.5 GB or more strongly recommended
Disk space (The minimum amounts are the disk space required for installing default files. More disk space is required if databases are replicated locally or copied locally.)	Install directory (C:\) - 960 MB minimum
Monitors supported	Color monitor required
Protocols supported	
NetBIOS over NetBEUI	No
NetBIOS over IP <sup>1</sup>	Yes
NetBIOS over IPX <sup>2</sup>	Yes
SPX	No
SPX II	No
TCP/IP	Yes, IPv4 and IPv6
X.PC	Yes

### Footnotes

<sup>1</sup> Only Microsoft TCP/IP is supported.

<sup>2</sup> Both Novell NetBIOS and Microsoft NetBIOS over IPX are supported.

### 32-bit Domino Server - Table 1

#### IBM Lotus Domino Server - Microsoft Windows

Platform	Microsoft windows 2003
Supported operating system versions	Microsoft windows 2003 Server Standard Edition; Microsoft Windows 2003 Server Enterprise Edition; Microsoft windows 2003

Processors supported	Server x64 Edition (refer to the "Windows system requirements" Release Note for Service Pack information) Intel Pentium or higher and compatibles (32-bit and 64-bit chips as appropriate), or equivalents
RAM	512 MB minimum 512 MB or more recommended per CPU
Disk space	1.5 GB minimum per partition
Disk swap space	2 times the physical RAM installed
Monitors supported	Color Monitor required
Protocols supported	
NetBIOS over NETBEUI	No
NetBIOS over IP <sup>2</sup>	Yes; No (64 bit)
NetBIOS over IPX	Yes; No (64 bit)
SPX	No
SPX II	No
TCP/IP	Yes
TCP/IP IPv6	Yes
X.PC	Yes

### 32 bit Domino Server - Table 2

Platform	IBM AIX® Linux	Sun Solaris	
Supported operating system versions	IBM AIX 5.3 <sup>4</sup> (64 bit kernel) IBM AIX 6.1 <sup>4</sup> (64 bit kernel) (refer to the "AIX system requirements" Release Note for Service Pack information)	Novell SUSE Linux Enterprise Server (SLES) 10 x86 (32 bit); Novell SUSE Linux Enterprise Server (SLES) 10 x86_64 (64 bit); Red Hat Enterprise Linux (RHEL) 5 (32 bit) - Note: XGL and SELinux must be disabled; Red Hat Enterprise Linux (RHEL) 5 (64 bit) - Note: XGL and SELinux must be disabled; Red Hat Enterprise Linux (RHEL) 5.1 (32 bit) - Note: XGL and SELinux must be disabled; Red Hat Enterprise Linux (RHEL) 5.1 (64 bit) - Note: XGL and SELinux must be disabled; (refer to the "Linux system requirements"	Sun Solaris 10 <sup>4</sup> (64-bit kernel) (refer to the "Solaris system requirements" Release Note for Service Pack information)

		Release Note for Service Pack information)	
Processors supported	PowerPC® Intel	Pentium	UltraSPARC III or higher and compatibles (32-bit and 64-bit chips as appropriate), or equivalents
RAM	512 MB minimum; 512 MB or more recommended per CPU	512 MB minimum; 512 MB or more recommended per CPU	512 MB minimum; 512 MB or more recommended per CPU
Disk space	1.5 GB minimum per partition	1.5 GB minimum per partition	1.5 GB minimum per partition
Disk swap space	Same amount as physical memory required; recommend 2 times the physical RAM installed	2 times the physical RAM installed recommended	3 times the physical RAM recommended
Monitors supported	Any standard display (local or remote)	Any standard display (local or remote)	Any standard display (local or remote)
Protocols supported			
NetBIOS	No	No	No
NetBIOS over IP <sup>2</sup>	No	No	No
NetBIOS over IPX	No	No	No
SPX <sup>3</sup>	No	No	No
SPX II	No	No	No
TCP/IP	Yes	Yes	Yes
TCP/IP IPv6	Yes	Yes	Yes
X.PC	Yes	Yes	Yes

