At a glance

IBM(R) Maximo(R) for Aviation V7.6.6 enhancements include:

- Improved maintenance deferral process
- Extended capability of the Model and Part Number master
- Improved management of Technical Publication and Operator Maintenance Programs (OMPs)
- Improved work order tracking
- Capability to reduce the part receiving and inspection process
- Capability to simplify the procurement of spare parts and streamline the pricing and billing for work

IBM Maximo Asset Configuration Manager V7.6.6 enhancements include:

- Improved maintenance deferral process
- Extended capability of the Model and Part Number master
- Improved management of Technical Publication and OMPs

Overview

IBM Maximo asset management solutions

Maximo for Aviation V7.6.6 provides robust lifecycle management and maintenance management capabilities for both rotary and fixed wing aircraft, and can help organizations that provide maintenance, repair, and overhaul services in the aviation market improve the performance of their operations. With its advanced asset management functions, Maximo for Aviation can help your organization improve asset life, reduce aircraft downtime, and lower the cost of ownership.

New capabilities of this release of Maximo for Aviation help organizations:

- Improve the maintenance deferral process
- Extend the capability of the Model and Part Number master
- Improve the management of Technical Publication
- Improve management of OMPs
• Improve work order tracking
• Reduce the part receiving and inspection process
• Make the procurement of spare parts easier
• Streamline the pricing and billing for work

Maximo Asset Configuration Manager V7.6.6 is an add-on to IBM Maximo Asset Management that helps organizations manage the configuration of high-value, complex, and regulated assets such as aircraft and rail vehicles. It provides near-real-time calculation of an asset’s configuration and the life of each component of the asset, enabling more accurate system and component analysis and reporting.

New capabilities of this release of Maximo Asset Configuration Manager help organizations:
• Improve the maintenance deferral process
• Extend the capability of the Model and Part Number master
• Improve the management of Technical Publication
• Improve management of OMPs

Key prerequisites

See the Hardware requirements and Software requirements sections.

Planned availability date

September 22, 2017

See the Availability of national languages section for national language availability.

Availability of national languages

For a complete list of IBM Maximo products’ supported languages, see the Product Configuration Matrix website.

Translation information, if available, can be found at the Translation Reports website.

Offering Information

Product information is available on the IBM Offering Information website.

More information is also available on the Passport Advantage® and Passport Advantage Express® website.

Publications
IBM Maximo for Aviation V7.6.6 English and national language product documentation can be accessed on IBM Knowledge Center on September 22, 2017.

IBM Maximo Asset Configuration Manager V7.6.6 English and national language product documentation can be accessed on IBM Knowledge Center on September 22, 2017.

English product documentation is also included with the program software and may be printed.

English publications will be available on the product’s general availability date. National language publications will be available within 60 days of general availability. See the Product Configuration Matrix for additional information about translation of publications.

**Services**

**Software Services**

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an extensive portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.

To learn more about IBM Software Services, contact your Lab Services Sales or Delivery Leader.

**Technical information**

**Specified operating environment**

**Hardware requirements**

**Client workstation**
- Processor: Intel™ Pentium™ 2 - 4 GHz
- Main memory: 2 - 4 GB RAM

**Administrator workstation**
- Processor: Intel Pentium 2 GHz
- Main memory: 7 GB RAM
- Hard disk space: Minimum 11 GB
- Network connection between administrator system and middleware: 10 Mbps

**Application software server**
- Processor: Intel Pentium (minimum) Single-Server Topology 2 GHz
- Processor: Intel Pentium (recommended) Single-Server Topology 6 GHz
- Processor: Intel Pentium (minimum) Multi-Server Topology 2 GHz
- Processor: Intel Pentium (recommended) Multi-Server Topology 6 GHz
- Hard disk space: 60 GB
- Main memory: 8 GB RAM minimum
- Main memory: 8 GB RAM recommended

**Software requirements**
Client workstations

Software:
- Microsoft® Internet Explorer 11.0; Microsoft Edge 20; Firefox 31, 38, 45, 52; Google Chrome 37, 47, 57; Safari 7 (Macintosh only)
- Adobe® Acrobat Reader 8 or 9

Application server

This is the server where you install IBM WebSphere® Application Server Network Deployment or BEA WebLogic Application Server and typically, where you deploy Maximo Enterprise Archive (EAR) files.

