WebGui 8.1 FP 16 Installation in GUI Mode A step by step example by Raluca Gligore

Description

This guide has the purpose to illustrate a step by step example for WebGui 8.1 FP16 Installation in GUI Mode.

FP16 download link can be found here :

https://www-01.ibm.com/support/docview.wss?uid=ibm10791445 Please check the readme file and all the prerequisites needed for FP16.

- 1. Download and Extract the Fixpack into a new temporary directory
- 2. Open Installation Manager

3. Go to File -> Preferences - > Add Repositories

Click on Browse and select repository.config from delta.core and servicedelta.core directories.

Add Repository		×
Add a repository Specify a repository and add to the repository preference list.		
Repository:		-
/FP16/OMNIbusRepository/5.50.77.delta.core/repository.config		• Browse
	Cancel	ок
Add Repository		×
Add a repository Specify a repository and add to the repository preference list		
Repository		~
/FP16/OMNIbusRepository/5.50.77.servicedeita.core/repository.config		· Browse
	Cancel	ок

You can add the NOI extension package too using the above steps. Below you can see all the repositories added:

IFF 140 MINDUSK eposeory 3.50.77 deck convergoskory comp	-0-		1421-111
/FP16/OMNibusRepository/5.50.77.servicedefta.core/repository.combg	4	Mov	e Down
/FP16N/OMNibusWebGUIRepository/deta/repository.com/g	4	Clear C	redection
//P16N/OMNIbulWebGUIRepostory/serviceDetairepostory.config		Contract to	
		Test Co	somection
Service repositories are remote locations where updates or extensions to packa stored.	ges (including t	he Installation Manager R	tself) are

4. Click Update on the Installation Manager and choose IBM Netcool GUI Components.
