Overview

IBM Lotus® Sametime® Standard 8.0 software, the entitlement path for current Lotus Sametime customers, offers continuing enhancements to the award-winning Lotus Sametime real-time and unified communications and collaboration platform. The Lotus Sametime Standard 8.0 release expands on the existing instant messaging, Web conferencing, VoIP, point-to-point video, mobile clients, external IM gateway, and extensible client with additional platform support and enhancements to the end-user experience, administration, and performance.

New in Lotus Sametime Standard 8.0 software:

- Support for IBM Lotus Domino® 8
- Support for running a Lotus Sametime server in a VMWare environment
- Application sharing from IBM AIX® and Sun Solaris clients
- Sametime Mobile support for Nokia E-series, Sony Ericsson, Microsoft® Windows® Mobile 6 devices updated
- Support for point-to-point video for Macintosh clients
- Support for integration with Microsoft Office and Microsoft Outlook 2007
- Serviceability, network stability, and installation improvements for Lotus Sametime Gateway
- Performance improvements in client startup and server multiplexers (MUX)
- Concurrent user license monitoring enhancements

Lotus Sametime Enterprise Meeting Server 8.0 software offers clustering and failover capabilities for high-reliability Web conferences, and supports Lotus Sametime 8.0 deployments.

Key prerequisites

Refer to the Hardware requirements and Software requirements sections of this announcement.

Planned availability dates

- November 29, 2007: Electronic software delivery
- January 8, 2008: Media and documentation

For ordering, contact:

Your IBM representative or the Americas Call Centers at

Description

IBM Lotus Sametime Standard 8.0 software, the follow-on release to Lotus Sametime 7.5.1 and the entitlement path for Lotus Sametime customers currently on maintenance, includes all of the capabilities currently available in Lotus Sametime 7.5.1 while introducing broader platform support and continued enhancements in user experience and performance. Lotus Sametime Standard 8.0 is a platform for unified communications and collaboration, combining security features with an extensible, open solution that includes integrated VoIP within the enterprise and point-to-point video, geographic location awareness, managed interoperability with supported public IM networks, mobile clients, and a robust Business Partner community offering telephony, video, and business application integration.

Lotus Sametime Standard 8.0 software allows you to easily communicate and collaborate in real time with coworkers, partners, suppliers, and customers. Through Lotus Sametime software, you can determine who is online and available, so you can find the people you need, fast, contact people more quickly than through e-mail and less expensively than by telephone, and conduct online Web conferences, sharing documents, or brainstorming ideas. Built on the open Eclipse framework, Lotus Sametime Standard 8.0 software is unmatched in its ability to be extended with custom applications and integrated into a company's business processes. Lotus Sametime Standard software delivers advanced security features and the flexibility to choose the best technology platforms for your business.

Lotus Sametime Standard 8.0 software expands on the existing instant messaging, Web conferencing, VoIP, and point-to-point video capabilities, and the mobile clients, external IM gateway, and extensible client with the following capabilities and enhancements:

- Enhanced platform support
 - Support for Lotus Domino 8
 - Support for running a Lotus Sametime server in a VMWare environment
 - Application sharing from IBM AIX and Sun Solaris clients
- Enhanced client and integration support
 - Updated Lotus Sametime Mobile support for Nokia E-series, Sony Ericsson, Microsoft Windows Mobile 6 devices
 - Performance, usability, and feature enhancements for the Lotus Sametime Connect client
 - Support for integration with Microsoft Office and Microsoft Outlook 2007
- Enhanced support for Macintosh clients
 - Support for point-to-point video for Macintosh clients
 - Support for geographic location awareness
- Enhanced IBM Lotus Sametime Gateway
 - Serviceability, network stability, and installation improvements for Lotus Sametime Gateway
- Enhanced administration and performance
 - Performance improvements in client startup and server MUX
 - Concurrent user license monitoring enhancements

Lotus Sametime Enterprise Meeting Server 8.0 software offers clustering and failover capabilities for high-reliability Web conferences.

Accessibility by people with disabilities

IBM strives to provide accessible solutions for customers with disabilities and where full compliancy is not met, customers are advised on workable alternatives, where possible, to meet their needs.