Hypervisors

AIX®:
- Application Workload Partition (WPAR) in IBM AIX V7.1
- IBM PowerVM® Hypervisor (LPAR, DPAR, Micro-Partition), any supported version
- WPAR: Product installed in Global AIX Instance, executed in System Workload Partition in AIX V7.1
- WPAR: Product installed in System Workload Partition in AIX V7.1

Linux™:
- IBM PR/SM™, any version
- IBM PowerKVM, any supported version
- IBM PowerVM Hypervisor (LPAR, DPAR, Micro-Partition), any supported version
- KVM for IBM z Systems™
- KVM in SUSE Linux Enterprise Server (SLES) 11
- Microsoft Hyper-V Server 2012
- Microsoft Hyper-V Server 2012 R2
- Red Hat KVM as delivered with Red Hat Enterprise Linux (RHEL) and its Red Hat Enterprise Virtualization (RHEV) equivalent 6.0
- Red Hat KVM as delivered with RHEL and its RHEV equivalent 6.5
- VMware ESXi 5.5, and 6.0
- IBM z™/VM V6.1

Microsoft Windows™:
- KVM in SUSE Linux Enterprise Server (SLES) 11
- Microsoft Hyper-V Server 2012
- Microsoft Hyper-V Server 2012 R2
- Red Hat KVM as delivered with RHEL and its RHEV equivalent 6.5
- VMware ESXi 5.5, and 6.0

Web servers:
- IBM WebSphere Application Server V8.5, V8.5.5.3, V8.5.5.8, V8.5.5.9, V9 with JDK 1.8
- WebLogic Server 12c, 12cR1, 12cR2, 12.2.x with JDK 1.8

Database servers

This is the server where you install database software to create and maintain your IBM Maximo database. You are responsible for maintaining the database platform software.
• Hardware:
  - Refer to the database vendor documentation for hardware specifications.

• Software:
  - IBM Db2\textsuperscript{R} 10.1, 10.5, 11.1
    -- Workstation or Enterprise Edition
    -- Configured for TCP/IP support
  - Oracle V11g R2 Standard or Enterprise Edition
  - Oracle V12c Standard or Enterprise Edition
  - Microsoft SQL Server 2012\textsuperscript{1}
  - Microsoft SQL Server 2014\textsuperscript{1}
  - Microsoft SQL Server 2016\textsuperscript{1}

• Report servers:
  - Business Intelligence Reporting Tools (BIRT) 4.3.1
  - IBM Cognos\textsuperscript{R} Business Intelligence V10.2.1.1

• Lightweight Directory Access Protocol (LDAP) support:
  - IBM Tivoli\textsuperscript{R} Directory Server V6.3
  - Microsoft Active Directory 2012, 2012 R2

• Java\textsuperscript{TM} support (browser):
  - Oracle Java SE Developmental Kit, Java Runtime Environment, Java Developmental Kit 7.0.55, 7.0.65, 7.0.67, 7.0.71, 7.0.75, 8.0.60, 8.0.66, 8.0.71, 8.0.74, and 8.0.77
  - Oracle Java SE Developmental Kit, Java Runtime Environment, Java Developmental Kit (Mac OS X) 7.0 Update 55, 7.0 Update 65, 7.0 Update 67, 7.0 Update 71, 7.0 Update 75 and 8.0 Update 60, 8.0 Update 66, 8.0 Update 71, 8.0 Update 74, and 8.0 Update 77

• Browser support:
  - Internet Explorer 11
  - Edge 20
  - Firefox 31, 38, 45, 52
  - Google Chrome 37, 47, 57
  - Safari 7 (Macintosh only)

• Mobile browser support:
  - All browsers supported by IBM Maximo Asset Management V7.6
  - Native browser on Apple iOS devices (Apple iPhone, Apple iPod touch, and Apple iPad)
  - Native browser on devices running Android 4, or later

A complete listing of supported software can be obtained at the IBM Software Product Compatibility Reports website.

