At a glance

IBM SmartCloud™ Application Services Version 1.0 is IBM's platform-as-a-service offering for the public cloud. It delivers a collaborative, cloud-based environment that supports the full lifecycle of accelerated application development, deployment, and delivery. IBM SmartCloud Application Services provides an enterprise-class infrastructure, enhanced security, and pay-as-you-go services. Clients can use IBM SmartCloud Application Services to sense and quickly respond to market demands, capture new markets, and reduce application delivery and management costs.

Overview

IBM SmartCloud Application Services (SCAS) is IBM's platform-as-a-service offering. SCAS delivers a collaborative, cloud-based environment that supports the full lifecycle of accelerated application development, deployment, and delivery. IBM SmartCloud Application Services provides an enterprise-class infrastructure, enhanced security, and pay-per-use. In short, SCAS makes application development and delivery easier and more cost effective for our customers.

Rapid access to IBM SmartCloud Application Services achieves cloud-based economies and speed while maintaining differentiation through custom applications. SCAS runs on top of IBM's infrastructure-as-a-service offering, IBM SmartCloud Enterprise, providing additional capabilities to IBM's enterprise-class cloud portfolio.

Key prerequisites

IBM SmartCloud Enterprise (6948-96H)

Planned availability date

December 18, 2012