IPLA and Subscription and Support considerations

IPLA licenses can be transferred from one machine to another within, but not limited to an enterprise. You may aggregate the capacity for all the processors the product is operated on to achieve a more economic price. This will result in a single Proof of Entitlement (PoE). It is your responsibility to manage the distribution of Value Units within the limits of the entitlement of the product license.

Subscription and Support must cover the same capacity as the product license entitlement. Subscription and Support will be available in the country in which the agreement is made.

Statement of direction

It is the intention of IBM Lotus to continue to offer high-performance, security-rich access, and robust tools that can help user communities manage their messaging and collaboration needs, regardless of company size and industry focus.

All statements regarding IBM's plans, directions, and intent are subject to change or withdrawal without notice.

Trademarks

Lotus, Sametime, Domino, and AIX are registered trademarks of International Business Machines Corporation in the United States or other countries or both.

Microsoft and Windows are registered trademarks of Microsoft Corporation.

Other company, product, and service names may be trademarks or service marks of others.

Education support

IBM training provides education to support many IBM offerings. Descriptions of courses for IT professionals and managers are on the IBM training Web site

http://www.ibm.com/services/learning/ites.wss/tp/en?pageType=tp_search

Call IBM training at 800-IBM-TEACH (426-8322) for catalogs, schedules, and enrollments.

IBM Software Services for Lotus® Education provides education to support many Lotus offerings. For a complete list of offerings, visit the following Web site

<http://www.ibm.com/software/lotus/training>

Technical skills workshops are offered to customers and Business Partners on this product. Workshops are delivered in several formats, traditional classroom as well as self-paced for customers and the Virtual Innovation Center for Business Partners. All formats have the same content. Self-paced workshops enable the student to view the workshop presentations with speaker notes, and then execute the labs over a one week reserved time period, all on their own schedule with no travel required. The Virtual Innovation Center utilizes voice over presentations and simulated labs. The presentations allow the student full control to pause, forward, repeat or navigate the information.

Note: An Internet connection is required.

For more details on current workshop content, schedules, and to register, go to

<https://www.developer.ibm.com/isv/spc/events/>

Scroll down the page and select the workshop.

Offering Information

Product information is available via the Offering Information Web site

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® Web site

<http://www.ibm.com/software/passportadvantage>

Publications

No publications are shipped with these products.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the U.S.) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

Technical information

Specified operating environment

Hardware requirements: IBM Lotus Sametime® Enterprise Meeting Server and J2EE computer requirements

Note: The system requirements of the Enterprise Meeting Server computer and its J2EE infrastructure are shown below. This system should be dedicated to running only the Enterprise Meeting Server and J2EE components. Do not install a Lotus Sametime server or any other Lotus Sametime component on this computer.

- CPU — Pentium® 4 1.8 GHz, or higher recommended
- Memory — 2 GB RAM recommended; 1 GB minimum for all of the following:
 - IBM AIX® V5.3 TL5, V6.1
 - Sun Solaris 9 and Sun Solaris 10
 - Microsoft® Windows® 2000 — 2 GB RAM recommended; 1 GB minimum
 - Microsoft Windows 2003 — 2 GB RAM recommended, 1 GB minimum
 - Red Hat Enterprise Linux™ AS System x™ 4.0 Update 4, 5.0
 - SUSE Linux Enterprise Server System x 10.0 SP1
- Disk space — 500 MB of free disk space; 1 GB+ recommended
- Communication adapter support
- IBM AIX, Solaris, and Linux operating system support

The Enterprise Meeting Server computer should also:

- Be registered in the same DNS domain as the Lotus Sametime servers.
- Have TCP/IP connectivity with the Lotus Sametime server computers on port 80 for HTTP connections.

IBM Lotus Sametime Standard

Operating system: IBM AIX V5.3, V6.0

- Processor: Dual 475 MHz, or higher, IBM PowerPC® processor recommended; Dual 375 MHz PowerPC processor minimum
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: Sun Solaris 9 and Sun Solaris 10

- Processor: UltraSPARC III 1 GHz processor, or higher recommended; UltraSPARC III 550 MHz processor minimum
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: Microsoft Windows 2000 Server with Service Pack 4, Microsoft Windows Advanced Server with Service Pack 3 and Service Pack 4, Microsoft Windows 2003 Standard Edition with Service Pack 1, Microsoft Windows 2003 Advanced Edition with Service Pack 1