\textsuperscript{1} Microsoft SQL Server not supported by the following:

• IBM Maximo Asset Configuration Manager
• IBM Maximo for Aviation

**IBM Electronic Support**

The IBM Support Portal is your gateway to technical support. This includes IBM Electronic Support tools and resources, for software and hardware, to help save time and simplify support. The Electronic Support tools can help you find answers to questions, download fixes, troubleshoot, automate data collection, submit and track problems through the Service Request online tool, and build skills. All these tools are made available through your IBM support agreement. Read about the Electronic Support portfolio of tools on the IBM Electronic Support website.
You can also access the IBM Support Portal page and the online Service requests and PMRs tool for more support.

**Planning information**

**Packaging**
This offering is delivered as electronic download from Passport Advantage. There is no physical media.

This program, when downloaded from a website, contains the applicable IBM license agreement and License Information, if appropriate, which will be presented for acceptance at the time of installation of the program. For future reference, the license and License Information will be stored in a directory such as LICENSE.TXT.

**Ordering information**

This product is only available through Passport Advantage. It is not available as shrinkwrap.

These products may only be sold directly by IBM or by authorized IBM Business Partners for Channel Value Rewards.

More information can be found on the IBM Channel Value Rewards website.

To locate IBM Business Partners for Channel Value Rewards in your geography for a specific Channel Value Rewards portfolio, go to the Find a Business Partner page.

**Asset**

Asset is a unit of measure by which the Program can be licensed. An Asset is any tangible resource or item of value to be managed, including production equipment, facilities, transportation, IT hardware and software. Licensee must obtain entitlements for the total number of Assets accessed or managed by the Program.

**Authorized User**

Authorized User is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. The program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the program in any manner directly or indirectly (for example, through a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.
**Concurrent User**

Concurrent User is a unit of measure by which the program can be licensed. A Concurrent User is a person who is accessing the program at any particular point in time. Regardless of whether the person is simultaneously accessing the program multiple times, the person counts only as a single Concurrent User. The program may be installed on any number of computers or servers, but licensee must obtain entitlements for the maximum number of Concurrent Users simultaneously accessing the program. Licensee must obtain an entitlement for each simultaneous Concurrent User accessing the program in any manner directly or indirectly (for example, through a multiplexing program, device, or application server) through any means.

**Install**

Install is a unit of measure by which the program can be licensed. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each install of the program.

**Terms and conditions**

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available through Passport Advantage.

**Licensing**

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

**Agreement for Acquisition of Software Maintenance**

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as
access to updates, releases, and versions of the program as long as support is in effect.

</tr>
</tbody>
</table>

See the License Information documents page on the IBM Software License Agreement website for more information.

**Limited warranty applies**

Yes

**Limited warranty**

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information about known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the IBM Software Support Handbook.

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

**Program technical support**

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect.

This technical support allows you to obtain assistance (by telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, through an announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

For additional information about the IBM Software Support Lifecycle Policy, see the IBM Software Support Lifecycle Policy website.

**Money-back guarantee**

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM’s On/Off Capacity on
Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

**Volume orders (IVO)**

No

**Passport Advantage applies**

Yes, information is available on the [Passport Advantage and Passport Advantage Express](https://www.ibm.com/products/passport-advantage-express) website.

**Software Subscription and Support applies**

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the [IBM Software Support Handbook](https://www.ibm.com/support/ibm-software-support-handbook). Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the [IBM Software Support Handbook](https://www.ibm.com/support/ibm-software-support-handbook).

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the [Passport Advantage and Passport Advantage Express](https://www.ibm.com/products/passport-advantage-express) website.

**IBM Operational Support Services - SoftwareXcel**

**Variable charges apply**

No

**Educational allowance available**

Not applicable.