### 32-bit Domino Server - Table 3

Platform	IBM z/OS® Linux on System z	
Supported operating system versions	IBM z/OS V1R7 or later; IBM z/OSe V1R7 or later	Novell SUSE Linux Enterprise Server (SLES) 10 on System z (64 bit); Red Hat Enterprise Linux (RHEL) 5 on System z <sup>tm</sup> (64 bit) - Note: XGL and SELinux must be disabled; Red Hat Enterprise Linux (RHEL) 5.1 on System z (64 bit) - Note: XGL and SELinux must be disabled (refer to the "Linux system requirements" Release Note for service pack information)
Processors supported	Any that supports your release level of z/OS	Any that supports your release level of Linux on System z
RAM	1 GB minimum; 2 GB or more recommended	1 GB minimum 2 GB or more recommended
Disk space	3 3390-3 volumes	2.5 GB minimum 2.5

	minimum	GB or more recommended
Disk swap space	N/A	N/A
Monitors supported	Any standard display (local or remote)	Any standard display (local or remote)
Protocols supported		
NetBIOS	No	No
NetBIOS over IP <sup>2</sup>	No	No
NetBIOS over IPX	No	No
SPX <sup>3</sup>	No	No
SPX II	No	No
TCP/IP	Yes	Yes
TCP/IP IPv6	Yes	Yes
X.PC	No	No

### 64-bit Domino Server - Table 1<sup>6</sup>

Platform	IBM AIX	Windows
Supported operating system versions	64 bit IBM AIX V5.3 64 bit IBM AIX V6.1 (refer to the "AIX system requirements" Release Note for Service Pack information)	Microsoft Windows 2003 Server x64 Edition (refer to the "Windows system requirements" Release Note for Service Pack information)
Processors supported	PowerPC Intel EMT64 or	higher and compatibles, or equivalents
RAM	512 MB minimum; 512 MB or more recommended per CPU	512 MB minimum 512 MB or more recommended per CPU
Disk space	1.5 GB minimum 1.5 GB or more recommended	1.5 GB minimum per partition
Disk swap space	Same amount as physical memory required; recommend 2 times the physical RAM installed	2 times the physical RAM installed
Monitors supported	Any standard display (local or remote)	Color monitor required
Protocols supported		
NetBIOS	No	No
NetBIOS over IP <sup>2</sup>	No	No
NetBIOS over IPX	No	No
SPX <sup>3</sup>	No	No
SPX II	No	No
TCP/IP	Yes	Yes
TCP/IP IPv6	Yes	Yes
X.PC	No	No

### 128 bit Domino Server - Table 2

Platform	IBM System i
Supported operating system versions	IBM i5/OS® V5R4 IBM i5/OS V6R1 (refer to the "System i <sup>tm</sup> : i5/OS V5R4 software requirements" and "System i: i5/OS V6R1 Software requirements" release notes for additional information)
Processors supported	IBM System i model 270 or 8xx servers, or Server i5 model 520 and above (refer to the "System i: Server hardware requirements" release notes for additional information)

RAM	512 MB minimum 512 MB or more per Domino server
Disk space	2 GB minimum 4 or more drives recommended
Monitors supported	Any standard display (local or remote)
Protocols supported	
NetBIOS	No
NetBIOS over IP <sup>1</sup>	No
NetBIOS over IPX <sup>2</sup>	No
SPX	No
SPX II	No
TCP/IP	Yes
TCP/IP IPv6	Yes
X.PC	No

### Footnotes

<sup>1</sup> If you are running with DB2® as the Domino datastore then you must add additional DB2 install requirements. DB2 9.1 is supported in the current release. NSFDB2 support is not available using Domino for System i. For additional install requirements, please see "Setting up and using Domino and DB2" in the Domino Administrator Help.

<sup>2</sup> Only Microsoft TCP/IP is supported.

<sup>3</sup> Domino clusters and partitioned server configurations do not support the IPX/SPX protocol. At this time, IBM does not plan to provide IPX/SPX network support for future releases of these features.

<sup>4</sup> The 64-bit kernel must be installed and in use on these systems, even though the operating system is 32 bit. The use of the 32-bit kernel is no longer supported on these platforms. Refer to the operating system vendor documentation for questions on enabling and using the 64-bit kernel. (On Solaris, the 64-bit kernel is used by default on supported hardware; this is not the case for AIX).

<sup>5</sup> For more details on specific models, refer to the "System i Performance Capabilities Reference" at

[http://publib.boulder.ibm.com/infocenter/iserics/v5r4/topic/books/sc41\\_0607.pdf](http://publib.boulder.ibm.com/infocenter/iserics/v5r4/topic/books/sc41_0607.pdf)

<sup>6</sup> Refer "Domino 64-bit: Known issues" in these release notes for more information.

### Software requirements

For the most up to date information regarding hardware and software requirements, please visit

<http://www-03.ibm.com/software/lotus/support/>

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

### Planning information

---

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

### **Packaging**

IBM Lotus Notes and Domino and Lotus Enterprise Integrator V8.0.2 will be distributed via a media package and electronic software distribution (ESD).