- Processor: Intel® Pentium III 800 MHz, or higher recommended
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: Red Hat Enterprise Linux AS System x 4.0 Update 4 or System x 5.0 and SUSE Linux Enterprise Server System x 10.0 (Note: Domino® 8.0 deployments require Red Hat Linux AS System x 5.0)

- Processor: Intel Pentium III 800 MHz, or higher recommended
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: IBM i5/OS™ V5R3 and V5R4

- Processor:
 - IBM System i™: all processor features for models 730 and 740, 800 feature 2464, or greater, or larger 8xx models
 - IBM System i5™: model 520, or larger
- RAM: 2 GB recommended; 1 GB minimum for each Sametime and Domino server on the system
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk drives: Minimum of 4 drives

Software requirements:

IBM Lotus Sametime

Server operating systems:

- IBM AIX V5.3 TL5, V6.1

- Sun Solaris 9 and Sun Solaris 10
- IBM i5/OS V5R3 and V5R4
- Microsoft Windows 2000 Server with Service Pack 4, Microsoft Windows Advanced Server with Service Pack 3 and Service Pack 4, Microsoft Windows 2003 Standard Edition with Service Pack 1, Microsoft Windows 2003 Advanced Edition with Service Pack 1
- Red Hat Enterprise Linux AS System x 4.0 Update 4 or System x 5.0 (Note: Domino 8.0 deployments require Red Hat Linux AS System x 5.0)
- SUSE Linux Enterprise Server System x 10.0 with Service Pack 1

Client operating systems:

- Microsoft Vista 1.0
- Microsoft Windows XP Pro Service Pack 2
- Microsoft Windows XP Pro 64 bit (Web Conferencing only)
- Microsoft Windows 2000
- Red Hat Enterprise Linux V4
- Novell Linux Desktop V9
- SUSE Linux Enterprise Desktop 10
- Mac OS X 10.4.x, 10.5

Client JDK/JRE:

- IBM or Sun JRE/JDK 1.4.2, 1.5, 1.6: For Web conferencing (Note: Sametime Web Conferencing deployments using FIPS-140 compliant capabilities require at least JRE/JDK 1.5. 1.4.2 is not supported in these configurations.)

Client browsers:

- Firefox 1.5, 2.0 on Microsoft Windows XP, RHEL 4.0, and SLED 10
- Microsoft Internet Explorer 6.0, 7.0 on Microsoft Windows XP Pro, Microsoft Windows XP Pro 64 bit
- Safari 2.0 on Mac OS X 10.4.x, 10.5

IBM Lotus Domino:

- Lotus Domino 7.0.x, 8.0

LDAP:

- IDS 5.2, and 6.0
- Lotus Domino 6.5, 7 or 8
- Microsoft Active Directory 2000, 2003
- Sun ONE Directory 5 (iPlanet 5.1, 5.2)

Lotus Domino Directory:

- Lotus Domino 6.5, 7, or 8

Planning information

Software Maintenance is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Maintenance offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Maintenance with each program license acquired. The initial period of Software Maintenance can be extended by the purchase of a renewal option, if available.

Packaging: IBM Lotus Sametime Standard 8.0 will be distributed through a media package and electronic software distribution (ESD). It is distributed in one package with the following:

- IBM Lotus Sametime Standard 8.0 product CDs.
- Prerequisite software CDs.
- Softcopy product documentation, including README files, are included on the product CDs.

The License Information form number is L-MCOS-76DL4K.

IBM Lotus Sametime Enterprise Meeting Server 8.0 will be distributed through a media package and electronic software distribution (ESD). It is distributed in one package with the following:

- IBM Lotus Sametime Enterprise Meeting Server 8.0 product CD.
- Prerequisite software CDs.
- Softcopy product documentation, including README files, are included on the product CD.

The License Information form number is L-KBIM-76AJ9Z.

Security, auditability, and control

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Software Services

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an unmatched portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support any critical business need.

To learn more about IBM Software Services or to contact a Software Services sales specialist, visit

<http://www.ibm.com/software/sw-services/>

To locate an IBM Business Partner, visit

Charge metrics definitions

Value Unit

A Value Unit is a pricing charge metric for program license entitlements which is based upon the quantity of a specific designated measurement used for a given program. Each program has a designated measurement. The most commonly used designated measurement is a processor core. However, for select Programs, there are other designated measurements such as users, client devices, and messages. The number of Value Unit entitlements required for a program depends on how the program is deployed in your environment and must be obtained from a Value Unit table. You must obtain a PoE for the calculated number of Value Unit entitlements for your implementation. The Value Unit entitlements are specific to a program and may not be exchanged, interchanged, or aggregated with Value Unit entitlements of another program.

