At a glance

Along with improved performance and a refreshed user interface, IBM Verse™ On-Premises V1.0.2 continues to build on the foundation established earlier this year for on-premises users by delivering the following capabilities previously available only in cloud deployments:

- Calendar Inbox
- Preview attachments
- Password synchronization for encrypted messages
- Support for IBM Connections™ V6
- Extensibility

Overview

With Verse On-Premises, organizations that have invested in on-premises Notes™ and Domino™ can now leverage an innovative enterprise email experience that is consistent with that experienced by users of Verse on Cloud. Verse On-Premises users can easily focus on work and the tasks that matter most. Among the many user interface enhancements and performance gains in Verse On-Premises V1.0.2, new capabilities include:

- **Calendar Inbox.** Make better decisions when responding to calendar notices by viewing your calendar at the same time. The new Calendar Inbox organizes all your calendar notices in one convenient place.
- **Preview attachments.** You can instantly view Microsoft™ Office, OpenOffice documents, and PDFs in Verse On-Premises. View documents, spreadsheets, and presentations in Microsoft Office binary formats such as .ppt and .doc; OpenOffice formats such as .odt and .ods; and Microsoft Office XML-based formats such as .docx or .xlsx.
- **Password synchronization for encrypted messages.** When reading an encrypted message, Verse On-Premises will prompt you to enter the Notes password, if the password entered does not match the HTTP password.
- **Support for IBM Connections V6.0.** Entitlement to IBM Connections V6.0 Files and Profiles are extended to IBM™ Notes and Domino users through IBM Domino V9.0.1 Feature Pack 9.
- **Extensibility and Application Registry.** You can create, register, and deploy additional features in Verse On-Premises that are suited to your needs. Using
Verse On-Premises extension points, you can integrate Verse On-Premises with your applications. Extend Verse On-Premises by designing new actions that users can take when reading or composing an email.

Verse On-Premises takes a vastly different approach to enterprise email by integrating the many ways employees connect each day into a single collaboration environment for mail, meetings, calendars, file sharing, or social.

Key prerequisites

Red Hat Enterprise Linux™ and Windows™ Server 64-bit systems are supported.

The following are required:

- IBM Domino V9.01, Feature Pack 9
- IBM Connections V5.5, or later

See the Software requirements section for details.

Planned availability date

August 29, 2017

See the Availability of national languages section for national language availability.

Description

Verse On-Premises V1.0.2 continues to bring collaborative innovation to organizations. Using advanced design thinking and powerful, social analytics, Verse On-Premises helps you prioritize your work, personalize your work experience, build stronger working relationships, and improve time management so that teams can spend more time on higher value work.

Powered by Domino, the IBM security-rich application platform for hosting email and social business applications, Verse On-Premises improves your communications and collaboration environment in the following ways:

- Presents mail based on what is important to you. Using analytics and advanced search capabilities, Verse On-Premises keeps you organized so that you stay current with what is most important.
- Clears clutter and creates more clarity. Experienced through a simple, fully customizable interface, Verse On-Premises helps you focus on the projects and workloads that matter most.
- Keeps your teams connected and agile. Discover new ways to work together by utilizing Verse On-Premises built-in extension points for integration with your other application or solution investments.
- Offers an alternative to deploying a rich client for email, calendaring, and scheduling, such as Notes or Microsoft Outlook. IBM Client Application Access provides a lightweight solution for accessing your Notes and Domino applications that is seamlessly integrated with Verse On-Premises.
- Enables mobile capability. Take many of the capabilities of Verse On-Premises with you on your Apple iOS or Google Android mobile device. See important people, manage tasks that need action, or respond quickly to urgent items, all while mobile or on-the-road.

Accessibility by people with disabilities
A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be requested at the Product accessibility information website.

### Offering Information

Product information is available on the IBM Offering Information website.

More information is also available on the Passport Advantage(R) and Passport Advantage Express website.

### Publications

No publications are provided for this release.

### Services

#### Software Services

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an extensive portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.
To learn more about IBM Software Services, contact your Lab Services Sales or Delivery Leader.

Technical information

Specified operating environment

Software requirements
One of the following systems is required with Domino running:

- Red Hat Enterprise Linux (RHEL) Server 6 or Server 7 64-bit
- Microsoft Windows Server 2008 R2 Enterprise or Standard Edition 64-bit
- Windows Server 2012 Standard or Datacenter Edition 64-bit
- Windows Server 2012 R2 Standard or Datacenter Edition 64-bit

Visit the detailed System Requirements page for further details.

Planning information

Packaging
This offering is delivered through the Internet. There is no physical media.

This program, when downloaded from a website, contains the applicable IBM license agreement and License Information, if appropriate, which will be presented for acceptance at the time of installation of the program. For future reference, the license and License Information will be stored in a directory such as LICENSE.TXT.

Ordering information

This product is only available through Passport Advantage. It is not available as shrinkwrap.

These products may only be sold directly by IBM or by authorized IBM Business Partners for Channel Value Rewards.

More information can be found on the IBM Channel Value Rewards website.

To locate IBM Business Partners for Channel Value Rewards in your geography for a specific Channel Value Rewards portfolio, go to the Find a Business Partner page.

**Authorized User**

Authorized User is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. The program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the program in any manner directly or indirectly (for example, through a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

**Note:** Some programs may be licensed where devices are considered users. In that case, the following applies. Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the program or that is otherwise managed by the program is considered a separate user of the program and requires an entitlement as if that device were a person.

**Terms and conditions**

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available through Passport Advantage.

**Licensing**

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

**Agreement for Acquisition of Software Maintenance**

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.
<table>
<thead>
<tr>
<th><strong>License Information number</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>L-GHUS-AMPG7F IBM Verse On-Premises V1.0.2</td>
</tr>
</tbody>
</table>

See the [License Information documents](#) page on the IBM Software License Agreement website for more information.

<table>
<thead>
<tr>
<th><strong>Limited warranty applies</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Limited warranty</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.</td>
</tr>
</tbody>
</table>

IBM provides you with access to IBM databases containing information about known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the [IBM Software Support Handbook](#).

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

<table>
<thead>
<tr>
<th><strong>Program technical support</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Technical support of a program product version or release will be available for a minimum of three years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect.</td>
</tr>
</tbody>
</table>

This technical support allows you to obtain assistance (by telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, through an announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

For additional information about the IBM Software Support Lifecycle Policy, see the [IBM Software Support Lifecycle Policy](#) website.

<table>
<thead>
<tr>
<th><strong>Money-back guarantee</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.</td>
</tr>
</tbody>
</table>

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

<table>
<thead>
<tr>
<th><strong>Volume orders (IVO)</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>No</td>
</tr>
</tbody>
</table>
**Passport Advantage applies**

Yes, information is available on the [Passport Advantage and Passport Advantage Express](https://www.ibm.com) website.

**Software Subscription and Support applies**

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the [IBM Software Support Handbook](https://www.ibm.com). Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the [IBM Software Support Handbook](https://www.ibm.com).

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the [Passport Advantage and Passport Advantage Express](https://www.ibm.com) website.

**Variable charges apply**

No

**Educational allowance available**

Not applicable.

**Statement of good security practices**

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.
Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

Business Partner information
If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the IBM Passport Advantage website.

Passport Advantage
For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner for Channel Value Rewards. Additional information is also available on the Passport Advantage and Passport Advantage Express website.

IBM Global Financing
IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the IBM Global Financing website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer’s credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.
