Overview

IBM® Infrastructure Optimization Services (cloud computing) - IBM CloudBurst QuickStart Services - design and implementation for test environments, announced in Services Announcement [ZS10-0044](#), dated February 23, 2010, has been renamed to IBM Cloud Implementation Services (private) - IBM CloudBurst QuickStart Services for System x®.

IBM CloudBurst QuickStart Services for System x has been updated to Version 2.1 and includes the following enhancements:

- Increased the quantity and capacity of virtual machines for x86
- Replaced previous versions of VMware for System x with VMware version 4.1
- Increased configurability and end-to-end extensibility functions
- Enhanced flexibility of use case deployment
- Increased performance and scale for Tivoli® Systems Automation Manager (TSAM) and Tivoli Provisioning Manager
- Enhanced server capabilities with SAN Volume Controller storage environment:
 - Enable deployment of storage required for a virtualized server
 - Storage-vendor and storage-type neutral
 - Optional on System x
- Enhanced base fulfillment scenarios in TSAM:
 - Installation of additional software after image deployment
 - Multiple VLAN support

Planned availability date

November 9, 2010