IBM Lotus Notes and Domino Primary media is distributed with current subscription in several specific packages based on license purchase, language preference and include the following:

- Lotus Notes and or Domino product CDs or electronic image files
- Softcopy product documentation, including README files, which is included on the product CDs or electronic image files

IBM Lotus Domino Secondary or Associated Products are distributed with current subscription separately and may include the following based on license purchase:

- DB2, Tivoli® Directory Integrator, WebSphere® Portal Server, WebSphere Application Server Network Deployment or Lotus Workflow<sup>™</sup>.

The LI form numbers are:

- L-GHUS-7D2JQP for Lotus Domino
- L-GHUS-7D2JJ2 for Lotus Notes

IBM Lotus Enterprise Integrator media package is distributed in one package with the following:

- Lotus Enterprise Integrator product CD
- Softcopy product documentation, including README files, which is included on the product CD or electronic image files

The LI form number is:

- L-GHUS-7D3JLE for Lotus Enterprise Integrator

These programs, when downloaded from a Web site, contain the applicable IBM license agreement and License Information (LI), if appropriate, which will be presented for acceptance at the time of installation of the program. The license and LI will be stored in a directory such as LICENSE.TXT for future reference.

### **Security, auditability, and control**

---

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

---

## **Ordering information**

This product is only available via Passport Advantage. It is not available as shrinkwrap.

### Charge metrics definitions

#### Processor Value Unit (PVU)

PVU is the unit of measure by which this program is licensed. PVU entitlements are based on processor families (vendors and brands). A Proof of Entitlement (PoE) must be obtained for the appropriate number of PVUs based on the level or tier of all processor cores activated and available for use by the program on the server. Some programs allow licensing to less than the full capacity of the server's activated processor cores, sometimes referred to as sub-capacity licensing. For programs which offer sub-capacity licensing, if a server is partitioned utilizing eligible partitioning technologies, then a PoE must be obtained for the appropriate number of PVUs based on all activated processor cores available for use in each partition where the program runs or is managed by the program. Refer to the International Passport Advantage Agreement Attachment for Sub-Capacity Terms or the program's License Information to determine applicable sub-capacity terms. The PVU entitlements are specific to the program and may not be exchanged, interchanged, or aggregated with PVU entitlements of another program.

For general overview of PVUs for processor families (vendors and brands), go to

[http://www-306.ibm.com/software/lotus/passportadvantage/pvu\\_licensing\\_for\\_customers.html](http://www-306.ibm.com/software/lotus/passportadvantage/pvu_licensing_for_customers.html)

To calculate the exact PVU entitlements required for the program, go to

<https://www-112.ibm.com/software/howtobuy/passportadvantage/valueunitcalculator/vucalc.wss>

#### Authorized User

Authorized User is the unit of measure by which this program is licensed. An Authorized User is an individual (named or unnamed) within or outside of your enterprise. The program may be installed on one or more computers or servers and accessed by the number of users authorized by the Proof of Entitlement (PoE). You must have an entitlement for each Authorized User accessing the program or any program component in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means.

### Cross-Platform Product for Use on System z

---

Order the part numbers that follow when there is an intention to acquire this cross-platform product for deployment on the System z or S/390® platform. This set of part numbers provides the identical supply and authorization as the other set in this announcement. The distinction is to identify the planned deployment platform.

## Sub-capacity for selected middleware products

Sub-capacity licensing on a per processor or per Value Unit basis is available for selected middleware products. To offer sub-capacity licensing, IBM software products implement IBM Tivoli License Compliance Manager within their offerings so that you can monitor and report quarterly to IBM on the use of the programs on a continuous basis.

More information can be found on the Passport Advantage Web site

<http://www.ibm.com/software/passportadvantage>

## Eligibility requirements for sub-capacity licensing

To be eligible for sub-capacity licensing terms on this product, you must agree to install and configure IBM Tivoli License Manager for IBM Software, in accordance with the IBM Tivoli License Manager publications, and to enable the collection of program use data on all eligible machines subject to sub-capacity terms.

For those machines running programs with sub-capacity licensing terms, you must use IBM Tivoli License Manager for IBM Software to monitor program use and submit to IBM an IBM Use Report each calendar quarter. Multiple copies of IBM Tivoli License Manager for IBM Software or IBM Tivoli License Manager are not required. You can use more copies if you need them to support your operational environment, but only one copy is required to monitor all your sub-capacity licensed products.