---

**Statement of good security practices**
IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

**Important:** IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

**IBM Electronic Services**

Electronic Service Agent™ and the IBM Electronic Support web portal are dedicated to providing fast, exceptional support to organizations that have IBM Systems. The IBM Electronic Service Agent tool is a no-additional-charge tool that proactively monitors and reports hardware events, such as system errors, performance issues, and inventory. The Electronic Service Agent tool can help you stay focused on your company's strategic business initiatives, save time, and spend less effort managing day-to-day IT maintenance issues. Servers enabled with this tool can be monitored remotely around the clock by IBM Support, all at no additional cost to you.

Now integrated into the base operating system of AIX V5.3, AIX V6.1, and AIX V7.1, Electronic Service Agent is designed to automatically and electronically report system failures and utilization issues to IBM, which can result in faster problem resolution and increased availability. System configuration and inventory information collected by the Electronic Service Agent tool also can be viewed on the secure Electronic Support web portal, and used to improve problem determination and resolution by you and the IBM support team. To access the tool main menu, simply type smitty esa_main, and select Configure Electronic Service Agent. In addition, ESA now includes a powerful web user interface, giving the administrator easy access to status, tool settings, problem information, and filters. For more information and documentation on how to configure and use Electronic Service Agent, go to the IBM Electronic Support website.

The IBM Electronic Support portal is a single internet entry point that replaces the multiple entry points traditionally used to access IBM internet services and support. This portal enables you to gain easier access to IBM resources for assistance in resolving technical problems. The My Systems and Premium Search functions make it even easier for organizations that are Electronic Service Agent tool-enabled to track system inventory and find pertinent fixes.

**Benefits**

**Increased uptime:** The Electronic Service Agent™ tool is designed to enhance the Warranty or Maintenance Agreement by providing faster hardware error reporting and uploading system information to IBM Support. This can translate to less wasted time monitoring the symptoms, diagnosing the error, and manually calling IBM Support to open a problem record. Its 24 x 7 monitoring and reporting mean human intervention is not required to report errors.

**Security:** The Electronic Service Agent tool is designed to be secure in monitoring, reporting, and storing the data at IBM. The Electronic Service Agent tool is designed to securely transmit either through the internet (HTTPS or VPN) or modem to provide organizations a single point of exit from their site. Communication is one way. Activating Electronic Service Agent does not enable IBM to call into an organization's system.
For additional information, go to the IBM Electronic Service Agent website.

**More accurate reporting:** Because system information and error logs are automatically uploaded to the IBM Support Center in conjunction with the service request, you are not required to find and send system information, decreasing the risk of misreported or misdiagnosed errors. Once inside IBM, problem error data is run through a data knowledge management system and knowledge articles are appended to the problem record.

**Customized support:** Using the IBMid entered during activation, you can view system and support information in the My Systems and Premium Search sections of the IBM Electronic Support page.

My Systems provides valuable reports of installed hardware and software using information collected from the systems by Electronic Service Agent. Reports are available for any system associated with your IBMid. Premium Search combines the function of search and the value of Electronic Service Agent information, providing advanced search of the technical support knowledgebase. Using Premium Search and the Electronic Service Agent information that has been collected from your system, you are able to see search results that apply specifically to your systems.

For more information about how to utilize the power of IBM Electronic Services, contact your IBM Systems Services Representative, or go to the IBM Electronic Support website.

---

**Prices**

**Business Partner information**

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the IBM Passport Advantage website.

For current prices, contact your IBM representative.

**Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner for Channel Value Rewards. Additional information is also available on the Passport Advantage and Passport Advantage Express website.

**IBM Global Financing**

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the IBM Global Financing website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers
payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

Order now

To order, contact the IBM Digital Sales Center, your local IBM representative, or your IBM Business Partner. To identify your local IBM representative or IBM Business Partner, call 800-IBM-4YOU (426-4968). For more information, contact the IBM Digital Sales Center.