Processor (Value Unit)

A processor core is a functional unit within a computing device that interprets and executes instructions. A processor core consists of at least an instruction control unit and one or more arithmetic or logic unit. With multicore technology, each core is considered a processor. Not all processor cores require the same number of Value Unit entitlements. To calculate the number of Value Unit entitlements required, refer to the Value Unit table on the following Web site

http://www-142.ibm.com/software/sw-lotus/services/cwepassport.nsf/wdocs/pvu_table_for_customers

With full capacity licensing, a PoE must be acquired for the appropriate number of value units based on all activated processor cores available for use on the server.

Concurrent user

A concurrent user is one and only one individual within or outside your enterprise. The number of PoEs required is for the highest number of users simultaneously accessing the program or any program components either directly or indirectly (via a multiplexing program, device, or application server) through any means on behalf of the user.

Authorized user

An authorized user is one and only one individual (named or unnamed) within or outside your enterprise. A PoE must be obtained for each individual user accessing the program in any manner. A program licensed under an authorized user PoE may be installed on a single computer or server, and accessed by multiple users, provided that a PoE has been obtained for each individual user accessing the program either directly or indirectly (via a multiplexing program, device, or application server) through any means on behalf of the user.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing: IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Maintenance, previously referred to as Software Subscription and Technical Support.

License Information form numbers

Program name	Program number	Form number
IBM Lotus Sametime	5724- J23	L- MCOS- 76DL4K
IBM Lotus Sametime Enterprise Meeting Server	5724- J27	L- KBIM- 76AJ9Z

The program's License Information will be available for review on the IBM Software License Agreement Web site

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies: Yes

Warranty: IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM

will correct all Program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. Consult the IBM Software Support Guide for further information at

<http://www.ibm.com/software/support>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support: Technical support of a program product will be available for a minimum of three years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates, releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

Money-back guarantee: If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program. For programs acquired under any of IBM's On/Off CoD software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Authorization for use on home/portable computer: The program may be stored on the primary machine and another machine, provided that the program is not in active use on both machines at the same time. You may not copy and use this program on another computer without paying additional license fees.

Product name

IBM Lotus Sametime	No
IBM Lotus Sametime Enterprise Meeting Server	No

International Passport Agreement

Passport Advantage applies: Yes, and through the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Agreement for Acquisition of Software Maintenance: The following agreement applies for maintenance and does not require customer signatures:

- IBM Agreement for Acquisition of Software Maintenance (Z125-6011)

Software Maintenance applies: Yes. Software Maintenance is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Maintenance offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Maintenance with each program license acquired. The initial period of Software Maintenance can be extended by the purchase of a renewal option, if available.

While your Software Maintenance is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides

assistance via telephone and, if available, electronic access, to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Guide at

<http://techsupport.services.ibm.com/guides/handbook.html>

Software Maintenance does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage Web site at

IBM Electronic Services

IBM has transformed its delivery of hardware and software support services to help you achieve higher system availability. Electronic Services is a Web-enabled solution that offers an exclusive, no-additional-charge enhancement to the service and support available for IBM servers. These services are designed to provide the opportunity for greater system availability with faster problem resolution and preemptive monitoring. Electronic Services comprises two separate, but complementary, elements: Electronic Services news page and Electronic Services Agent.

The Electronic Services news page is a single Internet entry point that replaces the multiple entry points traditionally used to access IBM Internet services and support. The news page enables you to gain easier access to IBM resources for assistance in resolving technical problems.

The Electronic Service Agent™ is no-additional-charge software that resides on your server. It monitors events and transmits system inventory information to IBM on a periodic, client-defined timetable. The Electronic Service Agent automatically reports hardware problems to IBM. Early knowledge about potential problems enables IBM to deliver proactive service that may result in higher system availability and performance. In addition, information collected through the Service Agent is made available to IBM service support representatives when they help answer your questions or diagnose problems. Installation and use of IBM Electronic Service Agent for problem reporting enables IBM to provide better support and service for your IBM server.

Prices

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner. Additional information is also available at

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, both from IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.