Additionally, if this is the first product you have licensed under sub-capacity terms, you must agree to the terms of an attachment to your Passport Advantage or Passport Advantage Express contract and submit a new Passport Advantage enrollment form. First-time sub-capacity clients also have an opportunity to ensure a primary business contact is established for their contracts.

For more information on required and entitled license capacity, license requirements, and reporting, refer to Software Announcement [205-093](#), dated April 19, 2005.

If you order (this product) under sub-capacity terms, IBM Tivoli License Manager for IBM Software will be made available to you if you do not already have one. You must install and configure this tool for your sub-capacity products. Alternately, you can use Tivoli License Manager. Once the license manager software is installed, you will be required to register online (IBM may need to contact you in order to finalize the registration process.) You must monitor program use on a continuous basis with an IBM Tivoli License Manager for IBM Software and submit IBM Use Reports to IBM on a calendar quarterly basis.

IBM Tivoli License Manager for IBM Software is documented in the following customer publications, which are available from IBM Publications Center at

<http://www.elink.ibm.com/public/applications/publications/cgibin/pbi.cgi?>

Publication	Form
Planning, Installation, and Configuration	SC32-1431
Administration	SC32-1430
Problem Determination	SC32-9102
Data Dictionary	SC32-1432
Release Notes	SC32-1429

For IBM Tivoli License Manager configuration guidance and instructions for specific products (including this product) acquired with sub-capacity terms, refer to

<http://www.lotus.com/sub-capacity>

The Web site will give you information about how to set up the product for detection by IBM Tivoli License Manager, any required maintenance, and any required steps that are unique to this product.

---

## Terms and conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

### ***Licensing***

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

### ***License Information form numbers***

Program name	Program number	Form number
IBM Lotus Enterprise Integrator	5724-L76	L-GHUS-79BLJT
IBM Lotus Notes/Domino	5724-E62	L-GHUS-7D2JJ2 and L-GHUS-7D2JQP

The program's License Information will be available for review on the IBM Software License Agreement Web site

<http://www.ibm.com/software/sla/sladb.nsf>

**Limited warranty applies**

Yes

**Warranty**

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. Consult the *IBM Software Support Handbook* for further information at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

**Program technical support**

Technical support of a program product will be available for a minimum of five years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates, releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

**Money-back guarantee**

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

- For programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.
- For programs acquired under any of IBM's On/Off CoD software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

**Authorization for use on home/portable computer**

The program may be stored on the primary machine and another machine, provided that the program is not in active use on both machines at the same time. You may not copy and use this program on another computer without paying additional license fees.

Product name

IBM Lotus Enterprise Integrator	Yes
IBM Lotus Notes/Domino	Yes

**Volume orders (IVO)**

No

**Passport Advantage applies**

Yes, and through the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

### ***Agreement for Acquisition of Software Maintenance***

The following agreement applies for maintenance and does not require customer signatures:

IBM Agreement for Acquisition of Software Maintenance (Z125-6011)

### ***Software Subscription and Support (also referred to as Software Maintenance) applies***

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support (also referred to as Software Maintenance) is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your *IBM Software Support Handbook* at

<http://www.ibm.com/support/handbook>

Software Subscription and Support (also referred to as Software Maintenance) does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage Web site at

---

## **IBM Electronic Services**

---

IBM has transformed its delivery of hardware and software support services to help you achieve higher system availability. Electronic Services is a Web-enabled solution that offers an exclusive, no-additional-charge enhancement to the service and support available for IBM servers. These services are designed to provide the opportunity for greater system availability with faster

problem resolution and preemptive monitoring. Electronic Services comprises two separate, but complementary, elements: Electronic Services news page and Electronic Services Agent.

The Electronic Services news page is a single Internet entry point that replaces the multiple entry points traditionally used to access IBM Internet services and support. The news page enables you to gain easier access to IBM resources for assistance in resolving technical problems.

The Electronic Service Agent<sup>™</sup> is no-additional-charge software that resides on your server. It monitors events and transmits system inventory information to IBM on a periodic, client-defined timetable. The Electronic Service Agent automatically reports hardware problems to IBM. Early knowledge about potential problems enables IBM to deliver proactive service that may result in higher system availability and performance. In addition, information collected through the Service Agent is made available to IBM service support representatives when they help answer your questions or diagnose problems. Installation and use of IBM Electronic Service Agent for problem reporting enables IBM to provide better support and service for your IBM server.

### IBM Global Financing

---

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, both from IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.
